

# 01 Sustainable territorial development

## process with labour

**ANCIENT ROUTE**  
from the Po River to Pomposa monastery  
ECOSYSTEM SERVICES - sociability and 'identity space'

Control and sustainable management of the resources  
**WATER AND SOIL**

12 hectares: from marginal fragments to green infrastructure;  
15 hectares: project of re-naturalisation;  
+ 7% farming infrastructure

2018 - The Dunes of Massenzatica, fragile landscapes, as fragments of biodiversity, the building blocks for the reconstruction of a cohesive and vital environmental system

2018 - Ancient natural lakes: natural areas recovered by the Consortium. 'Cells of resilience' and biodiversity for the construction of green and blue infrastructures

2018 - Redeveloped hummocks: a new permanent forest realized by the Consortium. 3 hectares: planting of a permanent forest of native tree species.

[DOSSO DEL CARBONARO]

[LA VIA POMPOSIANA]

cycle track and footpath creation linked to the green network for agricultural diversity

[BORGATA L'ANTICO GELSO]

recovery of the building patrimony undergoing abandonment in Massenzatica

[VERSO LE DUNE FOSSILI]

[SALIX VIMINALIS]

Reclamation and promotion of historic eddies for the planting of an organic vineyard on which traditional vine growing and historic grape varieties are to be reused.

[I CASONI DI CANNE]

Return to rural self-building practices such as cane huts

Innovating and reinforcing the Terre Pomposiane territorial identity by rebuilding the philological-interpretational reconstruction of the historical agricultural network

## high quality food

Research and experimental innovation

# 03 Public participation

A history of this community that has learnt how to overcome their individual differences to start to build a vision of the territory for future generations

Promote awareness in schools through workshops and educational projects for dissemination of the themes of the landscape, of sustainability, and of the identity values of the territory.

Teaching and research activities, in collaboration with Universities (Universities of Ancona, Ferrara, Padua, Udine, Trento), 'open-air' workshops and practical activities.
