*Annex to the letter of the Agent of Ukraine  
before the European Court of Human  
Rights of 2 July 2019*

**Updated Action Plan  
on measures to be taken for implementation of the Court's judgments in cases of  
*Yuriy Nikolayevich Ivanov* (application no. 40450/04), *Zhovner group* (application  
no. 56848/00) and *Burmych and Others* (application no. 46852/13) v. *Ukraine***

**CASE SUMMARY**

These cases relate to the important structural problem of non-enforcement or delayed enforcement of domestic judicial decisions, mostly delivered against the State and State-owned or controlled entities, and to the lack of an effective remedy in this respect (violations of Articles 6 § 1, 13 and Article 1 of Protocol No. 1).

In October 2010, the Court delivered a pilot judgment in the *Yuriy Nikolayevich Ivanov* case. It indicated that specific reforms in Ukraine's legislation and administrative practice should be implemented without delay to resolve this problem and set a deadline of 15 July 2011 for the creation of an effective domestic remedy in this respect. The Court further invited the respondent State to settle on an *ad hoc* basis all similar applications lodged with it before the delivery of the pilot judgment (1,600) and decided to adjourn the examination of similar cases. Given that the measures called for by the Court in its pilot judgment were not adopted within the deadline set, in February 2012 the Court decided to resume the examination of the frozen applications raising similar issues.

On 12 October 2017, the Grand Chamber delivered its judgment in the *Burmych* case. It noted that, despite the significant lapse of time since the *Ivanov* pilot judgment, the Ukrainian Government had so far failed to implement the requisite general measures capable of addressing the root causes of the systemic problem identified by the Court and to provide an effective remedy securing redress to all victims at national level.

Bearing in mind its efforts in examining *Ivanov*-type cases for over 17 years, the Court concluded that nothing was to be gained, nor would justice be best served, by the repetition of its findings in a lengthy series of comparable cases, which would place a significant burden on its own resources, with a consequent impact on its considerable caseload.

It thus decided to strike the *Ivanov* follow-up applications (12,143 cases) out of its list of cases and found that the grievances raised in these applications had to be resolved in the context of the general measures to be introduced by the authorities at national level, as required by the execution of the *Ivanov* pilot judgment, including the provision of appropriate and sufficient redress for the Convention violations, measures which are subject to the supervision of the Committee of Ministers. The

Court envisaged that it might be appropriate to reassess the situation within two years of the delivery of the *Burmych* judgment.

## GENERAL MEASURES

At the outset the Government would like to express profound gratitude to the Council of Europe, its Secretariat and the Human Rights Trust Fund for their continuous technical support and inspiration given in order to reform the system of execution of the domestic court judgments. In this regard, please be assured thus far solution to a complex and long-lasting problem of the non-enforcement of judgments is a first priority task for Ukraine. It worth noting that recognising human rights and freedoms, including respect for the rule of law and access to justice, is enshrined in the Constitution of Ukraine and domestic legal acts, and considered to be the utmost value.

Following the Committee of Ministers previous examination of the above group of cases at their 1348<sup>th</sup> meeting in June 2019, the Government of Ukraine remain pleased for assessing of the progress made in order to take individual measures and, thus, would like to provide for complete information on the just satisfaction and the respective domestic judgments which were enforced in the remaining cases of *Zhovner/Yuriy Nikolayevich Ivanov group* (see Annex I attached). Further information in this regard will be submitted to the Committee at the earliest possible date.

The authorities have already noted that with the assistance of the Council of Europe project “Supporting Ukraine in execution of judgments of the European Court of Human Rights” they seek appropriate solutions for the problems identified through the *National Strategy for implementation of general measures for execution of the pilot judgment in the cases of Yuriy Nikolayevich Ivanov v. Ukraine and Burmych and Others v. Ukraine* (the draft concept paper was submitted to the Committee on 30 May 2019).

The above National Strategy aims at bringing the Ukrainian legislation and practice further in line with standards of the Council of Europe in the area of enforcement of domestic court judgments. It focuses on the European Court findings and decisions/resolutions of the Committee of Ministers, as well as recent developments of national practice and legislation.

After the 1348<sup>th</sup> Committee of Ministers meeting the Government Agent forwarded the draft version of the National Strategy to all competent authorities for examination and granting proposals to its concept.

The date of the Interdepartmental Working Group meeting is currently expecting for adjustment. During the IWG meeting its members will discuss an action plan for implementation of the proposals for improvement of the problems specified within the main categories (1) legislative and regulatory measures of preventive nature; 2) specific institutional measures; 3) financial measures; 4) statistical and fact-finding measures and 5) establishing remedies) of the National Strategy and identify the timelines for measures stated therein. Further, the adopted action plan will be binding upon the relevant authorities and the Government of Ukraine as a whole.

It should be noted that the Government of Ukraine continue their work in order to enforce the courts' judgments by the competent authorities: Pension Fund of Ukraine, Ministry of Social Policy, the State Bailiffs Service (including enforcement of judgments under the Law of Ukraine "On State guarantees concerning execution of judicial decisions" of 2012). Moreover, the State Treasury Service of Ukraine works on the execution of judgments delivered before 1 January 2013, with funding ensured by the 4040 budgetary programme.<sup>1</sup> Whereas the collection of the relevant statistical data in this regard is prescribed by the special procedure, this information will be available later in due course.

As of today the Government of Ukraine intensify their efforts in order to find appropriate solutions of the problem of non-enforcement or delayed enforcement of domestic judgments, including through improvement of the legislation and implementation of good practices. The Government ask the Committee of Ministers to rest assured that national authorities will do their best to bring this matter to a satisfactory conclusion.

## CONCLUSIONS OF THE RESPONDENT STATE

The Government of Ukraine would like to make an emphasis on our commitment to the European values, principles and standards of the protection of human rights when executing the European Court's judgments. They will submit updated information on the outstanding issues **by 15 July 2019**.

<sup>1</sup> In December 2014 the Law "On Amending and Revoking Certain Statutory Acts of Ukraine" conferred discretionary powers on the Government to set the level of social benefits, based on the framework provided by domestic legislation. In 2011 and 2012 the Constitutional Court ruled that this was in conformity with the Constitution.
