

DEATH IS NOT JUSTICE

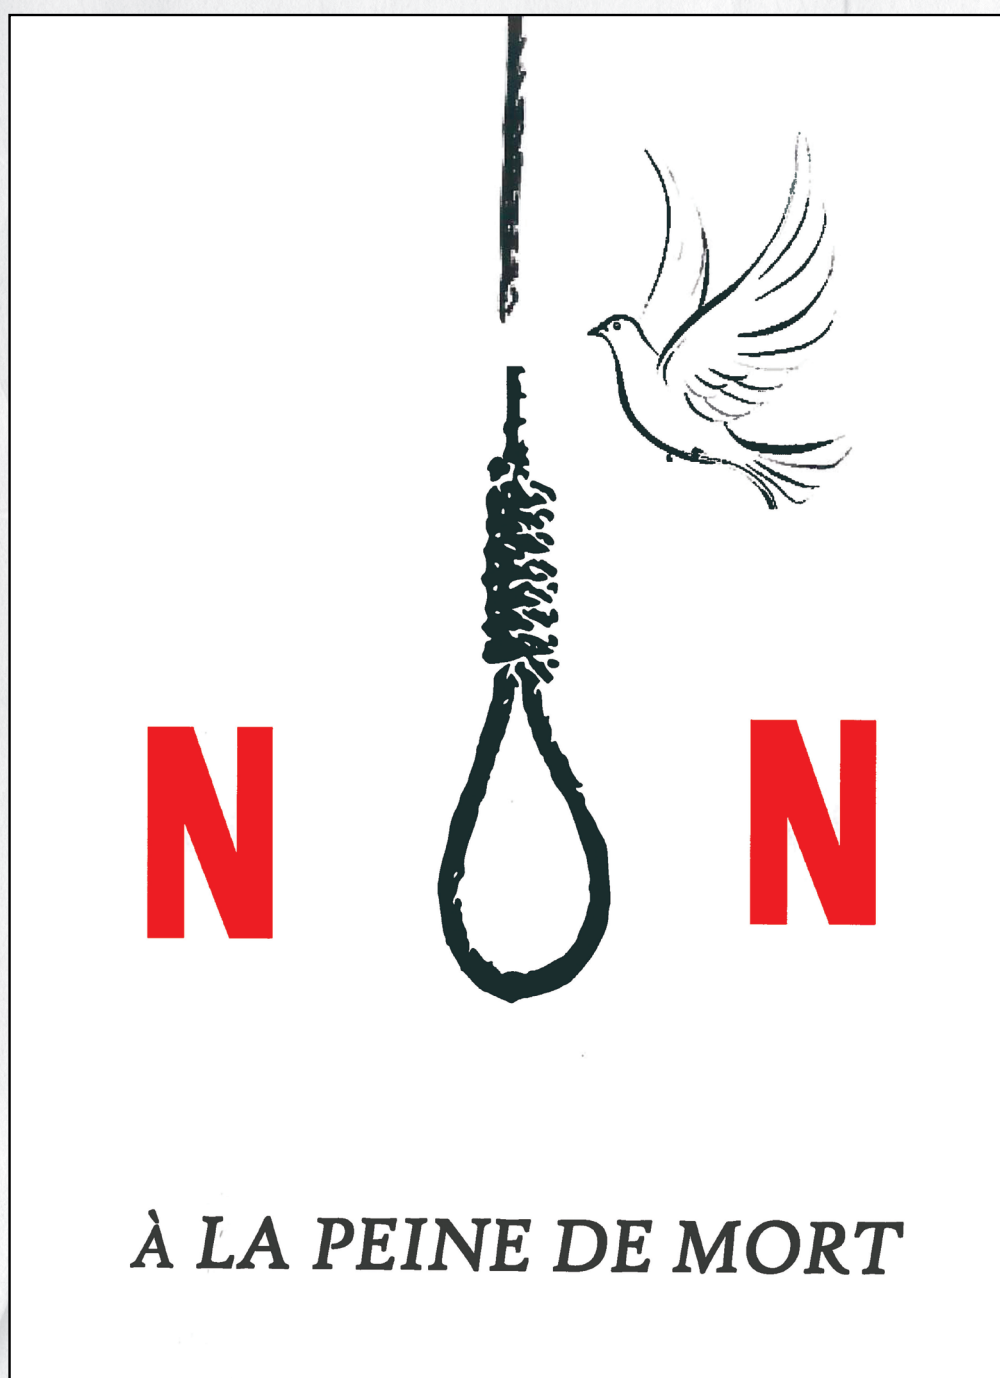

3RD EDITION OF THE WORKSHOP

"ADVOCACY AND AWARENESS-RAISING FOR THE ABOLITION OF THE DEATH PENALTY"

3-6 JUNE 2025

EUROPEAN YOUTH CENTRE

30 RUE PIERRE DE COUBERTIN, STRASBOURG, FRANCE

THE ORGANISERS

The rejection of the death penalty is one of the Council of Europe's founding principles: it is legally abolished in almost all member states, and no death penalty has been carried out in the geographical sphere of the Organisation for more than twenty years.

The abolition of capital punishment is a universal trend. Unfortunately, in May 2025, 85 countries still practice it or uphold it in their legal texts¹.

No right, no democratic advance is ever acquired for ever. Human rights are the result of centuries of struggle by women and men for dignity. Their universality and respect depend on the capacity of each generation to appropriate and develop them. The death penalty is an attack on human dignity and justice. Its existence constitutes a serious attack on a universal culture of human rights everywhere. The resurgence of a pro-death penalty discourse is disturbing and must be fought.

It is with the aim of **creating a network of young ambassadors**, who will continue the fight towards abolition throughout the world, that the Council of Europe, Together against the death penalty and the German Coalition for the abolition of the death penalty, with the support of the Permanent Representation of France to the Council of Europe, are organising the third edition of this training/meeting, based on an idea from the French Ministry of Europe and Foreign Affairs. This training event is thus intended to be repeated and to gradually expand in terms of both the number of participants and their geographical origin.

THE COUNCIL OF EUROPE

The Council of Europe and its 46 member states have been creating a death penalty-free zone for almost a quarter of a century, with the last execution on its territory taking place in 1997.

