1. Judicial organisation in Estonia (2021 data)

In 2021, there are 9 courts considered as legal entities in Estonia. Among them, 7 are of general jurisdiction and 2 have specialised competence.

More precisely, there are 4 first instance courts of general jurisdiction – the county courts - which decisions can be appealed before 2 Appellate courts. The Supreme court is the highest instance court of general jurisdiction. It hears only cases that have been given leave to appeal (i.e. that have been declared admissible for proceedings in the Supreme Court). The Supreme Court is not required to give reasons in its rulings on the admissibility of the appeals.

There are only two specialised courts which are first instance administrative courts.

In terms of geographic locations, Estonia has 17 courthouses of county courts, 4 courthouses of administrative courts, 2 courthouses of Appellate courts and 1 courthouse of the Supreme Court, all together 24 courthouses. However, as some of the courts are situated in the same house (e.g. Tallinn Administrative Court and Tallinn Circuit Court) and taking into account the fact that Pärnu County Court has a courthouse that is divided between two locations, there are 20 actual geographical locations of Estonian courts.

In Estonia, there are no specialized first instance courts, other than administrative courts. All the cases are dealt with by ordinary courts of first instance. The two administrative courts of first instance are situated in Tallinn and Tartu. Nevertheless, for guaranteeing wider access to justice, these two courts have several court buildings in other cities, namely in Pärnu and Jõhvi, where judges and their supporting legal staff work.

Supreme court	19	8,1%	14	5	73,7%	26,3%
Total	236		80	156	33,9%	66,1%

In this cycle, the total number of female professional judges (all instances) is 156, which represents 66,1% of the total number of judges.

The total number of judges is distributed among the different judicial instances in the following way: 171 are sitting in first instance courts (of which 125 are Female); 46 are sitting in second instance courts (of which 26 are Female) and 19 are sitting in Supreme Court (of which 5 are Female).

Compared with the EU distribution of professional judges per instance a similar trend is observed in Estonia, especially with regard to first instance judges. Second instance judges are less numerous in Estonia than in the EU, while the percentage of third instance judges in Estonia is above the EU median.

As regards the distribution Male/Female, it has to be specified that female judges do not have the majority only at the level of the Supreme court.

As a ratio with the annual average salary of the country, the salary for a judge at the beginning of his/her career is 3,07 which is considerably above the EU median of 1,91.

3. Legal aid and court fees in Estonia (2021 data)

In Estonia, legal aid is available for :

- > Representation in court:
- Criminal cases

◦ Other than criminal cases
- > Legal advice, ADR and other legal services:
- Criminal cases

◦ Other than criminal cases
- > Fees related to enforcement of judicial decisions as fees for enforcement agents (Q18)
- > Other costs than above (Q19)

Legal aid cannot be granted for fees related to the enforcement of judicial decisions (except for representing a person in enforcement proceedings), but procedural assistance can be granted to release a person from all or a part of the expenses related to enforcement proceedings.

At the request of a lawyer who has provided state legal aid, the court, investigative body or prosecutor's office shall determine the reimbursable travel and accommodation expenses incurred by the lawyer or the manager of the law firm in connection with the provision of state legal aid. Travel and accommodation expenses shall be reimbursed only if the State legal aid has been provided in a place other than the town or municipality where the law firm or the structural unit through which the lawyer provides legal services is located.

4. Performance of courts in Estonia (2021 data)

• Efficiency indicators

◦ Clearance Rate (CR) and Disposition Time (DT)

The Clearance Rate shows the capacity of a judicial system to deal with the incoming cases. A Clearance Rate of 100% and higher does not generate backlog.

The Disposition Time determines the estimated number of days necessary for a pending case to be solved in a court.

Overall efficiency by instance and by case matter

	Supreme Court	209	247	150	241	247	126

Clearance Rate by instance and by matter in 2021 (%)

DispositionTime by instance and by matter in 2021 (days)

In 2021, in Estonia, the total length of criminal proceedings is the shortest one, akin to the trend in the EU. Conversely, the total length of civil litigious proceedings is longer than the one of administrative proceedings. In all three matters, the total length of proceedings is below the respective EU medians.

