In Denmark, there are 2 first instance specialised courts: the Land Registration Court and the Maritime and Commercial Court. The Land Registration Court has been established in 2009. The Maritime and Commercial Court is classified as Commercial Court and Insolvency court because it is a peculiarity that this court also deals, to a great extent but not exclusively, with insolvency cases (bankruptcies etc.). Although it appears there are two courts there is only one.

Juvenile Courts do not exist. In Denmark, cases concerning juveniles are dealt with by the district courts. However, juveniles are granted special attention within a Juvenile Board.

From 1 April 2019, family law cases are within the competence of a district court section.

There is one Military court, but it is not part of the Danish Courts Administration.

3. Legal aid and court fees in Denmark

In Denmark, legal aid includes:

- Coverage of court fees: ✓
- Exemption from court fees: ✓

In Denmark, legal aid is available for :

> Representation in court:

- Criminal cases ✓
- Other than criminal cases ✓

> Legal advice, ADR and other legal services:

- Criminal cases ✓
- Other than criminal cases ✓

> Fees related to enforcement of judicial decisions as fees for enforcement agents (Q18) ✓

In all criminal cases, a defense attorney is appointed to defendants. Victims of certain criminal offences (for example sexual offences, homicide and acts of violence) have access to representation in court by a support attorney. Basic legal advice is available to all persons in criminal cases. Further legal advice is only available subject to certain economic criteria.

With regard to other than criminal cases, legal aid can be granted for all necessary costs associated with the proceedings. The court decides which expenses are covered by legal aid. For example, expenses that with good reason have been held in connection with a trial.
Under special circumstances fees for technical advisors or experts are covered in criminal cases.

In respect of fees related to the enforcement of judicial decisions, it should be mentioned that according to the article 500(2) of the Danish Administration of Justice Act, the bailiff's court can grant legal aid if the person appearing before the court is deemed to need a lawyer's assistance.

4. Performance of courts in Denmark

- **Efficiency indicators**

  ◦ Clearance Rate (CR) and Disposition Time (DT)

The Clearance Rate shows the capacity of a judicial system to deal with the incoming cases. A Clearance Rate of 100% and higher does not generate backlog.

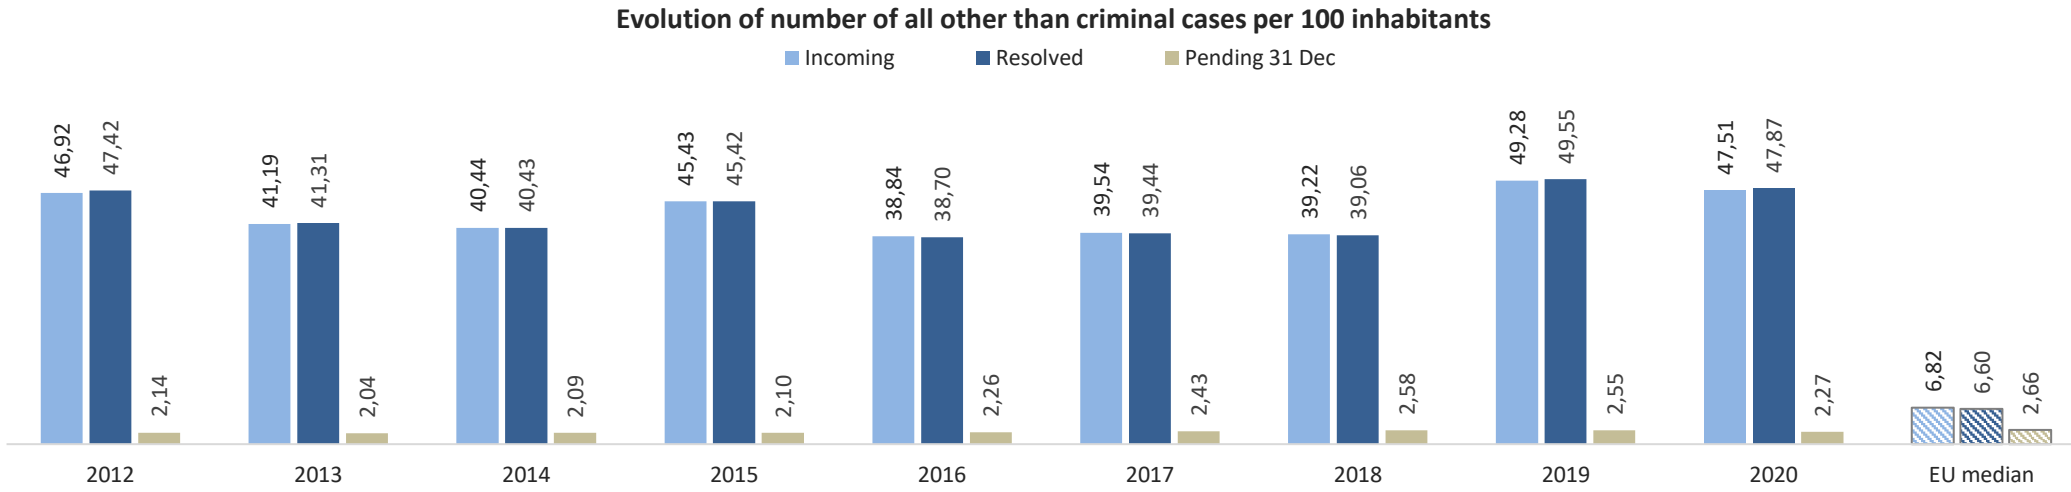
The Disposition Time determines the estimated number of days necessary for a pending case to be solved in a court.

