

Statement of interpretation on Article 7§2

During the course of its examination of the first Reports submitted by the Governments of those two States the Committee interpreted the expression "minimum age" appearing in this paragraph, as being identical with the minimum age indicated in Article 7 (1) that is 15 years, this being true even with respect to Contracting States who have not accepted the above-mentioned paragraph 1. The Committee considered in fact that this interpretation follows logically from the implicit reference in Article 7 (2) to paragraph 1 of the same Article.
