EVENT

Where's my data? – Your digital footprint

The use of different digital services and devices creates a footprint, or data, about the individual in question. However, it is difficult for an individual to understand the flow of their personal data in digital services.

With the aid of six test subjects, Sitra analysed what kind of data accumulates about us when we use digital services and how our data is used. At the event, the digital footprints left by online behaviour as well as digital human rights will be discussed. What do the analysis results mean for ordinary people? What opportunities does an individual have to influence how the data collected about them is used?

The keynote speaker is one of the leading personal data experts, **Paul-Olivier Dehaye**. Unicef's **Steven Vosloo** will comment on the digital world from the perspective of children. In the panel discussion, the theme will be considered from an individual's point of view by **Virpi Hukkanen**, journalist at Yle's News and Current Affairs unit, and **Jussi Kivipuro**, Development Director at Unicef Finland, among others.

Sitra will also publish a Digiprofile test. The test helps people understand how the data economy works and the meaning of privacy in the data economy. The test also helps people recognise and assess their behaviour on the internet. The test offers practical tips for everyday digital life.

Place / Lieux: Auditorium, 1st floor, Itämerenkatu 11-13, Helsinki, Finland

Date(s): 28 January 2020, at 8:30-11 am

Aim(s) - Who will this activity be aimed at? / Objectif(s) - Type de public visé: Finnish NGOs and data enthusiasts

Country & Institution / Pays et institution: Gibraltar Regulatory Authority

Site web / site internet : www.gra.gi

Planned activity(ies) / Activité(s) envisagée(s):

Last year, the Gibraltar Regulatory Authority, as Information Commissioner (the “Commissioner”), released a short video which can be viewed [here](#). Using visual stimuli, sound effects and a clear, concise narrative, the video links the emergence of new technologies that so greatly benefit the data-driven world we live in, to the importance of protecting personal data and exercising individual privacy rights.

The Commissioner’s office is committed to increasing awareness about the importance of privacy and the impact data protection may have on our daily lives. This year, the Commissioner’s office published an online Data Protection Survey (the “Survey”) to engage with and feed from public perception. The aim of the Survey is to better assess the following –

- a. how much the general public really know about data protection;
- b. how aware they are about the use of their personal data; and,
- c. which sector[s] they feel best protects their personal data.

The Survey consists of 17 questions, predominantly likert-scale questions, which allows us to better understand and assimilate the level of data protection awareness in our community. A report on the Survey (the “Report”) will be published on Data Protection Day 2020 (28th January 2020).

Place / Lieux