In terms of Disposition Time, the values calculated for the Estonian courts are below the respective EU medians for all matters, at all instances, except for third instance criminal cases where the DT indicator exceeds the EU median. Indeed, in 2021, the Clearance Rate of the Supreme court in criminal matters is quite low. Even if, no specific explanation has been provided by the Supreme court, the overall reasons of the decrease in the number of resolved criminal cases are Covid-19 related. As a matter of fact, the Clearance Rate of the Supreme court is also below the 100% threshold in civil matters.

The highest Disposition Time for 2021 in Estonia is calculated for third instance criminal cases and the lowest for second instance criminal cases.

It should be noted that between 2020 and 2021, the number of first instance administrative law cases pending at the end of 2021 increased mainly due to COVID-19 related cases that have taken more time to be solved. Besides, in 2021, a general increase in the case load of circuit courts is observed, which affected the Clearance Rate indicator for second instance civil and administrative cases.

8. Systems for measuring and evaluating the performance of courts and public prosecution services in Estonia (2021 data)

In Estonia, quality standards are determined for the judicial system at national level (e.g. quality systems for the judiciary and/or judicial quality policies). However, there is no specialised personnel within the courts or the public prosecution services entrusted with implementation of these national level quality standards.

Estonia has developed a quality system consisting of 3 parts. The first part contains quality standards (good practice) for the management of the court that describe activities concerning the chairman of the court. The second part contains quality standards for the administration of courts and is focused on the different roles of the parties involved in the administration of courts: directors, Ministry of Justice, Council for the Administration of Courts. The third part contains quality standards for the court proceedings and is addressed to all judges. All of the three parts of the quality standards have been discussed and approved by the Council for Administration of Courts, respectively in 2012, 2013 and 2015.

Systems for measuring and evaluating courts' performance

A regular monitoring system of court activities is in place concerning:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the courts)	✓
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✗
Number of resolved cases	✓	Number of appeals	✓
Number of pending cases	✓	Appeal ratio	✓
Backlogs	✓	Clearance rate	✓
Productivity of judges and court staff	✓	Disposition time	✓
Satisfaction of court staff	✓	Other	✓

The scope of the monitoring system is extended to the results of proceedings; the categories of cases; the number of decisions appealed and revoked, fully or partially. The waiting time and the 'age' of pending (not solved) cases are also monitored. It is worth mentioning that every year all the courts and the Ministry of Justice enter into an agreement according to which courts should strive for structural changes and to make changes in case-flow management that will ultimately ensure efficient proceedings. The content of the agreement has changed since 2017. The goals are more general and the same for all the courts (except the Supreme Court).

In Estonia, there is a system to regularly evaluate the court performance based primarily on defined indicators and the reporting is more frequent than annual, namely 4 times a year.

Performance and quality indicators are defined for the activity of each court.

The following indicators are used:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the courts)	✓
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✗
Number of resolved cases	✓	Number of appeals	✗
Number of pending cases	✓	Appeal ratio	✗
Backlogs	✓	Clearance rate	✓
Productivity of judges and court staff	✓	Disposition time	✓
Satisfaction of court staff	✓	Other	✗

The evaluation of the courts' activities is not used for the later allocation of means in the courts.

Systems for measuring and evaluating public prosecution services' performance

A regular monitoring system of public prosecution services activities is in place concerning:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the public prosecution)	✓
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✓
Number of resolved cases	✓	Clearance rate	✓
Number of pending cases	✓	Disposition time	✓
Backlogs	✓	Percentage of convictions and acquittals	✓
Productivity of prosecutors and prosecution staff	✓	Other	✗
Satisfaction of prosecution staff	✓		

In Estonia, there is no system to evaluate regularly the activity of each public prosecution service.

Performance and quality indicators are defined for the activity of each public prosecution service.

The following indicators are used:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the public prosecutors)	✓
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✗
Number of resolved cases	✓	Clearance rate	✓
Number of pending cases	✓	Disposition time	✓
Backlogs	✓	Percentage of convictions and acquittals	✗
Productivity of prosecutors and prosecution staff	✓	Other	✗
Satisfaction of prosecution staff	✓		

The evaluation of the public prosecution services' activities is not used for the later allocation of means in the public prosecution services.
