The game can be played with as many participants as desired. If only one die is available, it is rolled twice. If you come to an event field,  you roll the dice twice, read from the list which democracy event luck has chosen for you and move forward or back. Whoever reaches the goal first is lucky. If you are at the back, you know that in a democracy you have to be patient and live with frustration. The last will be first (maybe)!

points Event and decision

- 9** The children of your family have, on their own initiative, cleaned the streets around your home of rubbish, separated it ecologically and disposed of it properly. Great! 10 fields forward!
- 17** Once again you didn't take responsibility for your housework. Bad for everyone. 5 fields back!
- 26** The residents of the neighbourhood organised a street party together! 5 spaces forward for a strong community!
- 33** Someone has destroyed public sports equipment in your neighbourhood. This costs additional tax money. 4 squares backwards although it's not your fault.
- 41** You and your friends sold toys and clothes that were no longer needed and donated the proceeds to a Children's Rights organisation. Good thing! 6 fields forward!
- 50** You are too lazy to ride your bike more often, even though you know how much car emissions damage the environment. 8 fields back for you and your environment!
- 57** You have formed a family council and discuss the most important decisions together every week. Great! 7 fields forward!
- 65** You take time for personal conversations and listen patiently. 3 fields forward for your support!
- 74** Men and boys around you refuse to cook and clean. You didn't say anything against it. 8 squares backwards, you coward!
- 82** Your family subscribes to a neutral newspaper because you want to be well informed about all important issues. 5 squares forward, because democrats have to be well informed!
- 95** You rolled 6 twice. That is chance and luck. You can either go forward 12 fields yourself, or decide whether you want to give it to others.
