People's Militia of the DPR

⭐🕘⭐**Emergency statement of the official representative of the NM DPR**

‼️Emergency message!
🔻In the Gorlovsky direction, the servicemen of the NM DPR prevented an attempt by an enemy sabotage group to penetrate the territory of the Donetsk People's Republic.
❗ Along the forest belt near the settlement ZELEZNAYA BEAM our observers revealed the movement of two special purpose groups of VFU in the amount of 10 and 12 people. Our defenders were forced to open fire from on-duty weapons. The enemy suffered losses of at least TWO militants killed, THREE wounded and was forced to retreat.
⚠️According to our reconnaissance, the saboteurs planned to blow up a container with chlorine in the territory of a sewage treatment plant near the city of Gorlovka.
🔻At the site of the clash, foreign-made personal protective equipment and ammunition, as well as an action camera mounted on a bulletproof vest, were found. Apparently, with the help of it, the militants planned to provide their leadership with confirmation of the completion of the task.
♦️As evidence of the criminal intentions of the Ukrainian side, we present footage from this camera to your attention.
♦️Shortly before the clash, we intercepted the conversations of saboteurs in Polish. We have previously reported on the participation of Polish mercenaries on the side of Ukrainian militants.
❗ In addition, according to information received from the Ministry of State Security of the DPR today, at about 4.00 in the morning in the city of Gorlovka, a group of Ukrainian saboteurs attempted to blow up an ammonia storage tank at the Stirol plant. During the attack, a security guard of the enterprise, who discovered a group of saboteurs, was wounded. He received medical assistance, there is no threat to life.
🔷Special services are working at the scene.
♦️We appeal to the world community and representatives of international organizations, asking them to give a critical assessment of the criminal actions of the Ukrainian side.
♦️The armed formations of Ukraine are purposefully trying to sow fear and panic among the civilian population of the Republic and for this purpose they choose vital civilian objects for strikes.
❗ Just in the morning, the Armed Forces of Ukraine carried out attacks on the oil depot in the area of the settlement. ELENOVKA, to the sewage treatment plant and the Stirol plant in Gorlovka, and also put out of action TWO transformer substations.
‼️The above facts are direct confirmation of the preparation of the Ukrainian side to unleash hostilities.

No, it's the indeed pregnant 🇺🇦beauty blogger Marianna Podgurskaya. She actually played roles of both pregnant women on the photos. And first photos were actually taken by famous propagandist photographer Evgeniy Maloletka, rather than rescuers and witnesses as one would expect.

All the world's media are replicating staged footage of the Ukrainian psyop unit from Bucha, First, we see one of the corpses raising his hand, and then in the rearview mirror, we watch another corpse get up, immediately after playing the part.

Global affairs Canada is fooled by 🇺🇦 staged video showing faked dead bodies in the town of Bucha near Kiev. Slowed down version clearly shows a "corpse" moves his hand and then sits up after the car passes by (seen in the rear mirror).
