

Online presentation of the “Review of the provisions of the Code on audio-visual media services regarding protection of minors“

19/11/2020

Regulatory Communications Agency (CRA), European Union and Council of Europe have organised a webinar – presentation of an expert study on “Review of the provisions of the Code on audio-visual media services regarding protection of minors“.

„This study provides concrete recommendations on how to improve the protection of minors in the increasingly complex media environment, and it will significantly help in the creation of the new regulatory framework“, stated Amela Odobašić, Assistant director for broadcasting of the Communications Regulatory Agency. The study was prepared by the Council of Europe expert Jean-François Furnémont. Representatives of television and radio stations, as well as distributors of media services in Bosnia and Herzegovina, Communications Regulatory Agency and Council of Europe representatives were among the 36 participants at the webinar.

The goal of the study was to yield recommendations on how to improve the regulatory framework of Bosnia and Herzegovina for the protection of minors, with the purpose of transposition of the regulations of the new Audio-Visual Media Services Directive, within the CRA local regulations.

This webinar was organised within the joint European Union/Council of Europe programme “Horizontal Facility for the Western Balkans and Turkey 2019-2022”, and its action on “Freedom of expression and freedom of the media in Bosnia and Herzegovina (JUFREX)”.

Online prezentacija studije “Pregled odredbi kodeksa o audiovizuelnim uslugama u vezi sa zaštitom maloljetnika“

19/11/2020

Regulatorna agencija za komunikacije (Agencija), Europska unija i Vijeće Evrope organizovali su danas vebinar na kojem je predstavljena studija "Pregled odredbi kodeksa o audiovizuelnim uslugama u vezi sa zaštitom maloljetnika“.

„Studija daje konkretne prijedloge o tome kako unaprijediti zaštitu maloljetnika u sve kompleksnijem medijskom okruženju, te će pružiti značajnu pomoć prilikom kreiranja novog regulatornog okvira“, istakla je Amela Odobašić, pomoćnica direktora za emitovanje Regulatorne agencije za komunikacije. Studiju je izradio ekspert iz Belgije Jean-François Furnémont. Među 36 učesnika bili su predstavnici televizijskih i radio stanica, kao i distributeri medijskih usluga u Bosni i Hercegovini, predstavnici Regulatorne agencije za komunikacije, te Vijeća Europe.

Cilj studije je izrada preporuka o poboljšanju regulatornog okvira Bosne i Hercegovine za zaštitu maloljetnika u svrhu transpozicije odredbi nove revidirane Direktive o audiovizuelnim medijskim uslugama u pravila i propise Agencije.

Ovaj vebinar organizovan je pod okriljem zajedničkog programa Europske unije i Vijeća Europe “Horizontal Facility za Zapadni Balkan i Tursku 2019-2022”, u sklopu projekta "Sloboda izražavanja i sloboda medija u Bosni i Hercegovini (JUFREX)".
