B. EXPECTED DELIVERABLES

1. Background of the Project

The Council of Europe's Economic Crime and Cooperation Division is currently implementing the Action "Promoting Transparency and Action against Economic Crime" (CA TAEC) in Uzbekistan within the framework of the "Central Asia Rule of Law Programme (2020-2023)". The Central Asia Rule of Law Programme 2020-2023 is a joint initiative co-funded by the European Union and the Council of Europe and implemented by the Council of Europe.

Duration of the Project: until December 2023.

The Council of Europe is looking for a maximum of 5 (*five*) Provider(s) (provided enough tenders meet the criteria indicated below) in order to support the implementation of the project with a particular expertise in event management.

This Agreement is currently estimated to cover up to 15 activities to be held by December 2023. This estimate is for information only and shall not constitute any sort of contractual commitment on the part of the Council of Europe. For information purposes only, the total budget of the project amounts to 4,189,886 Euros and the total amount of the object of present tender **shall not exceed 55,000 Euros tax exclusive** for the whole duration of the Framework Agreement. This information does not constitute any sort of contractual commitment or obligation on the part of the Council of Europe.

The signature of a framework agreement will in no way give rise to an obligation upon the Council of Europe to organise a minimum number of events. Events shall be organised at the sole discretion of the Council of Europe and call-off procedures will be announced accordingly as and when the need arises.

The Provider will not in any manner be entitled to represent the Council of Europe, or to act on its behalf. The Provider will remain the sole and unique liable contractor in its relationship with the Council of Europe, irrespective of its relationship with subcontractors and other interested third parties.

The above lists are not considered exhaustive. The Council reserves the right to request deliverables not explicitly mentioned in the above list of expected services, but related to them.

Security requirements

With respect to services to be provided under items 2.1 to 2.6 above (Section B), the Service Provider shall be responsible for compliance with the following security standards in the implementation of all call-offs concluded under the Framework Agreement.

All premises, wherever located, where the Council organises events and/or accommodation, must comply with the following basic requirements, unless otherwise specified by the Council of Europe in a subsequent call-off:

- Security staff on regular duty;

- A CCTV system shall cover public areas of the premises (e.g. hotel);
- When relevant, a functioning and regularly checked elevator system in place;
- A functioning fire alarm system;
- At least one fire evacuation exit from the premises (e.g. hotel);
- Clearly marked fire evacuation routes;
- Smoke detectors installed in all premises (e.g. hotel) and conference rooms;
- Fire extinguishers placed on all floors of the premises (e.g. hotel) and in public areas near conference rooms.

If specific security concerns related to the organisation of an event have been identified by the Council of Europe, the national authorities, or the Service Provider, the Council may:

- Decline offers in response to call-offs on the basis of specific security concerns;
- Request Service Providers to submit offers of accommodation or conference facilities from a list of premises where the Council of Europe has conducted a security risk assessment. Where relevant, this list shall be provided to Providers at the time of the relevant call-off.

If an event is organised in premises separate to the accommodation, the above standards also apply to that specific event site.

Where the Service Provider or its sub-contractor provides an airport pick-up or other transportation service, the selection of the transportation company/drivers should not be done on an *ad hoc* basis. The Service Provider or its sub-contractor should have an established working relationship with the company/drivers and be able to rely on their services. In general, the requirements listed for transportation below shall be complied with. Any failure to comply with these standards shall be notified to the Council of Europe when tendering for call-offs and may lead to rejection of the offer.

If the Council of Europe requests Providers to submit offers for transportation services, then Providers must ensure the following requirements are met:

- All passengers are insured in case of an accident by third party liability insurance (TPL), in compliance with domestic legislation;
- All drivers shall have a valid driving licence for the respective vehicle class as prescribed by the applicable national legislation;
- All drivers shall have at least 5 (five) years of professional driving experience;
- The drivers are selected via a testing process by the relevant transportation companies;
- The vehicles are not more than 7 (seven) years old and must have had annual technical check-ups;
- All drivers shall be aware of and observe professional ethics in dealing with clients.

