1. Judicial organisation in Croatia (2021 data)

According to 2021 data, the Republic of Croatia has 51 courts of general jurisdiction (33 in first instance; 17 in second instance; and the Supreme Court is the last instance); and 16 specialised courts, covering 143 geographic locations.

On the 1st of January 2021, a new court was established, the High Criminal Court, which took over part of the previous Supreme Court’s jurisdiction.

Evolution of total number of courts

Total number of courts	Geographic locations	Legal entities	
		General jurisdiction	Specialised jurisdiction
2012	158		
2013	192		
2014	203		
2015	203		
2016	203

2018	205		
2019	143		
2020	143	46	20
2021	143	51	16

The small variation in the number of courts of general jurisdiction and specialised jurisdiction between 2020 and 2021 is due to the establishment of the High Criminal Court in 2021, as well as to a change of methodology following which four courts which used to be classified as specialised are now classified as general (Misdemeanour Courts of Zagreb and Split; Municipal Court of Zagreb; High Misdemeanour Court).

Evolution of number of first instance courts

2019		30	17
2020	120	30	17
2021	120	33	14

The reform of judicial map implemented in 2015 decreased the number of Misdemeanour Courts from 63 to 22. Therefore, in accordance with the Act on Territorial Jurisdiction and Seats of Courts (Official Gazette, No. 128/14) in force, there are currently 22 Misdemeanour Courts in function. On the 1st of January 2019, the new Courts Areas and Seats Act came into force. From the organizational aspect, the most important organizational measure was the merging of misdemeanor courts into municipal courts. That is why after 2018, there are less first instance specialized courts and more courts of general jurisdiction.

The distribution between first instance general jurisdiction courts and first instance specialised courts is 70% - 30% (distribution tendency in EU: 73% - 27%).

**Absolute number of professional judges by instance and matter**

In Croatia, the distribution of judges by categories of cases is not possible, due to mixed specialization of judges in courts.

- 586 Rechtspfleger (or similar bodies) with judicial or quasi-judicial tasks having autonomous competence and whose decisions could be subject to appeal (among which 494 are Female);
- 4 241 non-judge staff whose task is to assist the judges such as registrars (of which 3 876 are Female);
- 542 staff in charge of different administrative tasks and of the court management (of which 425 are Female);
- 658 technical staff (of which 406 are Female);

The total number of non-judicial staff is a result of a deduction and subsumes only actually working staff. Thus, the total does not include staff on unpaid leave; staff on maternity leave; staff suspended after disciplinary procedures; staff transferred to other State bodies (for example the Ministry of Justice or Judicial Academy). Besides, two non-judicial officials working half-time (for the reason of care for a child with special needs) are counted as 1 non-judicial official. The reason for fluctuation and differences in the number of Rechtspflegers in Republic of Croatia is that they work for 2 years, then prolonged 5 years and then they get a permanent post or not.

3. Legal aid and court fees in Croatia (2021 data)

In Croatia, legal aid is available for :

- > Representation in court:
- Criminal cases

◦ Other than criminal cases
- > Legal advice, ADR and other legal services:
- Criminal cases

◦ Other than criminal cases
- > Fees related to enforcement of judicial decisions as fees for enforcement agents (Q18)
- > Other costs than above (Q19)

Exemption from court fees in other than criminal cases is one of the forms of secondary legal aid proscribed by the Law on Legal Aid and it may be granted in proceedings related to the enforcement of judicial decisions.

The situation changed few times in the last years. While till 2014, the exemption from payment of court fees could be granted in all judicial proceedings, including enforcement procedures and security procedures, due to changes in the Legal Aid Act in 2014, there was no more this possibility, to finally again reinstall it again in 2016 Free Legal Aid Act (Official Gazette 143/13) and allow to grant legal aid for the fees related to the enforcement of judicial decisions.

Exemption from court-proceeding-expenses in other than criminal cases also includes exemption from payment costs of witnesses, expert witnesses, court-sworn translators, costs of site visits and court advertisements. The exemption from payment of litigation costs depends on the material conditions and the type of procedure.

