1. Judicial organisation in Lithuania (2021 data)

The number of first instance courts (legal entities) in Lithuania decreased from 1st January 2018 according to the Law on Reorganization of Courts of the Republic of Lithuania (Law of 23rd June 2016 No. XII-2474). Instead of 49 district courts (legal entities) there are now 12 district courts (some of them have court houses), and instead of 5 regional administrative courts there are now 2 of them (one has houses). The number of first instance courts of general jurisdiction (legal entities) also encompasses 5 regional courts (of general jurisdiction) which are first instance for criminal and civil cases assigned to their jurisdiction by law. In addition, these courts are appeal instance for judgements, decisions, rulings and orders of district courts.

Accordingly, in total there are 17 first instance courts of general jurisdiction (legal entities).

Besides, there are 2 courts of appeal, one of them being specialized in the field of administrative law – the Administrative Supreme court, and 1 Court of cassation.

Regional courts are first instance courts for criminal and civil cases assigned to their jurisdiction by law, also, these regional courts are appeal instance for judgments, decisions, rulings and orders of district courts. Taking this into account, regional courts are counted as first instance courts of general jurisdiction and as second instance courts of general jurisdiction, but in the totals regional courts are counted only once as one legal entity.

First instance courts: 12 district courts and 5 regional courts (the latter are adjudicating certain categories of cases as first instance courts);Second instance courts: 5 regional courts and the Court of Appeal of Lithuania;Specialised courts regional administrative courts and the Supreme Administrative Court of Lithuania.

As regards geographic locations, there are 59 first instance courts locations: 12 district courts (49 locations), 5 regional courts (5 locations) of general jurisdiction and 2 regional administrative courts (5 locations).

The distribution between first instance general jurisdiction courts and first instance specialised courts of 85,7% - 14,3% is somewhat different from the EU median (distribution tendency in EU: 72,8% - 27,2%).

2019	750	26,8	24,5
2020	740	26,5	23,9
2021	718	25,6	24,1

According to 2021 data, the total number of professional judges sitting in courts (all instances) in Lithuania is 718, which is -3,0% less than in previous cycle.

More precisely, in Lithuania, there are 25,59 professional judges per 100 000 inhabitants (this figure is above the EU median of 24,11 judges per 100 000 inhabitants) and about 3,69 non-judge staff per judge.

There is no significant difference compared with previous cycle when this ratio was at 3,66 non-judge staff per judge.

Absolute number of professional judges by instance and gender

Professional judges 2021	Total	Distribution by instance	Male	Female	% Male	% Female
1st instance	643	89,6%	213	430	33,1%	66,9%

Supreme court	30	4,2%	17	13	56,7%	43,3%
Total	718		255	463	35,5%	64,5%

In this cycle, the total number of Female professional judges (all instances) is 463, which represents 64,5% of the total number of judges.

The total number of judges is distributed among the different judicial instances in the following way: 643 are sitting in first instance courts (of which 430 are Female); 45 are sitting in second instance courts (of which 20 are Female) and 30 are sitting in Supreme Court (of which 13 are Female).

Compared with the EU distribution of professional judges per instance, in Lithuania there are relatively less judges in second instance and more in first instance.

As regards the methodology of presentation of data in respect of the number of judges, it should be noticed that it reflects the peculiarities of the Lithuanian court system. Namely, as the regional courts function not only as courts of appeal, but also as courts of first instance (Article 19 of the Law on Courts of the Republic of Lithuania), the number of judges of these courts is included in the 1st section. Accordingly, the latter indicates the number of judges of district courts, regional courts and regional administrative courts. Likewise, given that the Supreme Administrative Court is the court of appeal (although the rulings of the Supreme Administrative Court of Lithuania are final and not subject to appeal) the number of judges of this court is encompassed in the 2nd section. The latter indicates the number of judges of the Court of Appeal of Lithuania and the Supreme Administrative Court of Lithuania. The 3rd section indicates the number of judges of the Supreme Court of Lithuania.

3. Legal aid and court fees in Lithuania (2021 data)

In Lithuania, legal aid is available for :

> Representation in court:

- Criminal cases
- Other than criminal cases

> Legal advice, ADR and other legal services:

- Criminal cases
- Other than criminal cases

> Fees related to enforcement of judicial decisions as fees for enforcement agents (Q18)

> Other costs than above (Q19)

The costs of secondary legal aid cover the costs of the execution process (Article 2(1) of the Law on State-guaranteed legal aid). However, the costs incurred by the debtor in the execution process are not covered.

