

Compass for Governance of AI & Digital Transformation in Education

The Compass builds a holistic framework helping education systems navigate complexity while keeping human rights, democracy and the rule of law at the centre.

Compass for Governance of AI & Digital Transformation in Education

The Compass builds a holistic framework helping education systems navigate complexity while keeping human rights, democracy and the rule of law at the centre.

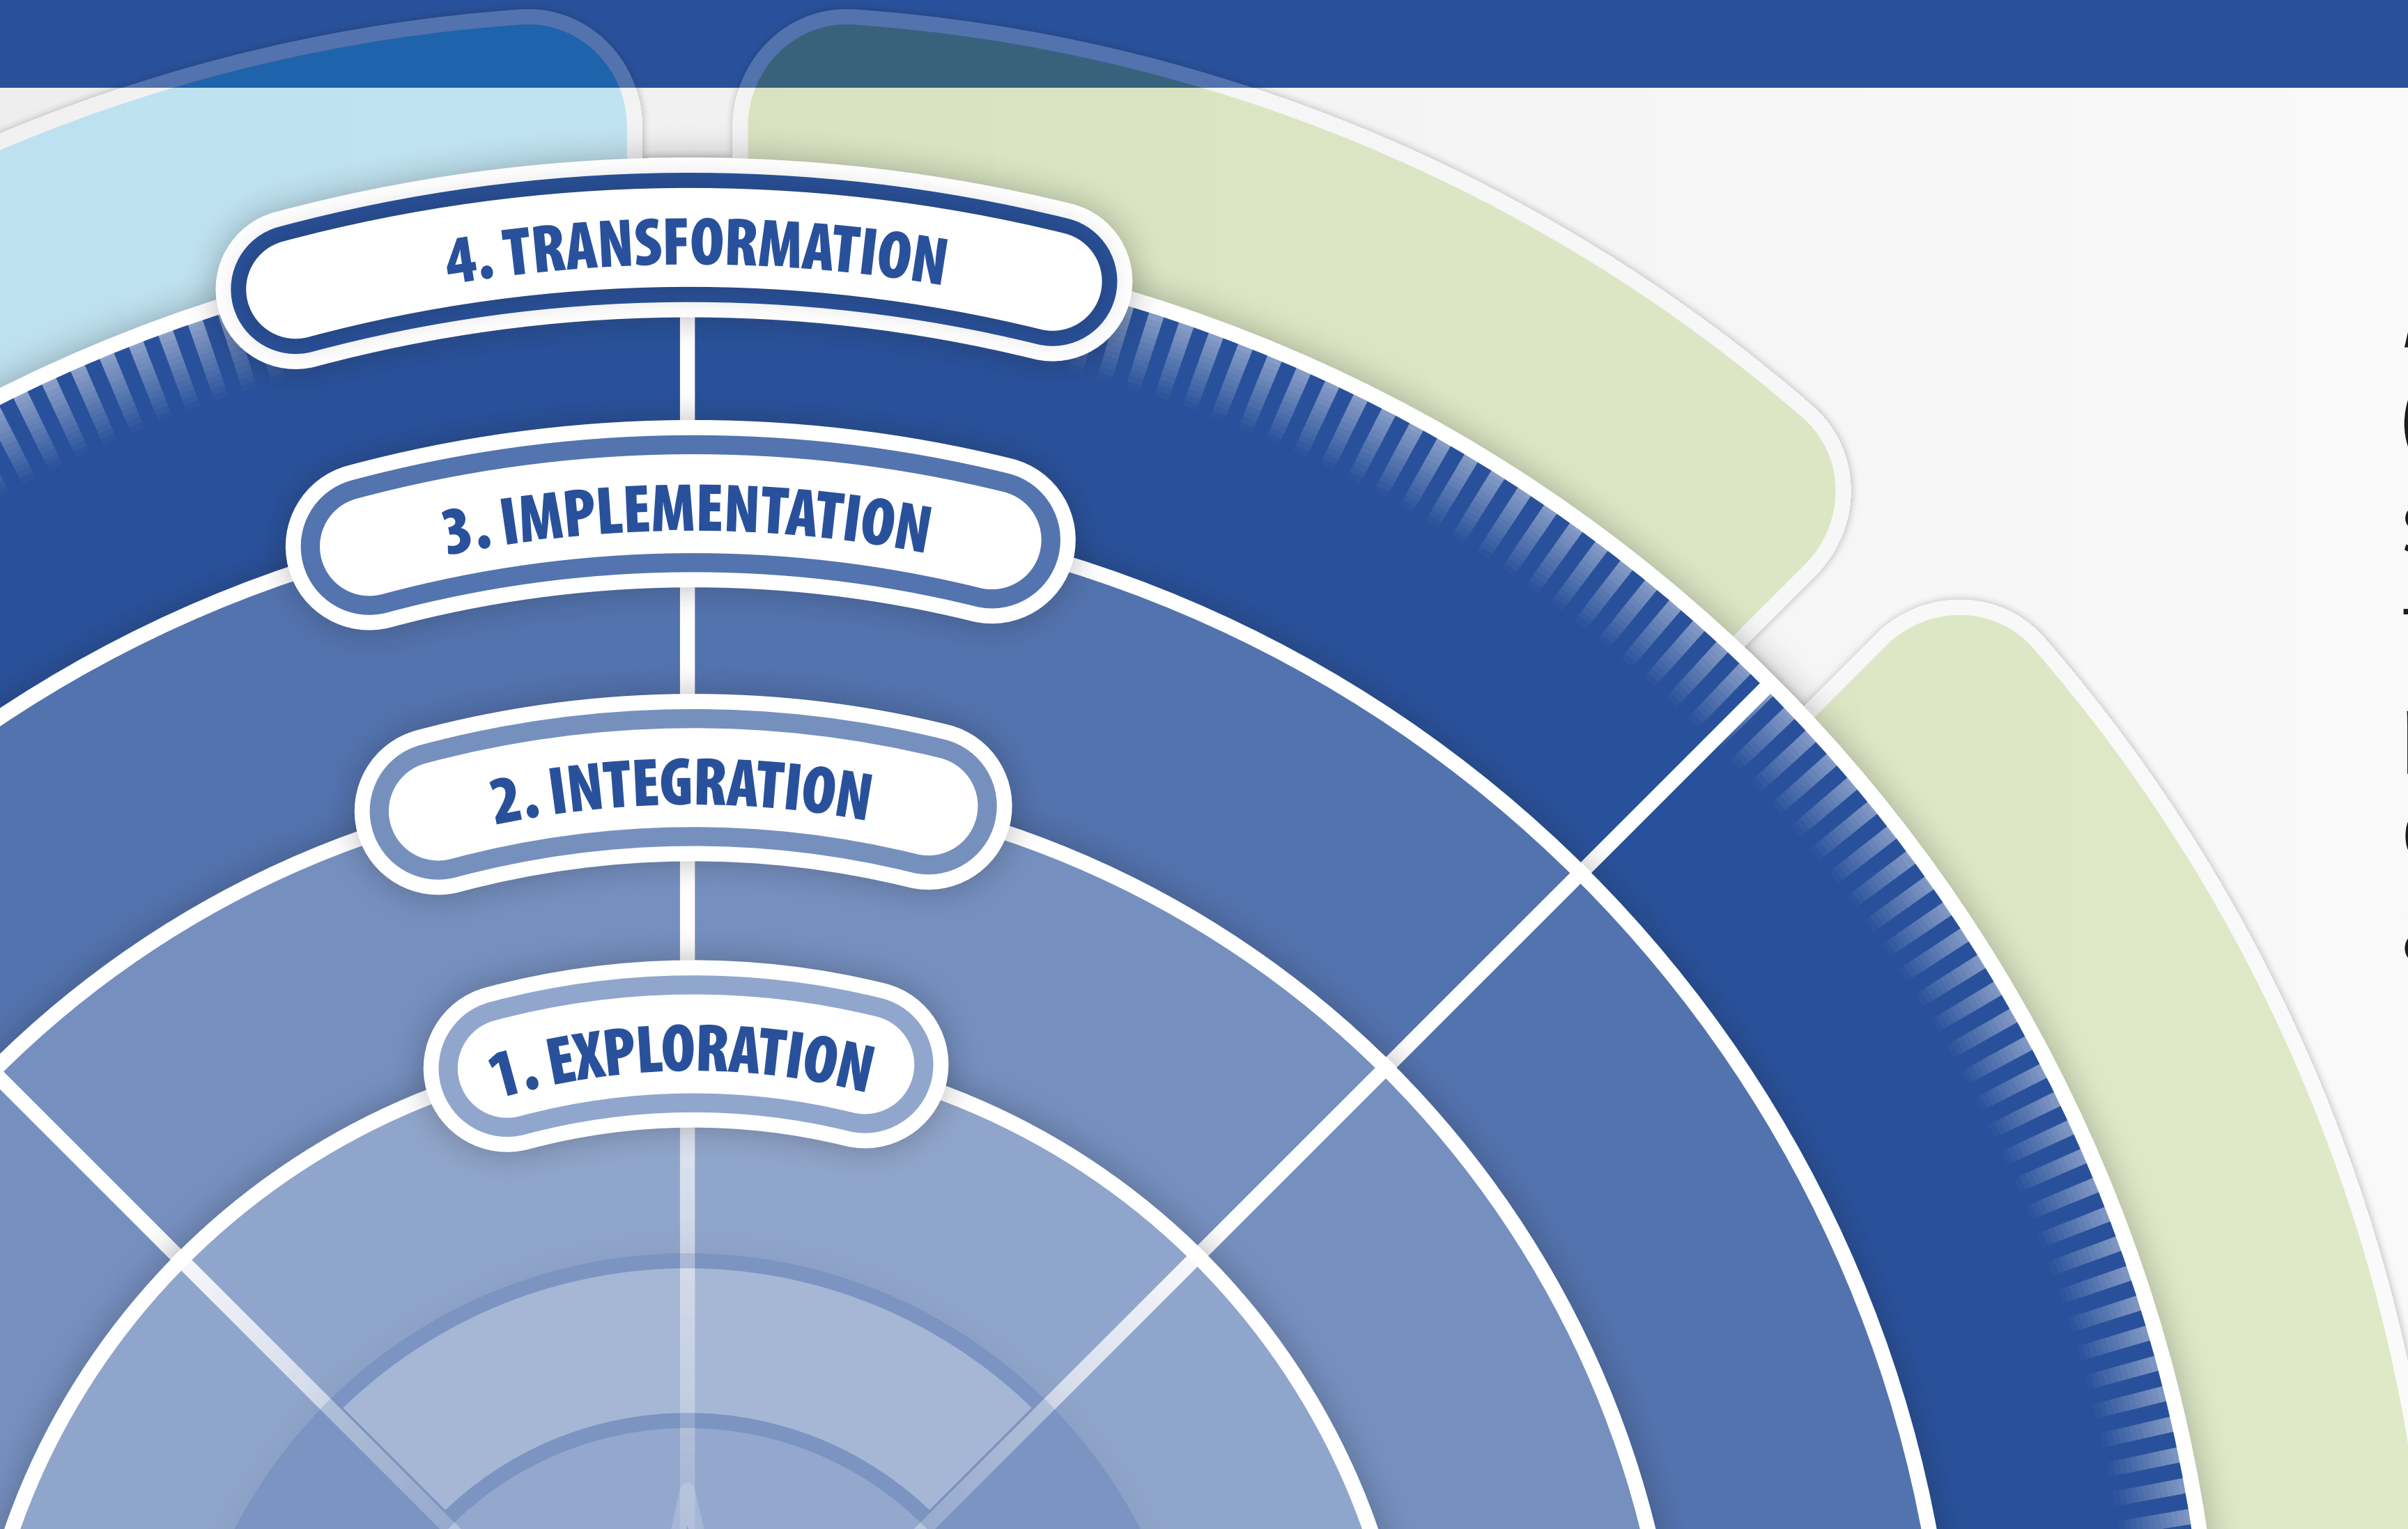

4 CARDINAL POINTS

- **People governance:** democratic participation and transparent mechanism for quality education
- **Governance processes:** human oversight on infrastructure and decision-making to ensure accountability
- **Education with AI** including learning, teaching, assessment, orientation, admission, recognition, etc.
- **Education about AI** encompassing AI literacy, pluriliteracies, co-education with parents, etc.

