## BACKGROUND

CyberEast project is a direct follow-up to previous [capacity building efforts](#) in the Eastern Partnership and continues to build upon similar themes – strong legislative framework implementing the [Budapest Convention on Cybercrime](#), enabling efficient regional and international cooperation, and improving public/private cooperation regarding cybercrime and electronic evidence in the Eastern Partnership region.

However, the project also features new and strong focus on enhancing the operational capacities of cybercrime units, increasing accountability, oversight and public visibility of action on cybercrime, as well as strengthening interagency cooperation on cybercrime and electronic evidence, in particular by improving information sharing between Computer Security Incident Response Teams (CSIRTs) on incidents and attacks with all concerned authorities.

Through extension of the project until the end of 2023, the CyberEast project also gains additional resources to reinforce practical aspects of CSIRT and law enforcement cooperation, to improve cybercrime and computer incident reporting systems and their interoperability, to measure public perception of cybercrime, and to address the challenges of investigating child online sexual abuse material as well as search, seizure and confiscation of cybercrime proceeds and prevention of money laundering on the Internet.

## TYPE OF ACTIVITIES

- Workshops on cooperation between CSIRTs and Law Enforcement
- Judicial training on cybercrime and e-evidence
- Training on templates for Data preservation and Subscriber Information
- Regional meetings on Mutual Legal Assistance
- Workshops on Cybercrime and Cybersecurity Strategy
- Workshops on Standard Operating Procedures for criminal justice authorities
- CyberExercises for Law enforcement and Internet Service Providers
- Training on International Cooperation
- Training on Interagency Cooperation and Financial Investigations
- Workshops on Crime Proceeds
- Fire Responders training
- Access to the UCD master programme for forensic investigators
- Support with Legislation reviews
- Cyber Barometer Reports on cybercrime and cybersecurity
