The European Commission for the Efficiency of Justice

1. Evaluation of the judicial systems (2016-2018 cycle)

Generated on: 29/08/2018 11:19

Reference data 2016 (01/01/2016 - 31/12/2016)

Start/end date of the data collection campaign: 01/06/2017 - 31/12/2017

Objective:

The CEPEJ decided, at its 28th plenary meeting, to launch the seventh evaluation cycle 2016 – 2018, focused on 2016 data. The CEPEJ wishes to use the methodology developed in the previous cycles to get, with the support of its national correspondents' network, a general evaluation of the judicial systems in the 47 member states of the Council of Europe as well as two observer states (Israel and Morocco). This will enable policy makers and judicial practitioners to take account of such unique information when carrying out their activities.

The present questionnaire was adapted by the Working group on evaluation of judicial systems (CEPEJ-GT-EVAL) in view of the previous evaluation cycles and considering the comments submitted by CEPEJ members, observers, experts and national correspondents. The aim of this exercise is to increase awareness of judicial systems in the participating states, to compare the functioning of judicial systems in their various aspects, as well as to have a better knowledge of the trends of the judicial organisation in order to help improve the efficiency of justice. The evaluation questionnaire and the analysis of the results becomes a genuine tool in favour of public policies on justice, for the sake of the European citizens.

Instruction:

The ways to use the application and to answer the questions are guided by two main documents:

- -User manual
- -Explanatory note

While the explanatory note gives definitions and explanations on the CEPEJ evaluation questionnaire and the methodology needed for replying, the User manual is a tool to help you navigate through this application. You can download the Explanatory note as a whole on the CEPEJ website. The specific explanations are also accessible for each question within this application under the tab "Explanatory note". This will serve as immediate consultation tool when answering questions. The user manual is accessible in the "Documentation" tab of the application.

In case you have any questions related to these documents or on the use of the application, please do not hesitate to contact the Secretariat.

1.General information

- 1.1.Demographic and economic data
- 1.1.1.Inhabitants and economic general information

001. Number of inhabitants (if possible on 1 January of the reference year +1)

Comments - If there are exceptions to the rule to pay a court tax or fee, could you please provide comments on those exceptions?

008-1. Please briefly present the methodology of calculation of court taxes or fees:

- A. Concerning the Administrative Tribunals

The deposit as a rule is standard and it varies from 25 to 300 Euros according to the nature of the litigation with the exemption of a) the fiscal and customs cases and b) the interim measures concerning the public procurement cases where the deposit is proportional. Besides, for the admissibility of the claim for damage, there is a proportional judicial stamp. Ref. Law 2717/1999 art. 277 as amended by law 4446/2016 art. 37 There is an exception for the State, the Local Government Authorities and the Legal Entities of Public Law from the court fees, the deposit and the judicial stamp. Ref. Law 2579/1998 art. 28 par. 4 maintained in force by Law 2717/1999 art.285

Concerning the Civil and Penal Justice

- B. The calculation of the Court fees is based on the following legislation:
- 1. the Code of Civil Procedure, which provides for the calculation in detail on the allocation of the Court fees among the litigating Parties (art. 179-193)
- 2. the Lawyers' Code, which provides for the calculation of the lawyers' fees.

The combination of these two codes and of some supplementary provisions (found in other legislation, applying in cases meeting specific criteria), regulate the calculation of Court fees.

Comments - If the public budget actually implemented regarding legal aid is different from the annual approved public budget allocated to legal aid, please indicate the main differences: The difference observed between the allocated budget to legal aid and the implemented one, is a result of several unpaid obligations due to the very large number of cases of legal aid in comparison to the staff assigned with the task of paying the beneficiaries.

Comments - If possible, please give information concerning the efficiency of this complaint procedure and any useful comment: Only specific court formations are competent to deal with such complaints. As far as the Ministry of Justice is concerned, it does not compensate the complainant, but only reimburses, due to the lack of relevant budget of the courts.

Comment - Please provide any useful comment for interpreting the data above: Previous data concerning the number of second instance judges did not, inadvertently, include all the ranks for penal, political and administrative justice. Accordingly, this year the number is higher and explains also the variation in the total.

It should be mentioned that the number of judges at the courts of Peace, which on 31/12/2016 was 880, is not taken into consideration since they have a separate procedure entering the judiciary and they are a separate category within it.

Comments Any deviations from the 2015 figures are due to a new way of collecting statistics. In fact, in 2016, a working group was set up to update and simplify the content of the statistical data requested by the judicial services of the country. The working group created tables followed by detailed instructions and training in relation to the requested information. According to the instructions given to the courts, some procedures they handle, in those which there is no participation of a judge, are not included in the data collected. In addition, in 2016 a long-term abstention by the lawyers of the country took place, resulting in reduction in the number of cases (especially civil and commercial litigious cases).

The number 79.872 of resolved administrative law cases does not include joint cases, i.e. decisions that refer to more than one case. Furthermore, for the 2016 data of the administrative First Instance Courts of Athens and Piraeus a slight deviation has been noted which is due to the data migration to a new information technology (IT) system called "Integrated Court Management System for Administrative Justice (OSDDY-DD)". This deviation that has already been taken into account by the Central Organizational Committee for the due implementation of OSDDY – DD is expected to lapse gradually within the next years.

As concerns the category "civil and commercial litigious cases" - incoming and resolved - in 2016 a long-term abstention by the lawyers of the country took place, resulting in reduction of numbers regarding the cases.