At the outset, it is important to specify that 2020 was an unusual year because of the Covid-19 related close down of society, including close down of courts. Namely, courts were closed for 3 weeks except for vital cases and government assistant to companies helped them and reduced bankruptcies and closures of companies that would normally have happened.

In criminal matters, the number of pending cases increased as the prosecution continued to forward new cases to the courts that could not deal with it.

First instance Total of other than criminal cases

◦ **Incoming, resolved and pending cases**



The number of incoming cases in 2020 in Denmark (47,51 per 100 inhabitants) is well above EU median (6,82 per 100 inhabitants).

The number of resolved cases in 2020 in Denmark (47,87 per 100 inhabitants) is well above EU median (6,60 per 100 inhabitants).

The number of pending cases at the end of 2020 in Denmark (2,27 per 100 inhabitants) is slightly below EU median (2,66 per 100 inhabitants).

◦ **Clearance Rate and Disposition Time**

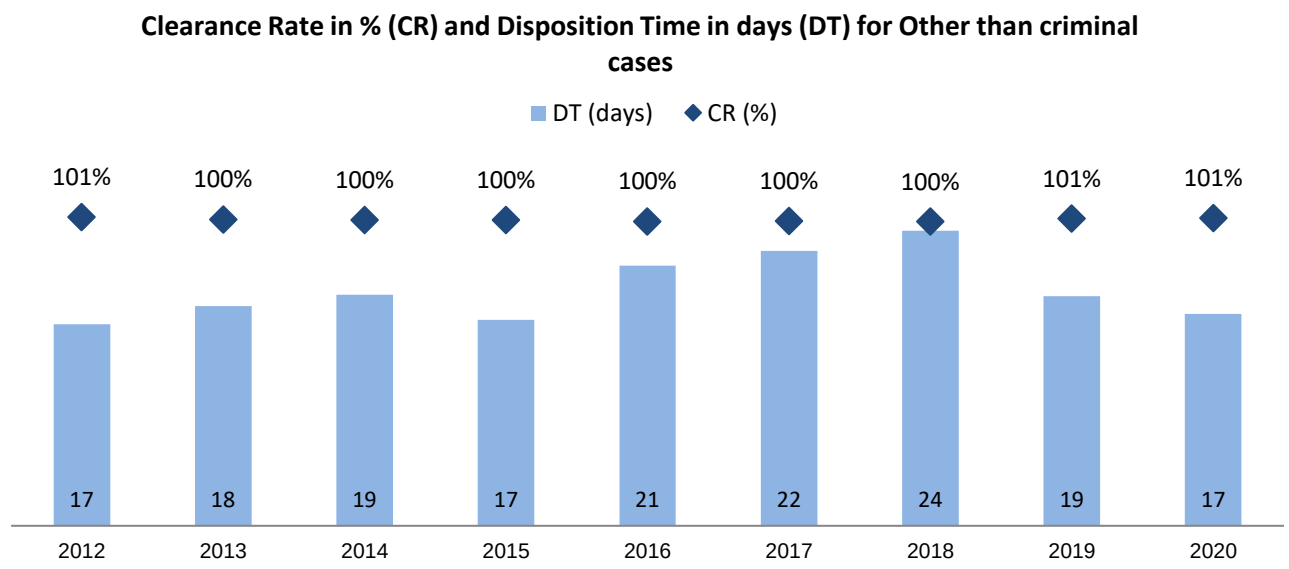
2014	100%	19
2015	100%	17
2016	100%	21
2017	100%	22
2018	100%	24
2019	101%	19
2020	101%	17



With a Clearance Rate calculated at 100,8% in 2020 Denmark seems to be able to deal with its other than criminal cases.

