## TOP 5 RECURRING DISINFORMATION NARRATIVES ABOUT COVID-19

- 1 US CREATED IT
- 2 EU FAILS TO RESPOND
- 3 THE CORONAVIRUS IS NOT SERIOUS
- 4 IT'S A SECRET PLAN OF THE GLOBAL ELITES
- 5 THE CORONAVIRUS WAS PROBABLY MADE BY NATO

## DISINFORMATION CASES ABOUT COVID-19

## COVID-19 – THE FIGHT FOR A CURE: ONE GIGANTIC WESTERN PHARMA RIP-OFF

## Nearly half of the population has read fake news about the Coronavirus

**TOPICS:** Coronavirus In Norway COVID-19 Fake News About The Coronavirus

Source: [Norwaytoday.info](https://www.norwaytoday.info)

# Disinformation pandemic?

## 500% increase in COVID related SPAM mails in March

These COVID related SPAM emails are further used to spread prevalent malware like Fareit, Trickbot and COVID ransomware.

## Sectors Targeted

The volume of threats related to Covid-19 has been significant, with lures used in all manner of attacks. Tracking these campaigns reveals the most targeted sector is healthcare, followed by finance, and then education.

## FAKE NEWS – A Bigger Killer Than The Virus Itself...

The screenshot shows the top of a news article from the Independent. The logo 'INDEPENDENT' is at the top left, with the tagline 'UK'S LARGEST QUALITY DIGITAL NEWS BRAND'. A navigation menu includes 'NEWS', 'CORONAVIRUS ADVICE', 'US POLITICS', 'VOICES', 'SPORT', 'CULTURE', 'INDY/LIFE', 'INDYBEST', 'INDY100', 'VOUCHERS', 'PREMIUM', and 'CLIMATE BLOGS'. The main headline is 'Coronavirus: Hundreds dead in Iran from drinking methanol amid fake reports it cures disease'. Below the headline is a sub-headline: 'As many as 480 people may have died from drinking the toxic substance following rumours that ingesting high-proof alcohol is a remedy for Covid-19'. The author is 'Bel Trew', Middle East Correspondent, with the handle '@beltrew'. The date and time are 'Friday 27 March 2020 14:19'. Social media sharing icons for Facebook, Twitter, and Email are visible at the bottom right.

The screenshot shows the top of a news article from MEMO. The logo 'MEMO' is at the top left. A navigation menu includes 'NEWS', 'OPINION', 'REVIEWS', 'FEATURES', 'PUBLICATIONS', 'MULTIMEDIA', and 'MORE'. The main headline is '600 people die in Iran from drinking neat alcohol to cure coronavirus'. The article content is partially obscured by a grey box on the left side.

- **After an initial spike, COVID-19 related domains registered per day are constantly decreasing**

(Source: DomainTools)

