Context

The seminar “**New challenges and opportunities for innovative youth services. The role of the European Youth Card in promoting the rights of young people in post-Covid era**” is planned to take place in Athens, Greece, on 5-6 November 2020 with an aim to support the recognition of the potential of youth work services deployed on-line and the role of the European Youth Card in reaching out to young people.

The seminar is part of the Greek Chairmanship of the Committee of Ministers of the Council of Europe for the period of May – November 2020: <https://coegreekchairmanship2020.gov.gr/list-of-events-of-the-greek-chairmanship/?lang=en>

Greece, member of the Council of Europe since August 1949, has assumed its chairmanship in the emergency circumstances imposed by the Covid-19 pandemic. In this context, the Greek Chairmanship highlights the following thematic priorities:

- a) defining the implications of the pandemic on European societies, democracies and the economy at large,
- b) identifying lessons learned from the Covid-19 pandemic crisis, as well as best practices in response to the crisis.

(priorities of the Greek Chairmanship of the Committee of Ministers)

The Greek Chairmanship recognises that “Digital technologies, with the expanded opportunities they offer, help significantly to fill the gap created by the lack of physical presence in a series of life manifestations, while, at the same time, supporting the exercise of human rights.”

Youth features quite prominently within the priorities of the Greek Chairmanship with one of them entitled “Investing in the future - The rights of young people”.

The current seminar thus brings together several important aspects of the Greek Chairmanship’s priorities: response to the challenges posed by the pandemic, digital technologies as one of such responses, and young people and the promotion of their rights.

The Seminar is organised by the Council of Europe and its Partial Agreement on Youth Mobility in co-operation with the Greek authorities and the European Youth Card Association (EYCA).

About the organisers

The **Council of Europe** is the leading Pan-European international intergovernmental organisation standing for the defence of **human rights, democracy and the rule of law**. Its Youth Sector has been promoting inclusive, human-rights based youth policies and youth work¹. Over the past years, the Council of Europe has been working on challenges and opportunities that present the use of digital tools, including in its effort to effectively support youth workers².

The **Partial Agreement on Youth Mobility through the Youth Card** exists since 1991 and is a programme of the Council of Europe aimed at developing the youth card scheme, particularly at European level, in the best interests of young people with a view to facilitating their mobility as well as access to the various goods and services necessary for their personal and cultural development. The Partial Agreement implements its activities in co-operation with its statutory partner – EYCA.

The European Youth Card Association (EYCA) groups around 38 youth card organisations all over Europe. EYCA's vision is a Europe where all young people are mobile and active (socially, culturally, educationally and economically). EYCA's mission to reach this objective consists in delivering quality youth card services and in contributing to a better policy on youth mobility and active citizenship. Today, over six million youth cardholders benefit from youth card opportunities.

The Greek Ministry for Education and Religious Affairs is one of the oldest Ministries in the country, established in 1833, responsible for running the national education system and supervising religious affairs. Its General Secretariat for Youth was set up in 1982 as a governmental institution with the primary task of shaping, monitoring and coordinating the government policy for youth.

About the seminar

The proposed seminar aims to offer space for policymakers, practitioners, researchers, youth NGOs and EYCA organisations to debate the main challenges and opportunities in relation to youth work, youth services and young people's rights in the context of a public health crisis provoked by COVID-19. Guests will discuss policy development issues and share good practices, while analysing the impact of the pandemic on the European youth sector. We will explore the various ways in which digital tools and Artificial Intelligence (AI) can be used to provide quality services to young people and help to safeguard their rights.