All together enabling human agency

4 LEVEL PATHWAY TOWARDS TAILORED SUPPORT

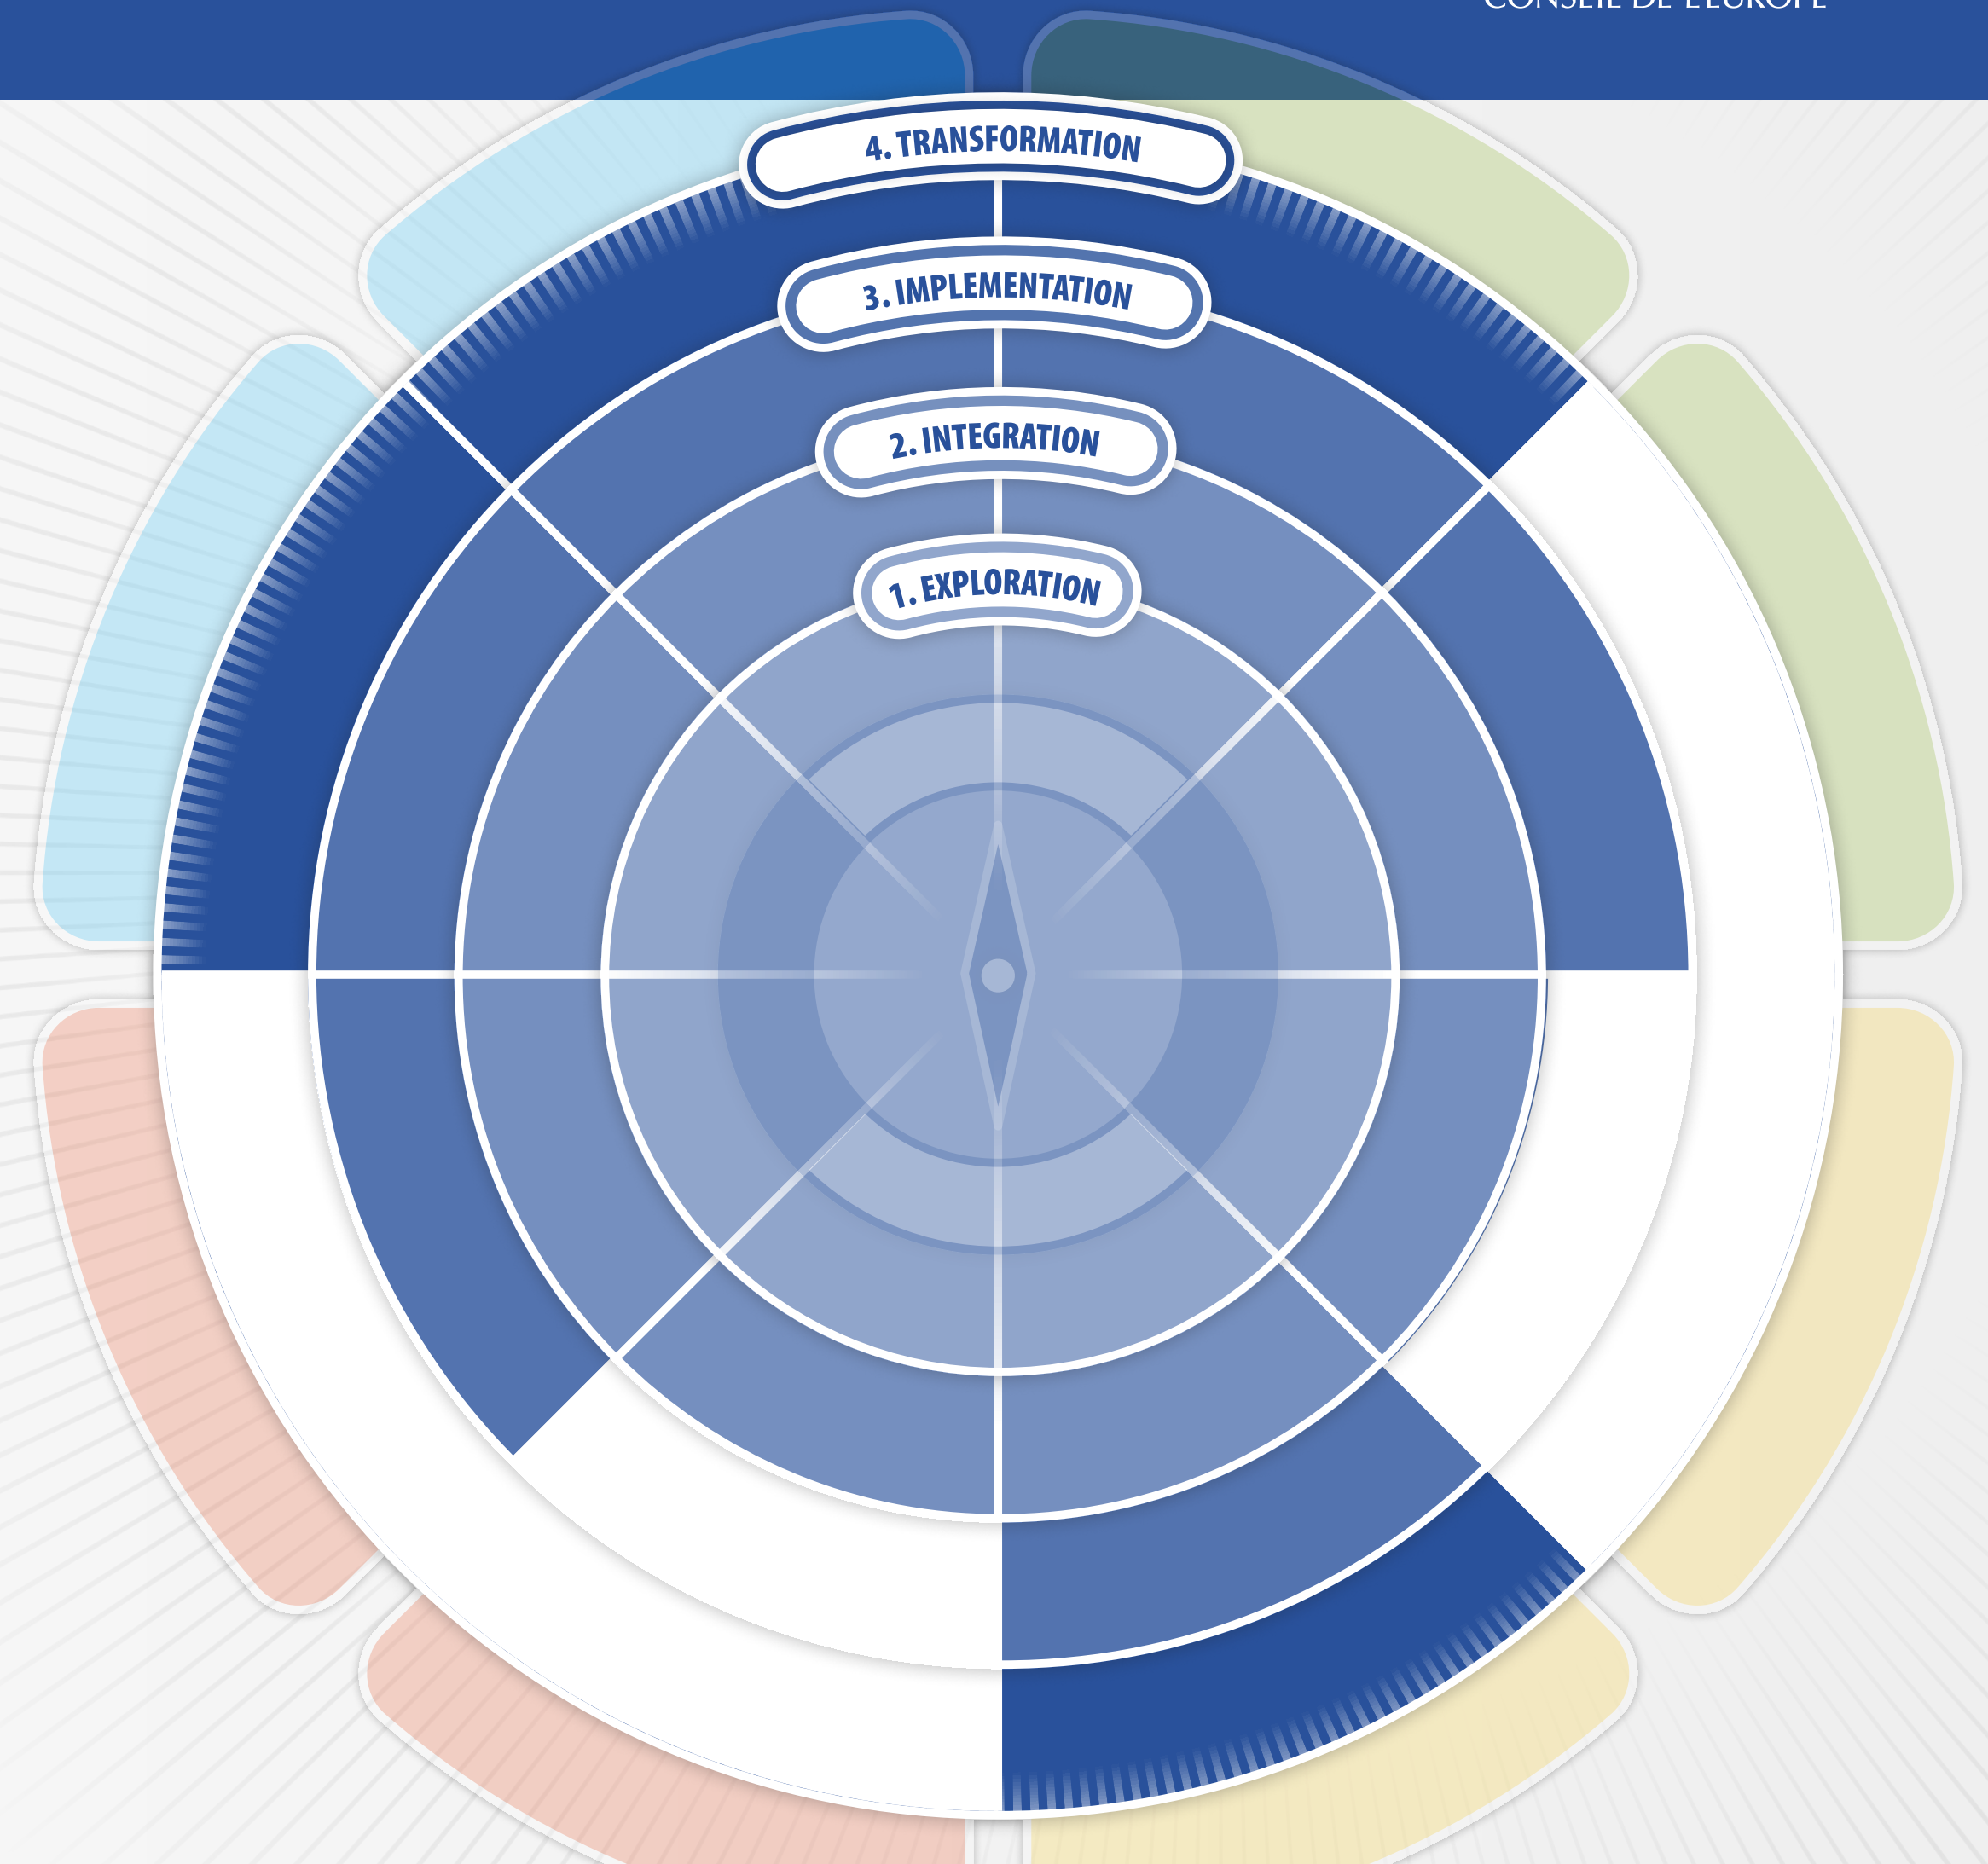

A flexible four-level pathway **(1,2,3,4)** that helps education systems and institutions assess their starting point, identify priorities, and progress at their own pace towards responsible and effective AI governance.