Between 2019 and 2020, the Clearance Rate has increased by 0,2 points.

In 2020, other than criminal cases are solved in approximately 17 days, which is significantly below EU median of 109 days.

The analysis of the 2019 - 2020 period reveals a -7,6% decrease of the Disposition Time.

As regards first instance other than criminal law cases, it should be mentioned that land registration is the major source of incoming cases. It fluctuates a lot depending on interest rates, loan rescheduling etc.

It is important to note that because of new regulations/laws, it is possible to start a new company with no prior capital. This causes many more companies and many more closures in some categories and also affects number of pending cases, like for non-litigious business registry cases. Furthermore, the courts received many extra backlogged cases from the Danish Commerce and Companies Agency reenforced closure of companies that were still backlogged in the early 2020.

First instance Civil (and commercial) litigious cases

◦ **Incoming, resolved and pending cases**

With a Clearance Rate calculated at 111,1% in 2020, Denmark seems to to deal efficiently with its civil and commercial litigious cases.

Between 2019 and 2020, the Clearance Rate has increased by 19,3 points.

In 2020, the civil and commercial litigious cases are solved in approximately 190 days, which is slightly below EU median of 221 days.

The analysis of the 2019 - 2020 period reveals a -14,4% decrease of the Disposition Time.

The number of civil and commercial litigious cases older than 2 years is not available.

First instance Administrative cases

As explained above, in Denmark, the number of “administrative law cases” which are litigious is encompassed in the number of “civil and commercial litigious cases”.

Insolvency cases

◦ **Clearance Rate and Disposition Time**

Insolvency cases	CR (%)	DT (days)
2012	110,1%	235

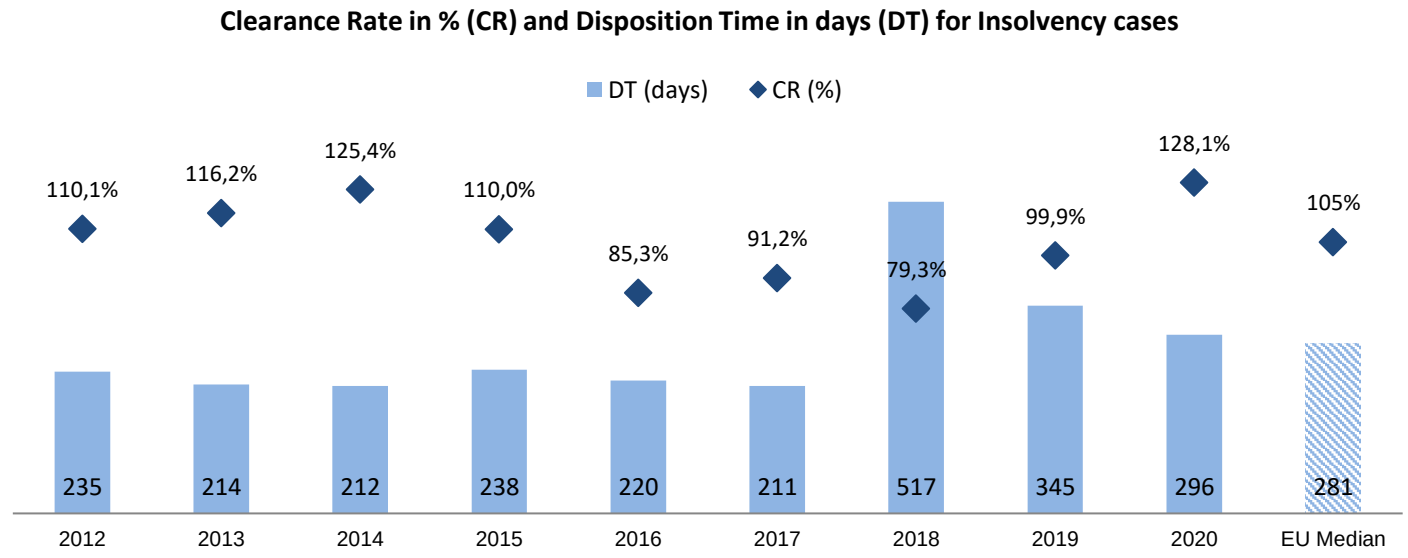
2018	79,3%	517
2019	99,9%	345
2020	128,1%	296



The Clearance Rate was calculated at 128,1% in 2020 for insolvency cases, Denmark seems to deal efficiently with its insolvency cases.

