Cultural Routes of the Council of Europe and UNESCO World Heritage Sites: existing and potential future synergies

According to Resolution CM/Res (2013)67, Cultural Routes of the Council of Europe must « take account of and promote the charters, conventions, recommendations and work of the Council of Europe, UNESCO and ICOMOS relating to heritage restoration, protection and enhancement, landscape and spatial planning ». Cultural Routes of the Council of Europe often cross sites inscribed on the World Heritage List (WHL). A number of sites inscribed on the WHL are approaching the Cultural Routes of the Council of Europe certification, and, vice versa, a number of Cultural Routes of the Council of Europe are interested in inscribing their heritage, tangible or intangible, on the WHL. Roundtable 2 will offer the occasion to discuss the added value of certifications and labels from the Cultural Routes point of view, comparing the Council of Europe and UNESCO definitions of heritage, its values (European/universal) and its socio-economic role, and envisaging new synergies between the two programmes.