The costs of secondary legal aid from which the applicant is exempted are: litigation costs incurred in civil proceedings, the costs incurred in administrative proceedings, the costs related to the hearing of a civil action brought in a criminal matter, the costs related to defence and representation in court (including the appeal and cassation proceedings, irrespective of the initiator) as well as the costs of the execution process, the costs related to the drafting of procedural documents and collection of evidence, interpretation, representation in the event of preliminary extrajudicial consideration of a dispute, where such a procedure has been laid down by laws or by a court decision (Article 14(2) of the Law on State-guaranteed legal aid). The costs of state-guaranteed legal aid cover also the costs of interpretation of communication between the lawyer and the applicant where, in the cases provided for in treaties of the Republic of Lithuania, it is impossible to ensure that a person providing state-guaranteed legal aid communicates with the applicant in the language which the latter understands (Article 14(10) of the Law on State-guaranteed legal aid).

Where the physical presence of an applicant is required by the law or by the court, the travel costs to be borne by an applicant are borne by the State-guaranteed legal aid service (Article 20(2) of the Law on State-guaranteed legal aid).

The number provided for non-litigious cases or cases not brought to court indicates the number of matters when primary legal aid (legal information, legal advice, drafting of the documents to be submitted to State and municipal institutions, with the exception of procedural documents, advice on the out-of-court settlement of a dispute, actions for the amicable settlement of a dispute and drafting of a settlement agreement) was granted.

The number provided for cases not brought to court indicates the number of matters when primary legal aid was granted. The number for cases brought to court indicates the number of matters when secondary legal aid was granted. In total 28184 cases: 19616 criminal cases (18421 cases by decisions of a pre-trial investigation officer, prosecutor or the court when the presence of a lawyer is mandatory and 1195 cases by decisions of State-guaranteed legal aid service where the presence of a lawyer is not mandatory) and 8568 other cases by decisions of State-guaranteed legal aid service.

Timeframes of the procedure for granting legal aid (in relation to the duration from the initial legal aid request to the final approval of the legal aid request)

- Maximum duration prescribed in law/regulations: 57
- Actual average duration: NA

According to the Law on State-guaranteed legal aid, primary legal aid must be provided as soon as the person applies to the municipality. If it is not possible to provide primary legal aid immediately, the applicant will be notified of the time available, which must be no later than 5 working days from the date of application. Decisions on the provision of secondary legal aid shall be adopted by the SGLAS not later than within 7 working days from the date of receipt of the required documents and information. In cases when in the interests of the applicant the decision to grant secondary legal aid must be taken urgently, the decision shall be taken immediately, but not later than the date of the procedural step which requires lawyers assistance. There is no timeframe for the decisions of pre-trial investigation officer, prosecutor or court on state guaranteed legal aid (when presence of lawyer is mandatory in criminal cases).

● **Efficiency indicators**

- Clearance Rate (CR) and Disposition Time (DT)

The Clearance Rate shows the capacity of a judicial system to deal with the incoming cases. A Clearance Rate of 100% and higher does not generate backlog.

The Disposition Time determines the estimated number of days necessary for a pending case to be solved in a court.

Clearance Rate by instance and by matter in 2021 (%)

DispositionTime by instance and by matter in 2021 (days)

Analysing efficiency indicators for Lithuania, it could be concluded that total disposition times for all instances are at better levels than EU medians for all three categories of cases. Looking at the individual instances, only the third instance recorded less favourable disposition times than EU medians which might imply certain challenges in processing civil (and commercial) and criminal cases in the Supreme Court. Clearance rates are around 100% for all cases except criminal cases in the Supreme Court which might cause accumulation of backlogs and increased disposition times for this case category in the future.

In Lithuania, statistical data on case flow and their classification are made according to the specific regulations and are mainly based on the institutes of Civil, Criminal Codes and the codes of Civil and Criminal procedures, as well as the Code of Administrative Offences and the law on Administrative procedure. Therefore figures for some of the types of cases are unavailable because there is no such classification while making statistical reports. In respect of the variations that can be observed between figures provided for the different evaluation cycles and in the light of the above described peculiarity of the statistic system of Lithuania, it is noteworthy that cases the number of which is not available are included in other categories, i.e. “civil litigious”, “civil non-litigious”. Accordingly, the indicated totals are relevant. Second instance courts deal with some non-litigious cases, but their number is insignificant.