Between 2019 and 2020, the Clearance Rate has increased by 28,2 points.

In 2020, insolvency cases are solved in a approximately 296 days, which is slightly above EU median of 281 days.

The analysis of the 2019 - 2020 period reveals a -14,0% decrease of the Disposition Time.

It should be mentioned that due to a number of backlogged forced closures of companies in 2019 by the Danish Commerce and Companies Agency, there was a market increase in the number of bankruptcy cases at the Maritime and Commercial Court in 2020 compared to 2018.

The number of total incoming criminal cases in 2020 in Denmark (2,79 per 100 inhabitants) is significantly above EU median (1,60 per 100 inhabitants).

The number of total resolved criminal cases in 2020 in Denmark (2,66 per 100 inhabitants) is significantly above EU median (1,48 per 100 inhabitants).

The number of total pending criminal cases at the end of 2020 in Denmark (0,46 per 100 inhabitants) is -0,0038571491495584 (0,46 per 100 inhabitants).

◦ Clearance Rate and Disposition Time

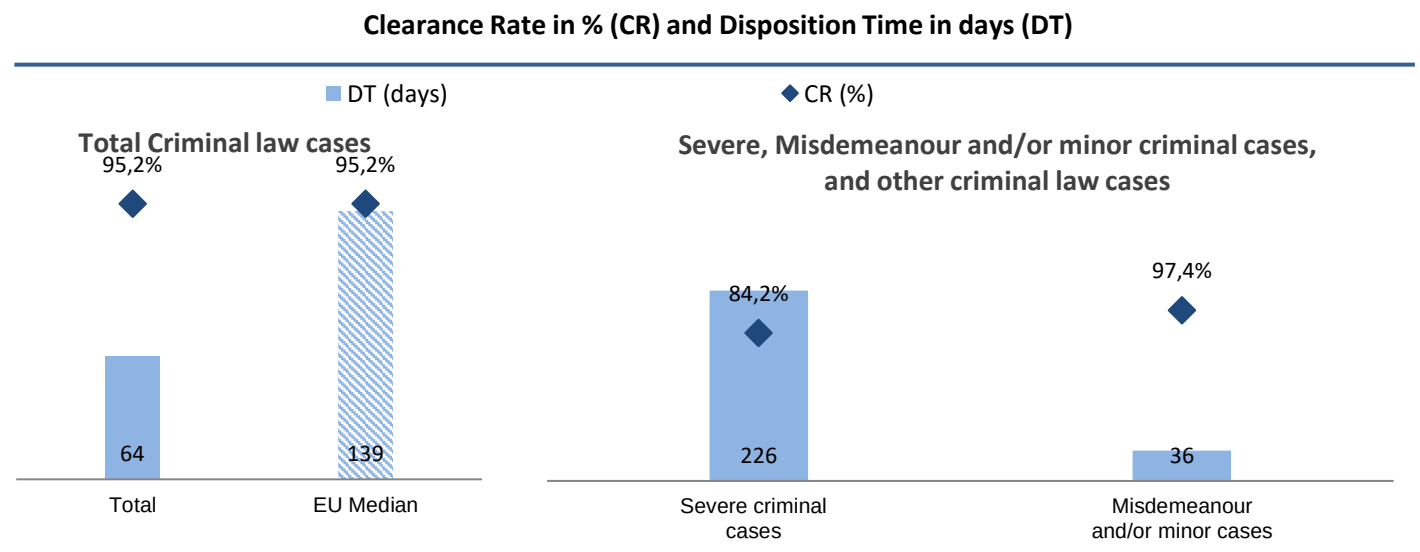
Total	95,2%	64
Severe criminal cases	84,2%	226
Misdemeanour and/or minor cases	97,4%	36
Other cases	NAP	NAP



With the Clearance Rate calculated at 95,2% in 2020 for total criminal cases, Denmark seems to face some difficulties in dealing with its total criminal cases.