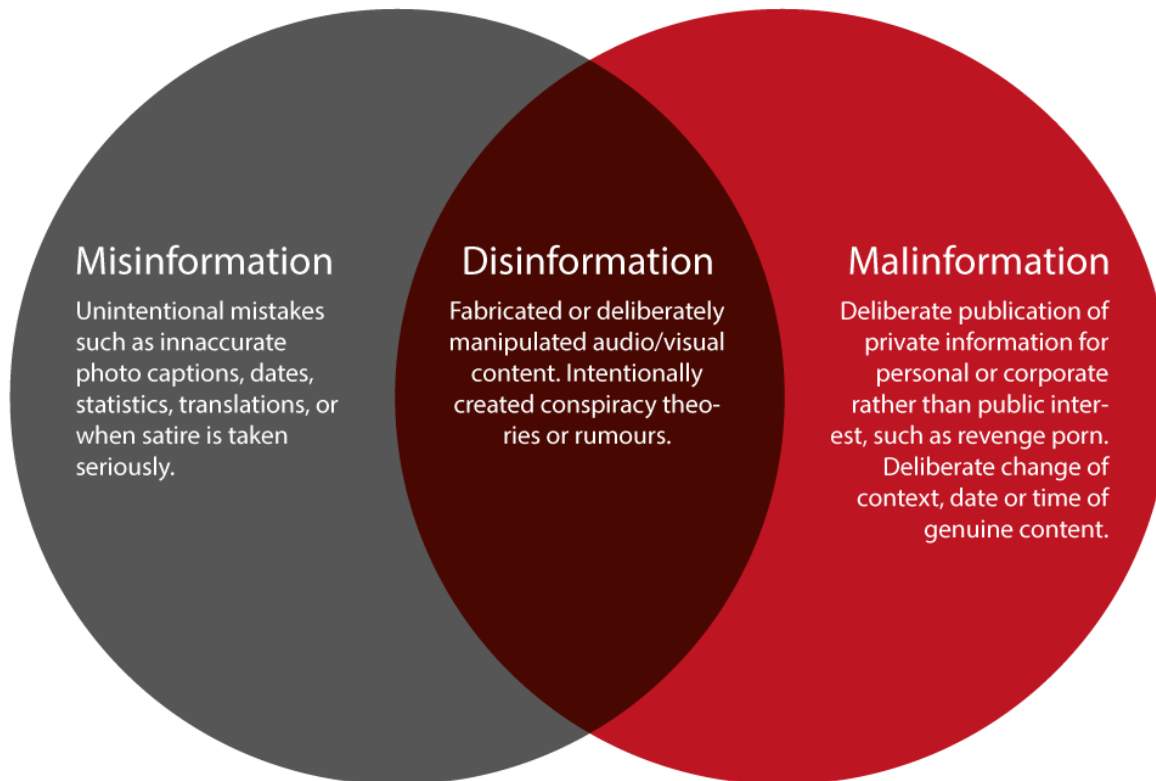

- **After an initial spike, COVID-19 related domains registered per day are constantly decreasing**
- **COVID-19 related spam also decreasing, but still high → Phishing and other social engineering frauds**

## TYPES OF INFORMATION DISORDER

FALSENESS

INTENT TO HARM

# Why is disinformation a problem

The right to free  
and fair elections

➤ **Incorrect information** may influence the way that individuals vote.

The right to  
non-discrimination

➤ **Disinformation is often targeting specific individuals** and their reputation.

The right to health

➤ **Disinformation sometimes focuses on particular groups in society**, especially refugees and migrants, or ethnic minorities; intentionally or involuntarily inciting violence, discrimination or hostility.

The right to freedom  
of expression

➤ **False information about health** and disease prevention can lead to serious risks for people.

➤ **Inappropriate, rash or too restrictive responses** to disinformation pose risks to freedom of expression and media freedom.

# What facilitates disinformation?

**Advances in technology** make it easy to create fake images and videos.

**New gatekeepers of information** - search and social media platforms - exert a strong influence on how individuals are informed and form their opinions.

**The shift of communication and information** to the internet has caused a shift of audiences away from the mainstream media to social media.

**Fewer media** manage public debate and influence public opinion, as the success of the platforms translated into a loss of ad revenue for the media.

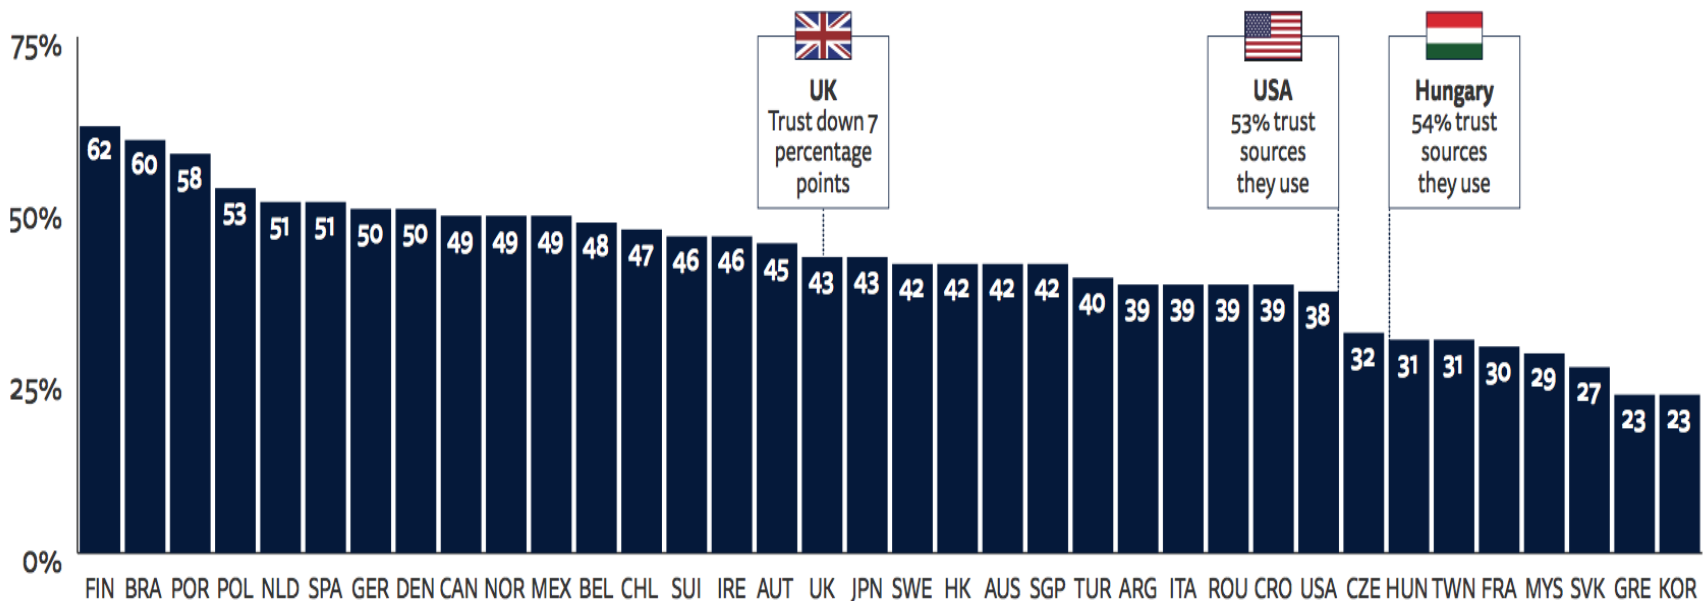

**Result: Decline of trust in information and media** as people consume both established and unreliable news sources without distinction, and become confused what is true and whom to believe.