4. Performance of courts in Croatia (2021 data)

• Efficiency indicators

- Clearance Rate (CR) and Disposition Time (DT)

The Clearance Rate shows the capacity of a judicial system to deal with the incoming cases. A Clearance Rate of 100% and higher does not generate backlog.

The Disposition Time determines the estimated number of days necessary for a pending case to be solved in a court.

Overall efficiency by instance and by case matter

Overall efficiency by instance and by case matter		Civil and commercial litigious cases		Administrative law cases		Total criminal law cases	
		Croatia	EU Median	Croatia	EU Median	Croatia	EU Median
Clearance Rate (%)	1st instance	80,6%	102,5%	101,8%	101,7%	93,0%	100,0%
	2nd instance	98,0%	100,4%	116,0%	96,8%	89,8%	98,5%
	Supreme Court	115,7%	98,9%	27,0%	100,4%	160,9%	98,3%

	2nd instance	205	180	122	284	276	117
	Supreme Court	450	232	1895	241	88	126

In Croatia, criminal law cases at the third instance were solved faster than other types of cases in 2021 (with a Disposition Time of 88 days, which is less than the EU Median of 126 days). They also had the Highest Clearance rate (160.9%). This can be notably explained by a decrease of incoming criminal law cases at third instance in 2021 following the establishment of the High Criminal Court on 1st of January 2021, which took over part of the previous Supreme Court's jurisdiction.

Regarding civil and commercial litigious cases, the third instance was the most efficient with a clearance rate of 115.7% (while both first and second instance had clearance rates below 100%; respectively 80.6% and 98%).

For both civil and commercial litigious cases and administrative law cases, the second instance was the fastest one, with the smaller Disposition Times (205 days for civil and commercial litigious cases and 122 days for administrative law cases).

It is to be taken in consideration regarding the low Clearance Rate (27%) and high Disposition Time (1895 days) for administrative cases in third instance that the calculation is made on small numbers due to the small number of cases.

In Croatia in 2021, the total Disposition Times were longer than the EU Medians for the three types of cases (civil and commercial litigious cases, administrative law cases and criminal law cases).

## 8. Systems for measuring and evaluating the performance of courts and public prosecution services in Croatia (2021 data)

In Croatia, quality standards are determined for the judicial system at national level (e.g. quality systems for the judiciary and/or judicial quality policies). Specialised personnel within the courts and the public prosecution services is entrusted with implementation of these national level quality standards.

According to the Courts Act (Official Gazette, No. 28/13, 33/15, 82/15, 67/18), the president of the court evaluates the work of every judge according to Framework Criteria for the work of judges in the period of one year following the standards on the number of judgements delivered by a judge compared with the number of judgements that should have been delivered, according to the Framework Criteria for the work of judges, result of work in different kinds of cases, respecting deadlines in delivery of judgements and drafting of judgements, quality of judgements on the grounds of expressed remedies in legal actions and other activities of judges.

Framework criteria are adopted by the Minister of Justice on the proposal of the General Assembly of Supreme Court. The Criteria prescribe the number of decisions that need to be rendered every year by a judge.

According to the State Attorney Office Act (Official Gazette, No. 67/18), State Attorneys' and Deputy State Attorneys' performance is evaluated every three years according to the following criteria: achieved results in resolving cases (based on the number of cases assigned to work on the basis of the Framework Criteria for the Work of Deputy State Attorneys and the average work results of county or municipal state attorney's offices for the previous three-year period), the quality of decisions and the justified use of legal remedies, proper performance of the state attorney's duty - observance of deadlines during the procedure, other activities of the State Attorney and the Deputy State Attorney, experience in performing the duty of state attorney and compliance of conduct with the Code of Ethics of State Attorneys and Deputy State Attorneys. The Framework criteria are adopted by the Minister in charge of judicial affairs, with the prior opinion of the Chief State Attorney of the Republic of Croatia.

### Systems for measuring and evaluating courts' performance

#### A regular monitoring system of court activities is in place concerning:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the courts)	✗
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✗
Number of resolved cases	✓	Number of appeals	✓
Number of pending cases	✓	Appeal ratio	✗
Backlogs	✓	Clearance rate	✓
Productivity of judges and court staff	✓	Disposition time	✓
Satisfaction of court staff	✗	Other	✗

In Croatia, there is a system to regularly evaluate the court performance based primarily on defined indicators and the reporting is more frequent than annual.