In exceptional circumstances, the Council may accept a driver with less professional experience or an older vehicle provided all other requirements are met, and the unavailability of services meeting the standard requirements has been explicitly brought to the attention of the Council of Europe prior to the performance of the services.

The Council of Europe can refuse the services of a particular driver if there is concern that his/her ability to carry out his/her duties safely may have been impaired, affected or influenced by illness, fatigue or injury or any other reason. The Council of Europe can refuse the services to be delivered by a particular vehicle if there is a concern that at the moment when the service needs to be delivered, the vehicle in question is not deemed fit for the purpose.

Where the Council considers necessary, it may request a higher or lower level of security than listed above. In such cases, the call-off for the relevant services will provide details of specific security measures valid only for the event(s) concerned. If no specific measures are provided in the call-off concerned, the above list remains valid.

C. FEES

Tenderers will be requested to tender, including with regard to fees, through subsequent competitive procedures (call-offs), which will be held after the signature of this agreement (see below Section D for more details about call-offs procedure). The fees proposed will have to include all travel and subsistence costs related to provision of services by the provider and their representatives.

All payments shall be made against invoices. It shall be possible in certain circumstances for pre-payments or deposits to be made, where this is in line with the tenderer's usual business practice and necessary for the proper performance of the contract. Prepayments shall be limited to a percentage of the total amount of each call-off, which shall be indicated in the call-off contract.

D. HOW WILL THIS FRAMEWORK AGREEMENT WORK? (CALL-OFFS PROCEDURE)

Throughout the duration of this Framework Agreement, the pre-selected Providers will benefit from exclusivity, within the limits of the scope of this Agreement.

1. 1st stage: Selection and signature of the Framework Agreement

The Council of Europe will select the number of Providers per lot, as indicated above in section B, provided that there are sufficient tenderers satisfying the exclusion and eligibility criteria. In case the number of eligible tenderers exceeds the maximum number of Providers to be selected, the Council of Europe reserves the right to give preference to tenderers who score the highest on the basis of the award criteria (see Section E below).

A signed copy of the Act of Engagement will be returned to the pre-selected Providers. The Framework Agreement will subsequently be considered as concluded between the Council of Europe and these pre-selected Providers.

2. 2nd Stage: Award of subsequent call-offs

Once the Framework Agreement is signed, further competitive procedures will be launched to determine which of the pre-selected Providers will provide the services.

During the execution period of the Framework Agreement, tendering procedures, referred to as "call-offs", will be launched each time a new need for services arises. For these call-offs, only the pre-selected Providers will be invited to submit tenders.

For each call-off, the pre-selected Providers will be notified of the terms of reference, and, where relevant, about additional tender rules and additional legal conditions applicable. Each notification will indicate the deadline for the submission of tenders, along with all supporting documents, taking into account the complexity of the call-off concerned. Call-off tenders received after the deadline shall not be considered.

For more information about the call-off procedure, see the applicable legal conditions under Article 4.1 (as reproduced in the Act of Engagement).

The Council reserves the right to contract with third parties if the offers presented by the pre-selected Providers do not satisfy the applicable professional standards, do not cover the entire scope of the Council of Europe's needs or if no suitable offer is presented.

The award criteria (See Section E below) will be applied to each call-off in order to identify which offer provides the best value for money.

3. Award criteria and weighting for the subsequent call-offs

- (50%) **Capacity to provide the requested services, including:**
 - the **technical requirements** of the call-off (see items 2.1 to 2.6 above under Section B), including provider's security and cancellation policy;
 - the **quality requirements** of the call-off (including provider's characteristics and quality of facilities and services to be provided);
 - the **human resources** allocated to the event(s).
- (50%) **Financial offer:** the price of services taken individually and together, including any overall handling fee/commission.

The above criteria will be assessed on the basis of the documents identified/requested by the Council in each individual call-off including cancellation policy and security arrangement.
