

Factsheet

Project Management Methodology (PMM)

ODGP Open Day 2020
Council of Europe

Key points

- Tailor-made Project Management Methodology - PMM - for Council of Europe's cooperation assistance activities since 2016;
- Making the Council of Europe a solid actor in cooperation and assistance, with a strong *acquis* and management methods;
- Emphasis on results and their sustainability;
- Based on the theory of change of the Organisation's Programme and Budget;
- Ensures compatibility with the results-logic of all major donors;
- Association with the broader development cooperation community and its standards;
- Embodies a Human Rights Approach, with gender mainstreaming, civil society co-operation, non-discrimination and a Council of Europe-specific, multi-institutional approach across projects;
- Highlights the contribution towards achieving the UN Sustainable Development Goals;
- Provides transparency on cooperation: live information on the Organisation's technical co-operation activities is available to the public on the website of ODGP;
- Supports more than 5 000 project activities in current contracts.

How ?

- Quality-track with Handbook, toolkits, website, guidance and training for staff;
 - 291 staff trained in 2019 (37 training events);
 - Training face-to-face and online; at HQ and in Field Offices;
 - Implementation-track with a dedicated IT tool - standardising business processes throughout all services and locations, including reporting to donors and beneficiaries;
 - PMM IT tool functional on mobile devices for project management autonomy;
-
