

PRESS RELEASE

14/10/2022

Large mobilisation across Europe and beyond to promote solidarity and fairness through education.

From 14 to 20 November practitioners and citizens from more than 40 countries will organise and attend thousands of activities with a common goal: raise awareness for a more sustainable and equitable World

The Global Education Week is a **world-wide awareness raising campaign** and a call to rethink our world together, using Global Education as a tool for solidarity and change.

Organised by the **North-South Centre of the Council of Europe**, the 2022 edition will take place **from 14 to 20 November**, throughout more than 40 countries in Europe and its Neighbourhood, where thousands of activities will be organised in order to stimulate dialogue and reflection and rethink our habits together in a more sustainable way.

All interested stakeholders are called to play an active role within the Global Education Week 2022: from associations, to teachers, educators, governments, NGOs and all citizens.

How? By joining a local initiative or organising a new event, keeping in mind that there are countless ways to promote Global Education, from movie screening, to concerts, photography exhibitions, quizzes, school debates, street-awareness actions and so on!
