Project "Long-term electoral assistance to the election related stakeholders of Armenia"	13 362.09	20/03/2017	Investigative Journalists NGO - Yerevan	Armenia	<p>Activity 1 - Studio debates with election related stakeholders. Five studio debates with election related stakeholders of 2017 Parliamentary elections will be conducted. Representatives of political parties, candidates, legal defenders, political activists and observers will discuss issues presented in the campaign platforms, violations revealed during the campaign, and post-election developments after the Election Days. These debates will be run in multimedia format and will be broadcast via www.hetq.am. Each of these studio debates will last for 30 minutes.</p> <p>Activity 2 - Establishment of a hotline and mobile crew for the period of 2017 Parliamentary elections. During the pre-election stage, 'hotline' in Hetq Online will be created, where citizens will be invited to report about irregularities and violations of the Electoral Code that they have witnessed. The hotline will be announced through the official website of the organisation and social networks as well as websites and social networks of partner NGOs to reach as much people as possible. A corresponding banner will be also posted on the organisation website, so that a large number of citizens have knowledge of and access to the hotline. The resulting reports and observations will be distributed, via the internet, to individuals and organisations involved in the election process – political parties, reporters, observer missions, NGOs, etc. Thus, the NGO will create a database of election violations, which will serve as a basis for periodic articles and investigative pieces. Additionally, a mobile crew of 50 reporters and technical staff will be established, and they will immediately travel to polling stations and hot spots when observers and proxies on the ground raise alarms regarding violations and irregularities and will be able to provide immediate coverage of the electoral fraud.</p>

Domestic observers recruited by the Grantee, along with Union of Informed Citizens, Martuni Women’s Community Council and Goris Press Club, will be deployed to different polling stations across Armenia. These observers have been trained based on the recently updated Handbooks on Election Reporting and International Standards and newly adopted RA Electoral Code. After the election observation the database of certified and qualified local observers will be updated accordingly.</p> <p>Activity 2 – Presentation of the final report on parliamentary election observation. The results of the observation mission will be published in a report and presented to local and international organisations. The final report on election observation shall be developed in English and Armenian.</p> <p>Activity 3 – Wrap-up workshop on observation of local and parliamentary elections. A wrap-up workshop will summarise the Project activities aimed at enhancing observation practices during local and parliamentary elections in Armenia.</p>