Comments - If you cannot make a distinction between misdemeanour criminal cases and severe criminal cases (according to the CEPEJ definitions), please indicate the categories of cases reported in the category "serious offences" and cases reported in the category "minor offences": Filling in the requested information regarding the criminal procedure is not possible at the moment. To give a brief overview of the national criminal procedure, criminal cases are filed for admission in the Public Prosecutor's Office, where they are further investigated. If a prosecution is initiated, the cases are discussed in court. The Court of First Instance or the Court of Appeal discusses and issues a judgment on each case brought before the court. The decision can then either postpone the case (whereby the case is forwarded to the competent Prosecutor's Office (after a postponement), it is uncertain if and when it will go back to the court for discussion. Criminal cases cannot be tracked down throughout the different stages of the criminal procedure at present. With the Integrated Civil and Criminal Court Case Management System (SDDY-PP)- Phase A', which is expected to be completed by November 2018, an integrated information system will be implemented, which will include individual applications (subsystems) to support the operational functioning of the units of all levels of the courts involved in the flow of every case (criminal and civil), allowing the extraction of the relevant data. For 2016 the available data regarding the criminal procedure are as follows: Courts of First Instance: Criminal Cases Discussed: 473.457, Convictions/Acquittals: 206.311, Postponements: 262.433, Courts of Appeal: Criminal Cases Discussed: 59.643, Convictions/Acquittals: 24.995, Postponements: 33.601

Comments With regard to the category "pending cases on 1 January 2016", the abnormality of the figures is due to the fact that the postponed cases because of the abstention of the lawyers in 2015 were not considered as pending to the backlog of the court. In 2016 a long-term abstention by the lawyers of the country took place, resulting in reduction of the number of resolved criminal law cases. Accordingly, the number of pending criminal law cases increased.

101-1. (New question) Could you briefly describe the system in your country dealing with judicial remedies relating to asylum seekers (refugee status under the 1951 Geneva Convention) and the right of entry and stay for aliens:

. The Independent Appeal Committees (12) are required to fulfill judicial duties, ensuring the effective remedy provided by the article 46 of the Directive 2013/32, although they do not constitute courts under the Greek constitution (dec. of the Council of State no.1237/2017). Currently composed of three members, they are competent for examining appeals against decisions of the Asylum Service rejecting a request for international protection. The President as well as one of the members is a judge of the administrative courts. A petition for judicial review (annulment) against decisions of the independent Appeal Committees is allowed within a period of 60 days after the day of their performance (art. 64 L. 4375/2016 & art. 46 PD 18/1989). The relevant decisions on the petition for judicial review of the Administrative Court of Appeal are subject to appeal before the Council of State. Third country nationals or stateless persons that do not have legal residence permit in Greece, are being referred to the competent police authority for the provided by the law procedures of expulsion, return or readmission. Against the relevant administrative act a petition for judicial review is permitted to be submitted to the competent Administrative Court of First Instance within a period of 60 days after the day of those acts' performance. The relevant decisions of the Administrative Court of First Instance are subject to appeal before the Council of State.

According to article 46 par. 5 L.4375/2016, the decision that orders the detention of a person that has applied for international protection as well as any other decision that extends the period of this detention is forwarded to the competent President of First Instance Court who considers the legality of the measure imposed. The latter must hear the applicant concerned or his lawyer. According to article 30 L. 3907/2011 in combination with art. 14 L.4375/2016, third country nationals or stateless persons whose application for international protection has been rejected or who do not fall within the legal provisions granting international protection or any other form of protection are referred to the competent police authority for the procedures of their return. Until the completion of the procedure of their removal, they may be placed, by a decision, under administrative detention. This measure can be objected before the competent President of the Administrative court of First Instance. The legitimacy of any decision, in addition to the original, that extends the detention is examined ex officio by the President of the competent Administrative Court of First Instance. International protection applicants that are under administrative detention as well as persons whose application has been rejected, are entitled to legal aid when lodging objections against the decision for their detention or when submitting an appeal before the Independent Appeal Committees or later on a petition for judicial review (annulment).

102. Average length of proceedings, in days (from the date the application for judicial review is lodged). The average length of proceedings has to be calculated from the date the application for judicial review is lodged to the date the judgment is made, without taking into account the enforcement procedure.

103. Where appropriate, please indicate the specific procedure as regards divorce cases (litigious and non-litigious):

. Divorce cases are resolved under the special procedure, as described in the Code of Civil Procedure (art. 592 and following). Namely, the procedure in the special court panels is faster and simplified compared to the ordinary civil procedure.

104. How is the length of proceedings calculated for the five case categories of question 102? Please give a description of the calculation method.

. There is not a consistent system for calculating the length of proceedings as a whole.

4.2.6. Case flow management – public prosecution

[] to conduct investigations

[X] when necessary, to request investigation measures from the judge

[X] to charge

[X] to present the case in court

[X] to propose a sentence to the judge

[X] to appeal

[X] to supervise the enforcement procedure

[X] to discontinue a case without needing a decision by a judge (ensure consistency with question 36!)

[] to end the case by imposing or negotiating a penalty or measure without requiring a judicial decision

[X] other significant powers (please specify):Public prosecutors can adopt temporary measures with regard to cases which concern the possession of real estate, when one of the litigants is the State or a public corporation or a municipality. Besides, they ensure the supervision and the control of correctional facilities.