## OVERALL TRUST IN NEWS MEDIA

ALL MARKETS

- ✓ Fragmentation of public media spaces
- ✓ Polarisation
- ✓ Ideologically laden echo-chambers

Q6\_2016\_1/6. Please indicate your level of agreement with the following statements. - I think you can trust most news most of the time/I think I can trust most of the news I consume most of the time Base: Total sample in each market.

## WORRY ABOUT QUALITY INFORMATION

Percent who agree

The media I use are **contaminated**  
with **untrustworthy information**

⊥  
**57%**

I worry about false information or **fake**  
**news being used as a weapon**

⊥  
**76%**

**+6**  
**pts**  
Change,  
2018 to 2020

## PROPORTION THAT OFTEN OR SOMETIMES ACTIVELY AVOIDS THE NEWS

All markets

News avoidance is highest in Croatia (56%), Turkey (55%), and Greece (54%)

## NO INSTITUTION SEEN AS BOTH COMPETENT AND ETHICAL

(Competence score, net ethical score)

December 2018

#EUvsDisinfo

## ACTION PLAN AGAINST DISINFORMATION

### UNDERSTANDING THE THREAT AND STEPPING UP EUROPEAN RESPONSE

Disinformation is an evolving challenge, with high potential to negatively influence democratic processes and societal debates. Its increasingly adverse effects on society across the European Union call for a coordinated, joint and sustainable approach to comprehensively counter it.

**83%** OF EUROPEANS THINK FAKE NEWS IS A THREAT TO DEMOCRACY \*

**73%** OF INTERNET USERS ARE CONCERNED ABOUT DISINFORMATION ONLINE IN THE PRE-ELECTION PERIOD \*

## WEAPONS OF MASS DISTRACTION

Most disinformation is created, launched and spread with either political or economic objectives by:

- ✓ A range of antidemocratic movements
- ✓ Partisan political actors
- ✓ Powerful economic forces
- ✓ Foreign states can benefit from deploying disinformation campaigns
- ✓ Various individuals using online infrastructure to earn money

## STATES

- **Often entrust the important task** of deliberating “what is true and what false”, together with the liability, to search and social media platforms
- **Some states have enacted legislation** for specific cases of disinformation

## PLATFORMS

- **Routinely remove or block content** without explaining why, based on “community standards” rules
- **There is no independent oversight** of their takedown practices

# Who should act?

Which of the following institutions and media actors should act to stop the spread of “fake news” ?

Eurobarometer 2018

Study: [Automated tackling of disinformation](#)

EPRS | European Parliamentary Research Service

# The human rights approach

**Empowerment of quality journalism**

- **Recommendation on promoting a favourable environment** for quality journalism in the digital age

**Empowerment of media and information literacy skills**

- **Study on supporting quality journalism** through media and information literacy

**Ensuring compliance of online platforms**

- **Recommendation CM/Rec(2018)2** on the roles and responsibilities of internet intermediaries

**Awareness of artificial intelligence systems manipulative capabilities**

- **Declaration on the manipulative capabilities** of algorithmic processes
- **Recommendation CM/Rec(2020)1** on the human rights impacts of algorithmic systems

**Serious impact of disinformation** on individuals' right to health is a real threat.

**Exceptional circumstances justify exceptional measures** including some restrictions on freedom of expression.

**Malicious spreading of disinformation** may be tackled with ex-post targeted sanctions.

**Media play a key role in this crisis** and also has an increased responsibility to provide accurate, reliable information to the public.

**Some governments are using the crisis** as a pretext to introduce disproportionate restrictions to media freedom.

## How people consume COVID-19 news:

- ✓ **People consume more news** than usually, with a staggering 99% accessing COVID-19 news at least once a day.
- ✓ **People use more traditional media**, especially public broadcasters, to get their COVID-19 news.
- ✓ **Official sources are not only used but also trusted**, while the social media have taken a back seat.
- ✓ **Disinformation and confusion about COVID-19 are present** but people are more aware and some check other sources.

# More regulation is needed

Image: The Economist

Mark Zuckerberg said he believed **new regulation was needed in four areas:**

- **Harmful content**
- **Election integrity**
- **Privacy**
- **Data portability**

([The Guardian](#),  
30 March 2019)
