Council of Europe
Human Rights Education for Legal Professionals (HELP) Programme 2021

Background

Achieving gender equality is a priority for the Council of Europe (CoE) and its member States. It is also central to achieving the organisation's mission: safeguarding human rights, upholding democracy and preserving the rule of law. Even if the legal status of women in Europe has improved during the recent decades, effective equality between women and men is far from being a reality.

The CoE and its member States have made specific commitments to improve women's access to justice and prevent and combat violence against women. The role of justice system professionals in ensuring and strengthening women's access to justice is essential in achieving substantive equality and guaranteeing equal rights to all in the society.

For this reason, the HELP course on [Access to Justice for Women](#) was developed to help legal professionals understand the legal and other barriers in accessing justice and apply a gender sensitive lens in their daily work.

The course provides a comprehensive overview of International and European women's rights and gender equality standards, case-law and good practices. It is the first HELP course to provide a single resource on gender equality and justice covering the extensive CoE standards, monitoring reports and soft-law instruments on the matter.

Beside the Council of Europe Convention on Action against Trafficking in Human Beings, the course explores the case law of the European Court of Human Rights as well as other international legal instruments and national good practices, always focussing on the protection of the victims of human trafficking.

The course was developed in 2017 and explores these topics in a practical way, by using presentations, interactive screens, knowledge tests and reflective exercises.

The topics are explored in a practical way, by using presentations, interactive screens, knowledge tests and reflective exercises.

It is primarily addressed to legal professionals (judges, prosecutors, lawyers), but can be also useful for the court staff, law enforcement, social workers, NHRIs, civil society organisations, media and other professionals working in the field of gender equality. The course was finalised in October 2018.

About the course
