<b>Relevant previous professional activity/ activities</b>	
Dates	July 2010 – January 2021
Name and address of organisation/body	Anti-mafia Prosecutor's Office in L'Aquila
Sector of activity	my main activity has been related to organized crime offences (among which trafficking of human beings and smuggling of migrants) and investigation and prosecution on terrorism cases. Combatting organized crime offences especially in a transnational perspective and in judicial cooperation.
Position held	Anti-mafia Prosecutor
Main activities and responsibilities	<p>Here I strengthened the judicial experience gained in the previous office and through the participation to projects aimed at promoting and developing multi-agency actions on THB.</p> <p>I have been leading and coordinating investigations on national and transnational organized crime – as Italian law provides for the Anti-mafia and anti-terrorism prosecutor's offices - with a national and transnational perspective. I have also been preparing and managing the cases in Court hearings.</p> <p>I improved what already experienced during my previous position, with a more specific focus on mafia organization and transnational organized crimes, carrying on</p>

a lot of investigations by international cooperation tools, establishing contacts and relations with many foreign authorities, implementing the cooperation with the civil society and other institutions and organizations.

I directed and coordinated many investigations and trials where members of organized trafficking groups have been convicted both for human trafficking and for mafia conspiracy.

As part of my duties, I have also implemented guidelines for identification, assistance and protection of potential victims of trafficking in collaboration with NGOs and law enforcement agencies, enforcing specifically the view on labour exploitation.

I promoted the ordinary use of proactive investigation, opening case files regardless victims' complaints. The use of ICT and of financial investigations have been a permanent practice. As a result I have experienced also seizures and confiscation of traffickers' illicit assets and proceeds of crime. I have also had judicial experience of cases of confiscation of illicit assets turned to compensation for victims and NGO.

In those activities I have been coordinating the job of hundreds of law enforcement officer and other professionals, involving social and psychological competences, as well as technological, necessary to carry on very sensitive proactive investigations and to establish proper contacts with trafficked or exploited victims, avoiding revictimization and granting the full respect of their human rights before, during and after criminal proceedings.