2021	98,0%	101,7%	106	296

With a Clearance Rate calculated at 98% in 2020, Lithuania seems to face some difficulties in dealing with its administrative cases.

Between 2020 and 2021, the Clearance Rate has increased by 0,5 points.

In 2021, first instance Administrative law cases are solved in approximately 106 days, which is significantly below EU median of 296 days.

The analysis of the 2020 - 2021 period reveals a -5,3% decrease of the Disposition Time.

On July 1 2021 the amendments to the Code of Administrative Misdemeanors entered into force, by which the cases of administrative offenses were transferred to be examined (except for the cases referred to in Article 614, paragraph 1, point 3) from district courts out of court to pre-trial institutions.

In 2021 in the district courts, there was a noticeable decrease in the number of civil cases examined by the first instance due to the bankruptcy of legal entities - 1,212 cases (1,624 in 2020, 2,787 in 2019). Compared to 2019, such cases decreased by more than half. It can be assumed that such a decrease in cases in this category could have been caused by the 2020 initiative adopted by the Council of Judges.

The impact of the consequences of the coronavirus (COVID-19) on Lithuania resulted in entering into force Law no. XIII-2861, which was temporary (until 31 December 2020), and suspension of the initiation of the insolvency process. It is noteworthy that out of 1212 civil cases on bankruptcy of legal entities, which were examined in 2021, the majority - 860 cases - were received by 2020.

2021	118,2%	103,3%	406	299

With a Clearance Rate calculated at 118,2% in 2021 Lithuania seems to be well able to deal with its insolvency cases.

Between 2020 and 2021, the Clearance Rate has decreased by -22,7 points.

In 2021, insolvency cases are solved in approximately 406 days, which is somewhat above EU median of 299 days.

The analysis of the 2020 - 2021 period reveals a 59,3% increase of the Disposition Time.

The decrease in insolvency cases category could be due to the initiative of the Council of Judges adopted in 21 April 2020 entered into force in 25 April 2020. The impact of the consequences of the coronavirus (COVID-19) on Lithuania resulted in entering into force Law no. XIII-2861, which was temporary (until 31 December 2020), and suspension of the initiation of the insolvency process. The National Audit Office of Lithuania carried out an audit on the investigation and prevention of cybercrime, which aims to contribute to the creation of a safe environment for society in cyberspace. The audit recommendations highlighted the need for the General Prosecutor's Office to pay more attention to the development of competences in the investigation of cybercrime, as the competences of specialised prosecutors are not sufficiently enhanced due to an insufficient and unsystematic education system and the lack of methodologies for the investigation of cybercrime. Due to the high cost of cybercrime training, an additional budget was requested and a small part of it was received.

* Please note that these figures include traffic offence cases.

The number of registered crimes is gradually decreasing since 2017 in Lithuania, and this also affects other numbers. Cases closed by the public prosecutor for other reasons: cases closed under Paragraph 3 Article 68 of the Criminal Procedure Code - when criminal act has been committed in the territory of the Republic of Lithuania by a citizen of a foreign country or other person who have subsequently left the Republic of Lithuania, the Prosecutor General's Office of the Republic of Lithuania may request foreign country to take over the criminal case. When criminal case is taken over by another country, the one in Lithuania is discontinued. The number of registered crimes is gradually decreasing since 2017 in Lithuania, and this affects number of incoming cases, processed cases, discontinued cases and cases brought to court. The reason for the non-compliance of the result of the formula used ((pending cases on 1 January 2020 + incoming cases) – processed cases = pending cases on 31 December 2020) is a result of different sources of data and their differing formulas for calculating some statistical indicators. Numbers of „Pending cases“ and „Incoming cases“ is taken from the national register, however number of „Processed cases“ is taken from registers of the Lithuanian Prosecution Service.

