Venue of the Forum

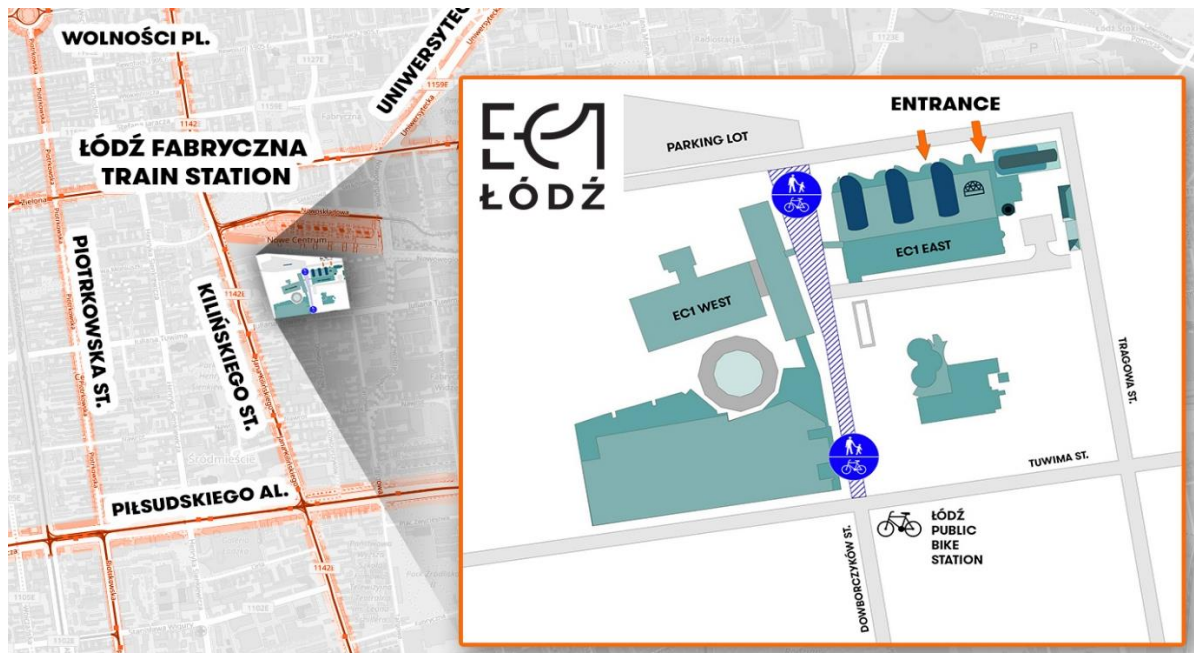

The Annual Advisory Forum 2023 will take place at the EC1 – ulica Targowa 1/3, Łódź

In the revitalised buildings of the former EC1 Łódź (Heat and Power Plant no. 1), there is a unique cultural centre, a place for meetings and a wise way of spending free time. EC1 houses also the most modern planetarium in Poland and the Centre for Science and Technology – the largest centre of this kind in the country. In October 2023, it is planned to open the Centre for Comics and Interactive Narration. It hosts also the main office of the Łódź Film Commission and the National Centre of Film Culture, which will be opened to visitors in 2023.

The history of EC1 began in 1906. The construction was completed in the summer of 1907. EC1 ceased its operations in 2000 and was handed over to the city in 2003. The next milestone in the history of the complex was its revitalisation, which started in 2008.

The Machine Hall, serving as a main venue of the Forum, built in the Art Nouveau style, dates back to that era. Despite the fact that it was twice remodelled, it has retained its original style.

Meals

During the Forum, coffee breaks, two lunches and three dinners will be provided to all participants.

Languages

Simultaneous interpretation of the Forum sessions into English, French and Polish will be provided.

Health

In the event of emergency health issues, first medical aid and an ambulance will be assured for the Forum participants. All potential costs arising from a medical treatment, however, will have to be covered by the participants themselves. International medical insurance covering major medical expenses should be purchased prior to arriving to Poland. We encourage the EU citizens to provide for their European Health Insurance Cards.

Emergency Numbers

General emergency number: 112
Police: 997
Fire Department: 998
Emergency Medical Services: 999
