Campaign Lead, Football v Transphobia

The Background

- Growing visibility...
- ...starting from a very low base
- Wider context of struggle for trans rights
- Considerable negative media attention in the UK
- 90% of LGBTQ+ participants in sport consider homophobia & transphobia to be a problem
- Trans women most likely to receive direct discrimination (46%)
- 64% of LGBT people who identified as something other than male or female (e.g., genderfluid or genderqueer) not active enough to maintain good health
- Started Football v Transphobia in 2019, as an offshoot of Football v Homophobia
