A free-for-LEA platform for ingesting, enriching, analysing, cross-correlating and exchanging evidential data.

INSPECTr will provide:
- Fusion of outputs from commercial tools
- Integrated tools for digital forensics and intelligence gathering
- Proactive policing techniques for detecting and forecasting crime
- Extra-jurisdictional collaboration: correlation and transfer of evidence
- Full chain of custody stack using blockchain ledger and services
- Assistance via ML/AI driven cognitive approaches

LEAs involved:
- AGS - An Garda Síochána (Ireland)
- EPBG - Politsei-ja Piirivalveamet (Estonia)
- GN - Ministere de L'Interieur (France)
- LSP - State Police Ministry of the Interior (Latvia)
- MoJN - Ministerie Van Justitie En Veiligheid (Netherlands)
- PHS - Norwegian Police University College (Norway)
- PSNI - Police Service of Northern Ireland (Northern Ireland)
- IGPR - Inspectoratul General al Poliției Române (Romania)
- BFP - Belgian Federal Police (Belgium)
