Le Bureau à la Protection des Données (« ODP ») de Abu Dhabi Global Market (« ADGM ») organisera des activités de sensibilisation visant soit les autorités publiques, ainsi les entreprises qui exercent leur activité au sein de l'ADGM. Le but de cette initiative de part de l'ODP c'est d'attirer l'attention des responsables de traitement envers l'importance de cette journée à travers des messages et des rappels diffusés comme ci-dessous expliqué :

- Au plein centre du bâtiment principal de l'ADGM appelé « Atrium » des messages promotionnels rappelant l'importance de cette journée seront diffusés par les panneaux-écrans tout autour de la structure. Tenant compte du fait que les autorités publiques de l'ADGM sont, dans la plupart, situées au sein de ce bâtiment, et que l'Atrium constitue le centre névralgique et incontournable de la juridiction de l'ADGM, cela assure une forte visibilité des messages ainsi diffusées.
- Le secteur public sera visé aussi par une communiquée à l'occasion que sera diffusé à travers intranet, sur le site interne de l'ADGM, le courriel et Microsoft Teams adressée à tous les employés du secteur publique dans l'ADGM. La communiquée attirera leur attention vers l'importance de cette journée pour la promotion du droit à la protection des données personnelles et les avantages d'un traitement responsable et éthique des données personnelles par les autorités publiques.
- A travers le nouveau Registre central des entreprises inaugurée d'ici peu à l'ADGM (Registry Solution 2.0) un message rappelant les responsables de traitement de l'importance de cette journée sera envoyé par voie électronique à toutes les entreprises enregistrées dans le système. Cela assure que le message atteint toutes les

entreprises qui exercent leur activité dans l'ADGM. Le contenu du message fera aussi appel aux responsables de traitement de leurs obligations en matière de protection des données personnelles comme sanctionnées par le Règlement de la Protection des Données 2021 de l'ADGM.

The Garante will organize the conference «Violenza della rete, violenza nella rete»  
This year's theme concerns the various forms of manifestation of online violence and, more generally, the relationship between the web and violence.  
The title, playing on the distinction between the violence **of** and **on** the web, aims at underlining not only the place of violence (on the web, precisely) but also, often, one of its driving factors, the peculiarity of the web, capable of profound implications on society and individuals (network violence).  
The internet is indeed also a driving force for violence and a condition for the realization of some of its very peculiar forms. Two paradigmatic examples in this sense are revenge porn and filmed abuses –very often concerning young people and which fall under the competence of the Garante.