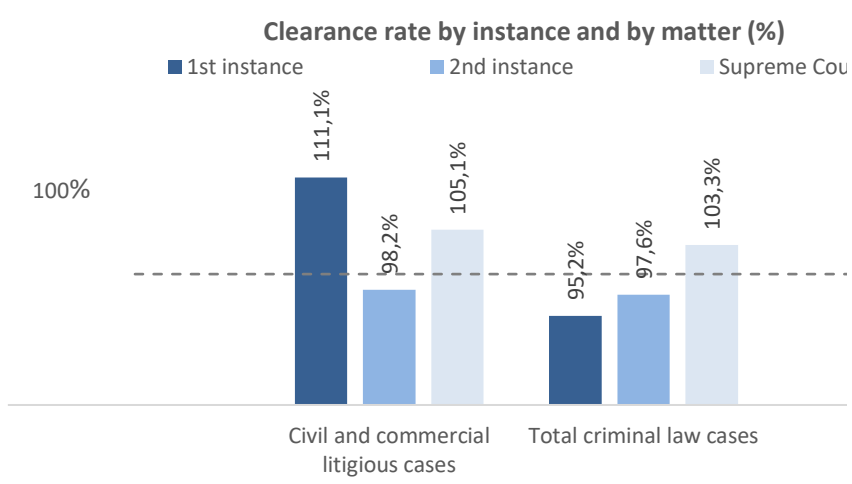
In 2020, criminal law cases were solved in approximately 64 days, which is significantly below EU median of 139 days.

Danish Court Administration does not have statistics on pending cases older than 2 years.

When cases are categorised as "severe", it does not mean that deprivation of liberty is the end result, but based on the category chosen by the court to deal with the case,it could include severe offences. Minor cases are typically fines that will never result in deprivation of liberty.

Overall efficiency by instance and by case matter

	CR (%)			DT (days)		
	1st instance	2nd instance	Supreme Court	1st instance	2nd instance	Supreme Court
Civil and commercial litigious cases	111,1%	98,2%	105,1%	190	180	257
Administrative cases	NAP	NAP	NAP	NAP	NAP	NAP
Total criminal law cases	95,2%	97,6%	103,3%	64	141	194



As regards civil and commercial litigious cases (including administrative cases), the Clearance rate is beyond 100% except for second instance cases, where it is close to this threshold. In respect of criminal cases, the Clearance rate is beyond the 100% threshold only with regard to the third instance. Criminal courts prove to be less efficient especially at first instance.

As to the Disposition Time indicator, the Danish value is below the EU median only with regard to first instance civil (the EU being 221 days) and criminal cases (the EU median being 139 days). Second and third instance courts proceedings in both matters are longer.

Generally speaking, criminal proceedings are faster than civil proceedings.

As the number of administrative law cases is encompassed in the number of civil and commercial litigious cases, no separate analysis can be carried out in their respect.

5. Public prosecution services in Denmark

• Role and powers of the public prosecutor

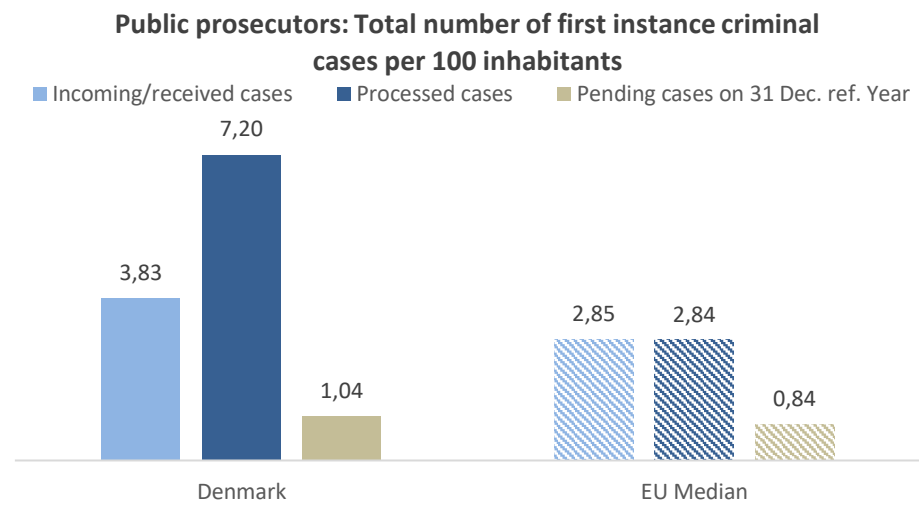
In the criminal procedure, the public prosecutor in Denmark has the following 9 out of 11 possible roles and powers:

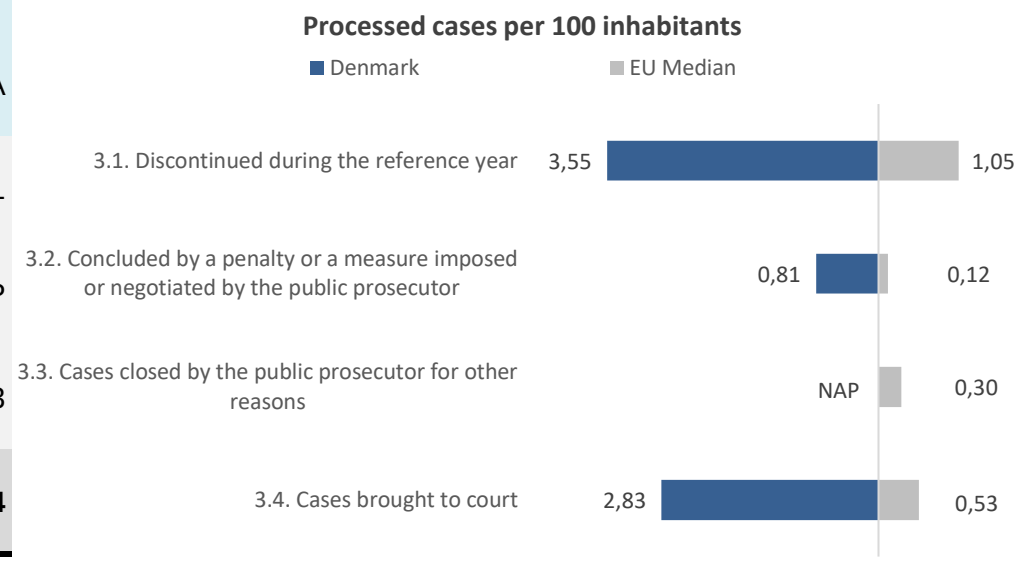
To conduct or supervise police investigation	✓	To appeal	✓
To conduct investigations	✗	To supervise the enforcement procedure	✗
When necessary, to request investigation measures from the judge	✓	To discontinue a case without needing a decision by a judge	✓
To charge	✓	To end the case by imposing or negotiating a penalty or measure without requiring a judicial decision	✓
To present the case in the court	✓	Other significant powers	✓
To propose a sentence to the judge	✓		

The public prosecutor does not have any role in civil, administrative or insolvency cases.

• Public prosecutors: Number of first instance criminal cases

Type of cases	Absolute number	Per 100 inhabitants
1. Pending cases on 1 Jan. ref. year	**60 656**	**1,04**
2. Incoming/received cases	**223 459**	**3,83**
3. Processed cases (3.1 + 3.2 + 3.3 + 3.4)	**420 204**	**7,20**
3.1. Discontinued during the reference year (3.1.1 + 3.1.2 + 3.1.3 + 3.1.4)	207 165	3,55
3.1.1 Discontinued by the public prosecutor because the offender could not be identified	NA	NA
3.1.2 Discontinued by the public prosecutor due to the lack of an established offence or a specific legal situation	NA	NA
3.1.3 Discontinued by the public prosecutor for reasons of opportunity	769	0,01
3.1.4 Discontinued for other reasons	NA	NA
3.2. Concluded by a penalty or a measure imposed or negotiated by the public prosecutor	47 560	0,81
3.3. Cases closed by the public prosecutor for other reasons	NAP	NAP
3.4. Cases brought to court	165 479	2,83
4. Pending cases on 31 Dec. ref. year	**61 014**	**1,04**





It is noteworthy that the number of processed cases includes both cases dismissed by the police and cases dismissed by the public prosecutor.

It is not possible to subtract numbers on discontinued cases in the format in items 3.1.1. + 3.1.2 + 3.1.4, as the legal basis in Denmark (sections 721 and 749 of the Administration of Justice Act) is not divided in such subsectors. The data source used in items 1 and 4 (data that do not include post-registration of charges) is different from the data source used in items 2 and 3 (data that includes post-registration of charges). Hence, vertical consistency in the table is not ensured due to post-registrations of further charges.

The number of incoming cases has decreased considerably between 2018 and 2020. This is due to a change in the way of measuring the number of incoming charges. The new methodology is more accurate than the previous one, as it contains all incoming charges and not all processed charges as previously. The number of incoming cases in 2018 is 245.687 when using the new way of measuring.