According to the Courts Act (Official Gazette, No. 28/13, 33/15, 82/15, 67/18), the president of court supervises accurate performance of court activities in due time. The president of court has a duty to write a report on the performed supervision and its results, as well as on the measures taken, at least once a month. The report has to be inserted into a case file of judicial administration. The president of court is obliged to ensure court efficiency in the resolution of cases, especially when it comes to the resolution of cases the procedure in which lasts more than three years. The president of court, except for the president of the Supreme Court of the Republic of Croatia, has a duty to submit a report on the performed tasks of judicial administration, measures and activities undertaken to improve work and efficiency of the court in the resolution of cases. The report is to be submitted directly to a court of higher instance, to the State Judicial Council and the Ministry in charge for Justice, once a year, at the latest by the 31 March for the previous year.

The president of the Supreme Court submits the report on the state of judiciary to the Croatian Parliament, once a year, at the latest by the 30th April for the previous year. In this yearly report the president of the Supreme Court can report on the state and actions of the judiciary, organizational problems in courts and legislation shortcomings as well as give suggestions for the improvement of the work of courts. The courts use special information systems for the management and operation of the courts' cases, which consist of standard applications, computer and telecommunications equipment and infrastructure, system software and tools and all the data that are entered, stored and transmitted in all of the registers of the system. Through Case Management system it is possible to regularly monitor and evaluate the activity, performance and output of courts for the Ministry of Justice and the courts themselves.

#### Performance and quality indicators are defined for the activity of each court.

The following indicators are used:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the courts)	✗
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✗
Number of resolved cases	✓	Number of appeals	✓
Number of pending cases	✓	Appeal ratio	✗
Backlogs	✓	Clearance rate	✓
Productivity of judges and court staff	✓	Disposition time	✓
Satisfaction of court staff	✗	Other	✗

The evaluation of the courts' activities is not used for the later allocation of means in the courts.

Systems for measuring and evaluating public prosecution services' performance

A regular monitoring system of public prosecution services activities is in place concerning:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the public prosecution)	✗
Length of proceedings (timeframes)	✗	Costs of the judicial procedures	✗
Number of resolved cases	✓	Clearance rate	✓
Number of pending cases	✓	Disposition time	✓
Backlogs	✓	Percentage of convictions and acquittals	✓
Productivity of prosecutors and prosecution staff	✓	Other	✗
Satisfaction of prosecution staff	✗		

In Croatia, there is a system to evaluate regularly the activity of each public prosecution service and the reporting is more frequent than annual.

According to the State Attorney's Act (Official Gazette, No. 67/18), a state attorney supervises accurate performance of all state attorney office activities in due time. A state attorney submits reports to the higher state attorney on his state attorney office performance each month and annually and reports on undertaken and planned actions in cases of special state interest or in cases with complex factual or legal issues. The General State Attorney Office submits the report on the status and trends of reported crime in the previous year, on cases related to the protection of property interests of the Republic of Croatia, legal issues in particular areas and a review of the organization and personnel in state attorney organization to the Croatian Parliament, once a year, at the latest by the 30 April for the previous year. In this yearly report, there can be a warning on the state and functioning of the legal system, deficiencies in the legislation and internal affairs of the state attorney's office and suggestions for improving the work. The state attorney offices use a special information system for the management and operation of the state attorney cases, as an interactive data base in real time. Through the CTS (Case tracking system) it is possible to regularly monitor and evaluate the activity, performance and output of state attorney offices.

Performance and quality indicators are defined for the activity of each public prosecution service.

The following indicators are used:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the public prosecutors)	✗
Length of proceedings (timeframes)	✗	Costs of the judicial procedures	✗
Number of resolved cases	✓	Clearance rate	✓
Number of pending cases	✓	Disposition time	✓
Backlogs	✓	Percentage of convictions and acquittals	✓
Productivity of prosecutors and prosecution staff	✓	Other	✗
Satisfaction of prosecution staff	✗		

The evaluation of the public prosecution services' activities is not used for the later allocation of means in the public prosecution services.