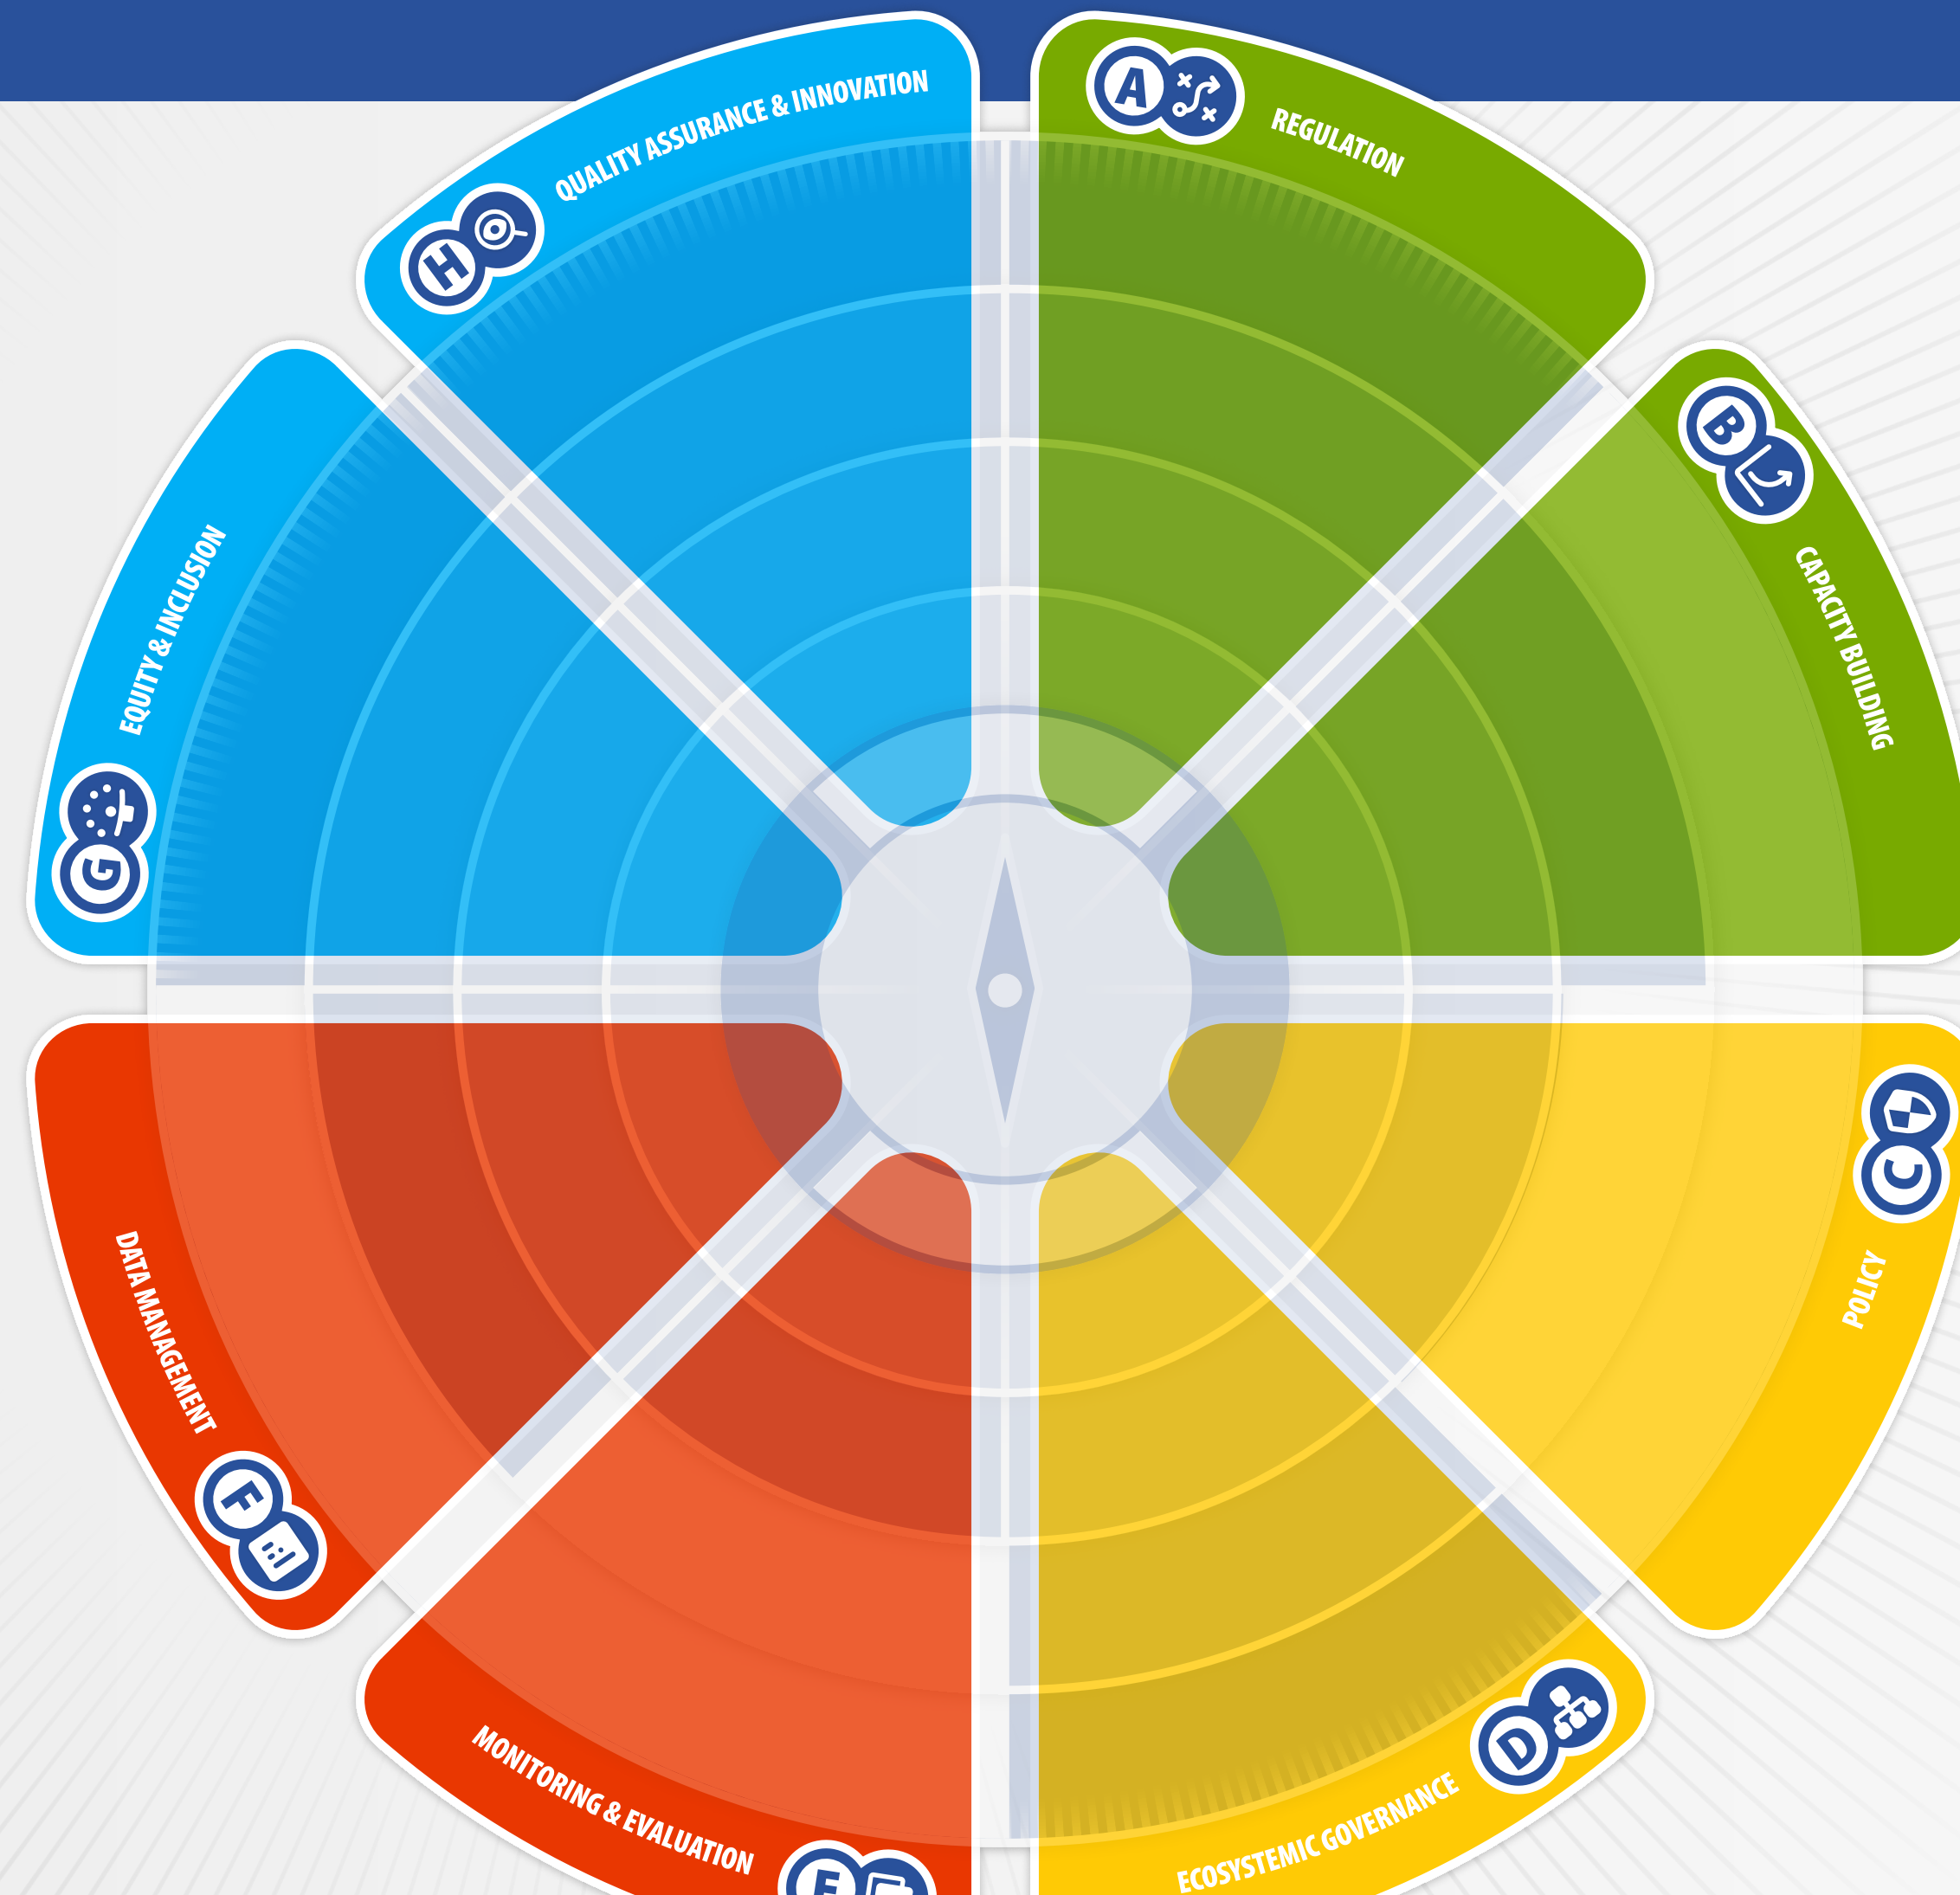

4 LEVEL PATHWAY TOWARDS TAILORED SUPPORT

Education System Profile

A structured overview of an education system's strengths, challenges, priorities and maturity in AI governance, identifying where it stands and how to progress towards responsible, inclusive and human-centred digital transformation.

8 DOMAINS

The eight domains **(A, B, C, D, E, F, G, H)** provide a common framework for governing AI and digital transformation in education - from compliance and leadership to performance and standards - connecting principles to practice and innovation to outcomes while safeguarding human rights, quality and sustainability.

8 DOMAINS - COMPLIANCE

Ensuring AI in education is governed by up-to-date legal and ethical frameworks, while building the capacities needed to comply with them through AI literacy, a comprehensive pluriliteracies approach, digital citizenship education and democratic culture.

8 DOMAINS - LEADERSHIP

POLICY

ECOSYSTEMIC GOVERNANCE

Ensuring system readiness through a sustainable education strategies supported by a holistic, long-term approach combining change management, infrastructure monitoring, human oversight, ecological sustainability, and stakeholder engagement.

8 DOMAINS - PERFORMANCE

Ensuring responsible use of data and learning analytics, alongside adaptive legal and ethical frameworks for education technologies in education.

8 DOMAINS - STANDARDS

Ensuring equitable, inclusive and accessible education that supports learner and teacher well-being, alongside quality assurance, responsible innovation, and participation and resilience across education systems.
