This call for proposals is launched in the framework of the Promotion Programme of the Eurimages Fund. It aims to select co-productions markets that will present the Eurimages Co-production Development Awards according to the Fund's quality standards and values. The selected co-production markets are expected to provide visibility to both the Fund and international film co-productions.

1. INTRODUCTION

Active since 1989, Eurimages was established as a cultural support fund of the Council of Europe. The Fund promotes independent filmmaking by providing financial support to feature-length fiction, animation and documentary films. In doing so, it encourages co-operation between professionals established in different countries.

1.1. Values and missions

As an entity of the Council of Europe, the Eurimages Fund organises its activities based on the following fundamental values:

- freedom of artistic expression
- pluralism
- diversified creative storytelling
- cultural co-operation and exchange
- equality, diversity and inclusion
- transparency and neutrality
- environmental sustainability

Eurimages aims to enhance co-operation for the purpose of stimulating high quality film and audiovisual production as an important means of promoting independent cinematography and cultural exchanges within Europe and beyond, thus contributing to more inclusive and peaceful societies.

Its mission is to foster co-production and the circulation of independent, diverse, and original quality filmmaking and encourage co-operation contributing to a common film heritage, while taking into account gender equality, diversity, inclusion, and environmental protection.

1.2. Structure and Governance

The Board of Management, under the authority of its President, adopts the budget of the Fund and defines its policy and strategy. It meets at least once a year and is composed of representatives of the Fund's member States.

The Executive Committee provides continuity of management between meetings of the Board of Management. It meets at least three times a year and is composed of representatives of one-third of the Fund's member States, named by rotation and with regard for geographical and gender balance.

The Secretariat of Eurimages is responsible for implementing the decisions taken by the Board of Management. It maintains contacts with film industry professionals and has the task of assessing applications for funding as well as ensuring the follow-up of support agreements. The Secretariat is based in Strasbourg under the authority of an Executive Director.

1.3. Budget and funding

Eurimages has a total annual budget of approximately €31 million. This financial envelope derives essentially from the contributions of the member States as well as returns on the loans granted. Eurimages' support takes the form of soft loans and grants (Co-production support) or grants (Promotion of co-production, Cinemas support and Film Marketing & Audience Development support, supports granted in the framework of the Gender Equality, Diversity and Inclusion Strategy). Soft loans are repaid from revenues generated by the projects supported.

1.4. Support schemes

Eurimages has four support schemes:

- Feature Film Co-production support (representing 80% of the Fund's resources)
- Film Marketing & Audience Development (FMAD) support¹
- Cinemas support, in cooperation with Europa Cinemas
- **Promotion activities to promote independent filmmaking and international film co-productions through co-operation agreements with various festivals and film markets, including Co-production Development Awards, New Lab Awards and Sponsorships.**

In addition, Eurimages carries out other activities within the framework of overarching principles:

- Gender Equality, Diversity and Inclusion (GEDI) Strategy²
- Sustainability Strategy

**More information on the Eurimages Fund and its activities is available on its [website](#).
The latest activity report is available [online](#).**

2. BACKGROUND INFORMATION

2.1. Eurimages Promotion Programme

As part of its mission to support the creation and distribution of cinematographic works, the Eurimages Fund has established a promotion programme aimed at increasing its visibility and highlighting international film co-productions throughout its member States.

Under this programme, the Eurimages Fund enters into partnerships with key industry players such as major international film festivals, as well as with initiatives organised as part of the industry programme of film and audiovisual events throughout its member States.

2.2. Current activities in the framework of the Promotion Programme

2.2.1. Co-operation with film festivals and markets

For many years, the Eurimages Fund has been actively participating in the **Berlin, Cannes and Venice film festivals**, where it has a stand at their respective markets.

The Eurimages Fund also partners with these events to host a reception attended by a large number of industry professionals and organises occasional panels to introduce its new activities.

2.2.2. Eurimages International Co-Production Award

In 2007, the Eurimages Fund became a patron of the European Film Academy and created an award for co-production now called **Eurimages International Co-Production Award**, aimed at rewarding a distinguished producer from a Eurimages member State active in co-production.

This award, designed to acknowledge the key role of co-production in the film industry, is presented during the annual European Film Awards ceremony.

¹ This new programme replaces the former [Distribution Support Programme](#), which was discontinued in 2019.

² Two calls for proposals are launched at the same time as the ones for the Promotion Programme in order to select for the period 2027-2029: Gender Equality, Diversity and Inclusion sponsorships and the Audentia Award.

2.2.3. Eurimages Co-production Development Award

The **Eurimages Co-production Development Award** was created in 2010 to promote the Fund's role in encouraging film co-production from the initial stages of a project. Since 2021, this cash-prize of €20,000 is presented in a selection of co-production markets resulting from triennial calls for proposals.

