

UNITED LOTTERIES FOR
INTEGRITY IN SPORTS

Program Official

Integrity Seminar
Lausanne,
27-28.06.2023

The role of lotteries in
supporting the sport
movement on the
prevention of
competition
manipulation

OFFICIAL PROGRAM

ULIS Integrity Seminar

The role of lotteries in supporting the sport movement on the prevention of competition manipulation

with the support of the Olympic Movement Unit on the Prevention of the Manipulation of Competitions

Lotteries have always collaborated closely with the Olympic Movement, in relation to the development of sport, by financially supporting athletes, sport federations, National Olympic Committees (NOC) and even the Organizing Committee of the Olympic Games. In recent years, there has been great potential, for the fast-growing sports betting industry to increase the benefits of this collaboration, through new digital technology offers; however, this also requires serious measures to be implemented, regarding competition manipulation.

The event will focus on concrete case studies around the roles lotteries and National Olympic Committees can play when it comes to safeguarding the integrity of sports. Discussions will include the respective responsibilities and actions taken when facing suspicious instances of competition manipulation, how to interact with key stakeholders involved in the process of facilitating the investigations, and the possible conviction of guilty persons.

Tuesday 27 June 2023
