

INTERNAL ORGANISATION OF THE PUBLIC BROADCASTING COMPANIES Composition of the public broadcasters' boards

"[...] [There] is **no common European model of public media sector governance**. Thus, it is up to the Hungarian authorities to develop a legislative framework which would **secure pluralism** within the PSM supervising bodies and sufficient independence of the public broadcasters. However, as a result of such reform the structure of bodies governing the PSM sector should be simplified, the influence of the ruling party in the process of appointment of members of the PSM supervising bodies and PSM executives should be reduced, and a fair representation of all important political, social and relevant professional groups within those bodies must be secured."