2.2.4. Eurimages New Lab Awards

These awards are successors to the Eurimages Lab Project Awards launched in 2016 for innovative projects exploring new forms of expression, and the conclusions of the "Study on the feasibility, pertinence and design of a Lab Projects support programme for the Eurimages Fund".

A separate call for proposals is launched at the same time as this one to select initiatives to host the Eurimages New Lab Awards, i.e. the Innovation Award of €20,000 (for innovative projects in development to promote experimentation) and the Outreach Award of €30,000 (for innovative work-in-progress projects to promote audience outreach) in 2027-2029.

2.2.5. Sponsorships and patronages

Further to its triennial calls for proposals, Eurimages offers sponsorships to selected film-related initiatives taking place in the Fund's member States. This activity aims to promote both the Eurimages Fund and international film co-production through partnerships with high profile initiatives willing to highlight them.

A separate call for proposals is launched at the same time as this one in order to select sponsorship proposals made by international initiatives likely to contribute to the promotion of international film co-productions and the Eurimages Fund in 2027-2029.

Eurimages also offers patronage (i.e. sponsorships that do not involve a financial contribution from the Fund) for film-related events in the area of international co-productions. Applications for patronage are not covered by this call. They must be submitted in accordance with the [guidelines](#) on patronage published on the Eurimages website.

3. PURPOSE OF THE CALL

The purpose of this call is to select, for the year 2027 and with the possibility of renewal for the years 2028 and 2029, the co-production markets which will present the Eurimages Co-production Development Awards.

Eurimages intends to select **co-production markets** to host the Eurimages Co-production Development Awards in accordance with the exclusion, eligibility and selection criteria defined below.

The selected co-production markets will sign an agreement detailing the terms of their partnership with Eurimages in the framework of the annual presentation of the Eurimages Co-production Development Awards, for a maximum period of 3 years (2027-2029). This partnership agreement will be signed for 1 year with a tacit renewal for 2 additional years up to a maximum of 3 years and it will not include any financial compensation from Eurimages.

4. DESCRIPTION OF THE EURIMAGES CO-PRODUCTION DEVELOPMENT AWARD

The **Eurimages Co-production Development Award** (CPDA) was created to encourage international film co-production from the initial stages of a project for reasons other than simple co-financing. The CPDA takes the form of a **non-reimbursable subsidy of €20,000 for feature-length fiction, animation and documentary films, which must be used exclusively to cover the development expenses of the co-production project.**

The CPDA shall be awarded to a **film project at an early stage of development intended for international co-production, of a minimum duration of 70 minutes, and intended for cinema release.** The project must be **developed by one or more independent production companies from a Eurimages member**

State. The CPDA will be granted to the applicant, which must be an independent production company having creative control of the project and with the majority participation in the development financing.

Independent production companies must be majority owned and continue to be majority owned, either directly or indirectly, by nationals of the Eurimages member States. Legal entities which are not able to show the composition of their shareholding are not eligible. A production company is considered independent when less than 25% of its share capital is held by a single audiovisual media service provider or less than 50% where several audiovisual media service providers are involved. Independence and ownership are verified up to the third level above the applying company.

The applicant must have the intention of involving at least one other independent production company from a different Eurimages member State in the co-production.

One or more companies from one or more non-member States may also join the project up to a maximum total participation of 30% in development financing. Any project previously submitted to the Eurimages Co-production support programme will automatically be excluded.

A project which has previously been submitted to the Eurimages Co-production Support Programme will be automatically excluded.

One award will be granted in every co-production market. Special mentions are not foreseen. An agreement indicating the amount of the award and the conditions for its granting will be signed between the winner and Eurimages.

A production company is considered eligible if it is independent and majority owned and continues to be majority owned, either directly or indirectly, by nationals of the Eurimages member States. Legal entities which are not able to show the composition of their shareholding are not eligible. A production company is considered independent when less than 25% of its share capital is held by a single audiovisual media service provider or less than 50% where several audiovisual media service providers are involved. Independence and ownership are verified up to the third level above the applying company.

YYY will examine the eligibility of the projects and submit them to Eurimages for the confirmation of their eligibility. The final selection must include a minimum of 8 eligible projects. In the event of failure to comply with this requirement, Eurimages reserves the right to cancel the Award for the edition concerned.

This pre-selection must be made with due regard for gender balance.

The documents that will be made available to Eurimages to confirm the eligibility of projects in relation to the award will include:

- a development financing plan;

- a declaration by the applying producer that the company is independent according to the information indicated in a pre-established template provided by Eurimages;
