## The landscape of Bolonia Cove: research, planning and intervention

Andalusian Historical Heritage Institute

of the Department of Culture of the Local Government of Andalusia

In order to comply with the provisions of the European Landscape Convention, a series of actions – research, planning and intervention – have been undertaken in support of the landscape of Bolonia Cove, considering its natural and cultural heritage. Visitor itineraries have been designed to reveal the richness of the site. The project considered the complex and relational nature of the landscape, as perceived by the inhabitants and visitors. The accessibility conditions have been improved and new interpretive materials have been produced. The project is part of a broader strategy to protect and manage the landscape, in order to improve its quality. It has helped to promote the participation of local stakeholders and to establish genuine interinstitutional co-operation.

The Committee of Ministers acknowledged the great value of the achievement presented for the 6th Session of the Landscape Award of the Council of Europe's European Landscape Convention 2018-2019, and the importance to make it well-known as a source of inspiration.

In accordance with Resolution CM/Res (2017)18 of the Committee of Ministers, the project is thus part of the Landscape Award Alliance of the Council of Europe.