6. Existence and use of alternative dispute resolution in Denmark

Number of mediators

Mediators	Total	Per 100 000 inhabitants

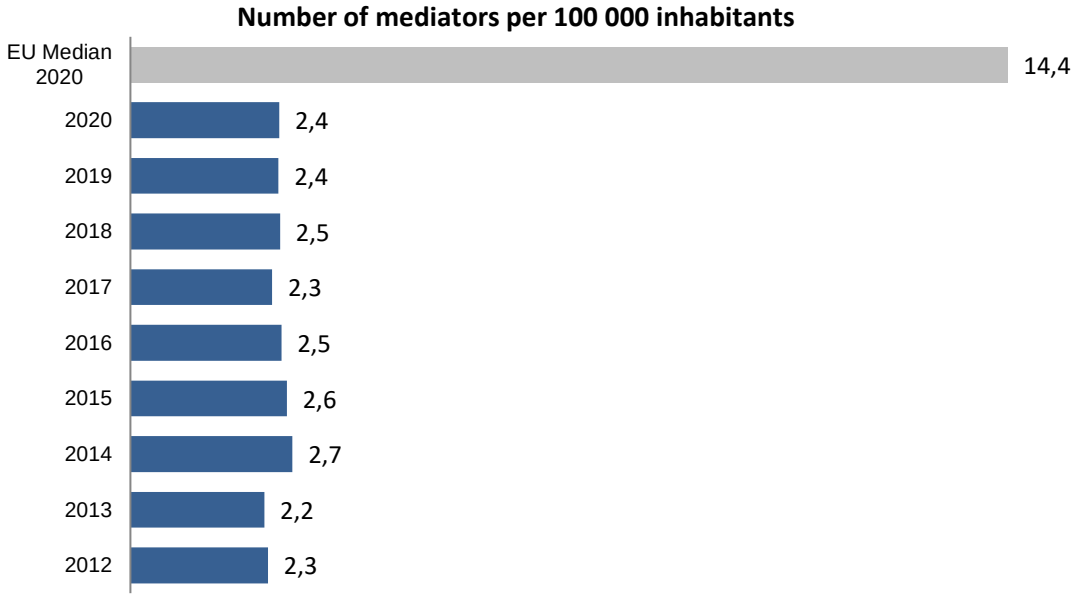
2017	135	2,3
2018	143	2,5
2019	142	2,4
2020	143	2,4



In 2020, there are 143 accredited or registered mediators who practise court related mediation which represents 2,4 accredited or registered mediators per 100 000 inhabitants.

The variation between 2019 and 2020 is about 0,7%.

In 2020, among the total, there are 53 registered attorneys who are appointed to serve as mediators in court mediation and 90 registred jugdes who serves as mediators in court mediation.

The data ragarding the number of court-related mediations is not available for 2020.

7. ICT tools of courts in Denmark

●The ICT tools of courts and for court users

The use of ICT in courts in 2020 has been evaluated as :

		EU Median
Total	**6,1**	**6,6**
Assistance tools (0 to 3)	2,3	2,0
Case management system (0 to 7)	5,1	5,2
Financial management tools (0 to 3)	0,4	1,3
Measurement tools to assess the workload (0 to 5)	2,4	2,5
Electronic communication (0 to 10)	6,9	6,9

The calculation of this values for each field is based on the answers for that question/s and weighted according the avaiability or deployment rate. The total value is normalised to max 10 points for readability and comparison.

The details of the calculation are given in Annex 5 - IT calculations

The result by area may be summarized in these graphics, where each field has been evaluated from 0 to 4 points.

Note: index is modified based on the available questions. This cycle the recalculation was made for the last three cycles to be able to follow the development.

Comments on writing assistance tools
For civil/commercial cases the availability rate slightly decreased as the different areas of use and the different patterns of uses have been tested and it was found that there were certain areas that were not covered.

Comments on voice recording tools
Some testing of the quality of the voice recognition was conducted and it was found that the software was unreliable in regards to the Danish language. This initiative will be again moved forward.

Comments on measurment tools on workload
It has been measured the amount of time each judge or staff spends on different categories of work (civil cases, criminal cases, administration etc.). The court activities are calculated in weighted cases. Therefore, the productivity is measured.

