

## Project summary

The ANAUNE association of friends of the pilgrim's way to Santiago has decided to apply for an Erasmus plus KA122 Adu project, because it has been operating for years, and after a period of inactivity due to the pandemic , it feels the needs to renew itself and face new challenges to improve the educational offer and the social-cultural opportunities addressed to members, especially through mobility activities.

Through the knowledge and use of the EPALE platform was stimulated to undertake new training experiences with the European organisations similar to the association to share and learn new techniques and methodologies.

### Objectives

- Reinforce sustainable tourism activities
- Extend some innovative digital activities
- Create new mobilities opportunities for adults all ages to open to the European dimension.
- Involve all the institutions and social and cultural organisations of the territory in a democratic participation.

### Activities

- Preparatory visit to prepare the learners mobilities in Astorga Spain with an Jacobean association
- Inviting experts from APE association of Ecotourism in Coimbra, Portugal and from Algaba sustainable environmental women association from Ronda, Spain
- Jobshadowing for association decision makers to implement a working collaboration
- Training courses for association staff - APE and Algaba
- Group mobility of adult learners, with a view to inclusion and socialisation and overcoming disadvantages and differences.

### Results

- Opening the association to new international contexts
- Maintaining long-term relationships with hosting organisations
- Involvement in activities responding to inclusion and socialisation especially for marginalized members
- Increasing ecological awareness
- Use of digital technologies to increase historical and artistic knowledge of the ways.
- Democratic involvement of all socio-educational components of the territory.
- Increase in the use of European plaeforms, which are useful for the dissemination of good practices.