6. Existence and use of alternative dispute resolution in Lithuania (2021 data)

Number of mediators

Mediators	Absolute Number	Per 100 000 inhabitants	
	Lithuania	Lithuania	EU Median
2012	47	1,6	9,5
2013	47	1,6	9,6
2014	109	3,7	8,9

2017	366	13,0	13,2
2018	469	16,8	14,9
2019	392	14,0	14,3
2020	552	19,7	14,4
2021	663	23,6	16,2

In 2021, there are 663 accredited or registered mediators who practise court related mediation which represents 23,6 accredited or registered mediators per 100 000 inhabitants.

The variation between 2020 and 2021 is about 20,1%.

On 29 June 2017, a new regulation for mediation and becoming mediator was adopted which entered into force from 1 January 2019. The amendments that have been made set new requirements to improve the quality of mediation services. Also, the establishment of mediation as a professional activity (with the exception of judicial mediation by judges) is approved, part of such activity is paid by state. These factors as well as the overall promotion of mediation in the country and the development of the application of mediation might have impact on the significant increase of the number of people that gained the status of mediator. Until 1st January 2019, the National Courts Administration have been maintained the list of court mediators which included judges and other persons (not judges). Due to a change in legal regulation (from 1st January, 2019), National Courts Administration maintains only the list of Judges who have been granted the status of mediators (Article 5 (2) of the Law on Mediation of the Republic of Lithuania) and transmits this data to the State Guaranteed Legal Aid Service. The latter maintains the common list of mediators and decides on the status of mediator for persons who are not judges. The mentioned list is published on the website of the The State Guaranteed Legal Aid Service (Article 5 (6) of the Law on Mediation). It is to notice that court-related mediation in practice is more often executed by mediators judges however the mediators who are not judges are also allowed to mediate at this stage when they are appointed by the State Guaranteed Legal Aid Service.

From 1 January 2021 all mediators registered in the list of mediators of the Republic of Lithuania have the right to conduct judicial mediation in both civil and administrative cases.

Number of court related mediations

Family cases	210	180	80
Administrative	7	11	8
Employment dismissal	14	17	7
Criminal cases	NAP	NAP	NAP
Consumer cases	2	2	0

Family, labor and consumer cases are civil cases, so the number of cases in these respective categories is subtracted from the total number of civil cases.

Productivity of judges and court staff	✓	Disposition time	✗
Satisfaction of court staff	✗	Other	✗

All of these data are recorded in the Lithuanian Court Information System (LITEKO), as well as other data, related to the case, it's process and the parties to the proceedings.

In Lithuania, there is a system to regularly evaluate the court performance based primarily on defined indicators and the frequency of the reporting is annual.

Performance and quality indicators are defined for the activity of each court.

The following indicators are used:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the courts)	✓
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✗
Number of resolved cases	✓	Number of appeals	✓
Number of pending cases	✓	Appeal ratio	✓
Backlogs	✓	Clearance rate	✓
Productivity of judges and court staff	✓	Disposition time	✓
Satisfaction of court staff	✗	Other	✗

The evaluation of the courts' activities is used for the later allocation of means in the courts.

Systems for measuring and evaluating public prosecution services' performance

A regular monitoring system of public prosecution services activities is in place concerning:

Number of incoming cases	✓	Satisfaction of users (regarding the services delivered by the public prosecution)	✗
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✗
Number of resolved cases	✓	Clearance rate	✓
Number of pending cases	✓	Disposition time	✗
Backlogs	✓	Percentage of convictions and acquittals	✓
Productivity of prosecutors and prosecution staff	✓	Other	✗
Satisfaction of prosecution staff	✗		

In Lithuania, there is a system to evaluate regularly the activity of each public prosecution service and the reporting is more frequent than annual.

Chief prosecutors of the departments of the prosecutor's offices are regularly provided with monthly data based on basic indicators of the performance of public prosecution offices, every 3 months - with the larger scale of performance data.

Performance and quality indicators are defined for the activity of each public prosecution service.

The following indicators are used:

Number of incoming cases	✗	Satisfaction of users (regarding the services delivered by the public prosecutors)	✗
Length of proceedings (timeframes)	✓	Costs of the judicial procedures	✗
Number of resolved cases	✓	Clearance rate	✓
Number of pending cases	✓	Disposition time	✗
Backlogs	✓	Percentage of convictions and acquittals	✓
Productivity of prosecutors and prosecution staff	✗	Other	✗
Satisfaction of prosecution staff	✗		

The evaluation of the public prosecution services' activities is used for the later allocation of means in the public prosecution services.