As regards judges, according to the Danish Court Administration, the tools deployment rate is 10-49 %. However, it might be higher, namely because on district courts, all judges either fill out how time is spent on a daily basis, or - for appointed judges - on a half-yearly basis. At some courts, the court has decided that the judges, despite Danish Court Administration does not demand it, fill out anyway this daily information. Nevertheless, at a High Court and Supreme court level this is not done. Therefore, the tool deployment rate of 10-49 % is not an absolute but an estimate.
Data are used by Danish Court Administration. It is up to the individual court, to decide how they use and how closely they monitor the judge staff. The same counts for non-judge staff.

Regarding prosecutor staff, the Danish Court Administration has no data. As regards public prosecutors, overall, there have been no changes to the systems that help assess how the workload is for public prosecutors, but due to ongoing interest in how the workload is distributed – not only for the single employee but also the districts between – it is estimated that there has been an increase in the percentage (from 10-49% to 50-99%). The workload is monitored in more general terms centrally through the Attorney General's office and locally the districts/local prosecution monitor their prosecutors and the workload more closely. The tool deployment rate of 50-99% is therefore not an absolute but an estimate since there has been an increase in the focus on monitoring the workload.

8. Systems for measuring and evaluating the performance of courts and public prosecution services in Denmark

In Denmark, quality standards are not detemined for the judicial system at the national level.

● Systems for measuring and evaluating courts' performance

A regular monitoring system of court activities is in place concerning:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the courts)	✗
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✗
Number of resolved cases	✓	Number of appeals	✗
Number of pending cases	✓	Appeal ratio	✗
Backlogs	✗	Clearance rate	✗
Productivity of judges and court staff	✗	Disposition time	✗
Satisfaction of court staff	✗	Other	✓

Denmark attaches great importance to independence. Therefore, Danish Court Administration does not evaluate the performance or productivity of individual judges. However, overall productivity and case flow are followed as they are used to allocate resources and to identify the court most in need of vacant judge positions.

In Denmark, there is a system to regularly evaluate the court performance based primarily on defined indicators and the reporting is more frequent than annual.

More prerecisely, the evaluation is conducted monthly, quarterly, half yearly and yearly.

Performance and quality indicators are defined for the activity of each court.

The following indicators are used:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the courts)	✗
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✗
Number of resolved cases	✓	Number of appeals	✗
Number of pending cases	✓	Appeal ratio	✗
Backlogs	✓	Clearance rate	✗
Productivity of judges and court staff	✗	Disposition time	✗
Satisfaction of court staff	✗	Other	✓

It should be stressed that the data is collected for all parts of the judicial system, such as the police, public prosecution, courts and the prison system. The data is used to measure the performance of the individual agencies/administrations, but also - and perhaps most importantly - to measure the interplay between these.

The evaluation of the courts activities is used for the subsequent allocation of means in the courts.

● Systems for measuring and evaluating public prosecution services' performance

A regular monitoring system of public prosecution services activities is in place concerning:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the public prosecution)	✗
Length of proceedings (timeframes)	✗	Costs of the judicial procedures	✓
Number of resolved cases	✓	Clearance rate	✓
Number of pending cases	✓	Disposition time	✓
Backlogs	✓	Percentage of convictions and aquittals	✓
Productivity of prosecutors and prosecution staff	✗	Other	✗
Satisfaction of prosecution staff	✓		

The prosecution makes quarterly reports to the Ministry of Justice on data regarding number of cases, the Clearance rate, etc.

Disposition time is measured indirectly through a report that measures all steps in a criminal case from arrest to imprisonment. There is no direct measure of disposition time, but it can be read from this report.

Satisfaction of the prosecution staff has always been measured but not by the Ministry of Justice. The prosecution makes an annual survey on the satisfaction of the prosecution staff.

In Denmark, there is a system to evaluate regularly the activity of each public prosecution service and the reporting is more frequent than annual.

More specifically, the report is carried out on a monthly basis.

Performance and quality indicators are defined for the activity of each public prosecution service.

The following indicators are used:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the public prosecutors)	✗
Length of proceedings (timeframes)	✗	Costs of the judicial procedures	✗
Number of resolved cases	✓	Clearance rate	✗
Number of pending cases	✓	Disposition time	✗
Backlogs	✓	Percentage of convictions and acquittals	✓
Productivity of prosecutors and prosecution staff	✗	Other	✓
Satisfaction of prosecution staff	✗		

It should be noted that there are no performance indicators that measure length of proceedings directly. Even if they are measured indirectly, since there are performance measures on the time from a case is given to the public prosecution until the case is resolved, it is more correct to state that timeframes are not measured in Denmark.

The evaluation of the public prosecution services' activities is used for the later allocation of means in the public prosecution services.
