

Enhancing penitentiary capacities in addressing radicalisation in prisons in Western Balkans

What is the goal?

To contribute to regional security by addressing radicalisation in prisons and disengaging violent extremist prisoners from violence by:

- ▶ raising awareness of the process of radicalisation and violent extremism in prisons and encouraging culture of sharing information and good practices between the penitentiary and probation services
- ▶ assisting practitioners recognise signs of radicalisation and empower first-line officers with the necessary knowledge and tools
- ▶ facilitate and encourage multi-agency partnerships to counter radicalisation in prisons and provide adequate post-penal support to released violent extremist offenders

Who benefits from the action?

- ▶ Ministries of Justice in Albania, Bosnia and Herzegovina, Kosovo*, Montenegro, North Macedonia and Serbia
- ▶ Penitentiary and probation services
- ▶ National Coordinating mechanisms on preventing and countering violent extremism and counter terrorism
- ▶ Other relevant institutions and agencies
- ▶ Prisoners at risk, radicalised inmates and violent extremist offenders
- ▶ Society in general

How will the action work?

The action provides a forum for sharing know-how, experience and lessons learnt among the Beneficiaries on addressing violent extremism and radicalisation in prisons. It aims to contribute towards standardisation of the approaches in the Western Balkans and setting minimum standards and unified methodologies on combatting violent extremism and radicalisation in the prisons in the region. The action co-ordinates its actions with the Beneficiary authorities (prisons and probation services) and the local Coordinating mechanisms on preventing and countering violent extremism and counter terrorism.

What do we expect to achieve?

- ▶ Strengthened application of the tools and mechanisms by the practitioners with regards to addressing radicalisation in prisons, in light of the identified good practices in the region and Europe;
- ▶ Improved capacities of the practitioners involved in identifying and countering radicalisation in prisons;
- ▶ Prison managers and prison staff in Serbia and in Kosovo are able to identify, assess and address radicalisation in their every day work through systematic application of the newly developed methodologies and tools.
