

21ST UNIVERSITY ON YOUTH AND DEVELOPMENT (UYD)

11-18 September 2022

Mollina, Spain

CALL FOR ACTIVITIES

Deadline for proposals: 22 May 2022

The Network on Youth and Global Citizenship and the Summer Universities

The Network on Youth and Global Citizenship is a partnership facilitated by the North-South Centre of the Council of Europe that gathers youth-led organisations, international youth platforms and governmental institutions from Europe, the Southern Mediterranean and beyond. The Network was set up in 2011 as an informal platform of dialogue and multilateral cooperation at interregional level in the youth field.

Every year, the Network promotes international youth events called “Summer Universities”. **In each “University” a number of youth-led and youth-oriented organisations have the possibility to run their own activities (trainings, seminars, board meetings, etc.) within a dynamic and participatory context which encourages networking, cooperation and peer-to-peer education.**

The University on Youth and Development (UYD) is the most long-standing Summer University. Since 2000 the UYD represents an international hub for meetings, youth advocacy and exchange of good practices. **It gathers, for one week, hundreds of young people, youth workers, decision makers, experts from the field and institutional representatives, providing them all with a space to meet, debate, build their capacities and cooperate on youth policy issues.** The University on Youth and Development (UYD) is designed as a space for experiencing intercultural dialogue while debating the most pressing issues of the global youth movement.

Youth organisations and any other youth-related institution can apply to join the UYD and organise an activity within the framework of the event. Each organisation is responsible for funding and managing its own activity (including selecting and bringing its own group of participants on-site).

The organisations selected to run their activity within the 21th UYD will join the partnership and collaborate with many other organisations for the success of the event and for the growth of the youth sector.

The annual theme

Every year the Network on Youth and Global Citizenship proposes a **theme representing the thread that connects all the activities taking place in the framework of the Universities that same year.**

The plenary sessions and all the other common moments of the University (the “Joint Programme”) explore the annual theme, connecting all partners’ activities and engaging all the participants involved in them.

For the period 2018-2020* the Network agreed on a three-year cycle under the umbrella theme of the United Nations Sustainable Development Goal 16: **“Peace, justice and strong institutions”**. The umbrella theme, representing the overarching priority of a three-year cycle, is broken down every year into a specific annual theme according to the three pillars of the SDG16: peace, justice and strong institutions.

The annual theme for 2022 is: “Building effective, accountable and inclusive institutions”.

- [Please consult the Concept Note to explore in detail the three-year umbrella theme and the 2022 annual theme \(link here\)](#)

**Due to the pause imposed by the COVID 19 pandemic in the year 2020 and 2021, the cycle will be concluded in 2022.*

The structure of the UYD

The UYD is a residential one-week long event. The schedule of the week enables organisations to run their own activities (training, workshop, seminars, etc.) while ensuring enough time for everyone to get together around the “Joint Programme”.

The “Joint Programme” consists of a series of special plenary moments where everyone involved in the University get together to explore the annual theme, to share personal experiences and good practices, to interact with experts and decision makers and to plan joint advocacy actions.

The “Joint Programme” also connects all the activities implemented in the framework of the UYD: it enriches the learning processes by allowing a transversal reflection among participants involved in different activities. **The Joint Programme is ultimately designed to encourage networking and intercultural dialogue while addressing the challenges young people face.**

The “Joint Programme” is developed by the Joint Team: a multifaceted group composed by experienced trainers, youth animators, musicians, graphic artists, and media professionals in charge of building up community spirit throughout the event and of ensuring a fruitful learning experience for everyone.

The educational model implemented in the UYD is largely inspired by the North-South Centre’s [Global Education Guidelines](#).
