

An exercise in empathy for lawyers
regarding children with disabilities and
their families

They matter, too!
Children with
disabilities have the
right to learn in a
school, too!

WEBEX

Anticipating a future pilot decision of the European Court of Human Rights on the rights of persons with disabilities in Romania, I invite you to the second meeting of the "Rene Cassin" Human Rights Circle in 2025, during which we will first of all exercise empathy towards children with disabilities and their families, but also relate to their situation as jurists, referring to the relevant national and European normative and jurisprudential framework established by Council of Europe.

Geanina-Nicoleta MIHAI, a graduate of the Faculty of Law, UAIC, who carries out volunteer activities with such special children, will outline the general lines of a topic that entails many prejudices in current Romanian society, offering a generous framework for discussions to all participants who still believe in the importance of human rights in our lives.