In the early 1980s, the Council of Europe became a pioneer in the abolition of capital punishment, considering it to be a serious violation of human rights. The organisation's Parliamentary Assembly has gradually persuaded governments to help Europe become the first region in the world to ban the death penalty once and for all. A ban on the death penalty has also been a precondition for accession since the 1990s.

In 1983, the Council of Europe adopted the first legally binding instrument providing for the unconditional abolition of the death penalty in peacetime: Protocol No. 6 to the European Convention on Human Rights (ECHR). This text has now been ratified by all 46 Member States.

In 2002, the Council of Europe adopted Protocol No. 13 to the ECHR concerning the abolition of the death penalty in all circumstances, i.e. also in times of war or imminent threat of war. Reservations and derogations from the Protocol are not possible. The Protocol entered into force on 1 July 2003. To date, it has been signed and ratified by 45 Member States.

ECPM (TOGETHER AGAINST THE DEATH PENALTY)

ECPM (a non-governmental organisation established in France since 2000) works to combat the death penalty worldwide. The association promotes the universal abolition of the death penalty through advocacy programmes with public authorities, the strengthening of abolitionist civil society, the creation and dissemination of publications, and support for death row inmates and their families.

ECPM (www.ecpm.org) brings together abolitionists in order to increase their effectiveness and accelerate the movement towards universal abolition of the death penalty. The association is at the origin of the World Congresses against the death penalty, which it organises every three years (Strasbourg 2001, Montreal 2004, Paris 2007, Geneva 2010, Madrid in 2013, Oslo in 2016, Brussels in 2019 and Berlin in 2022) in the presence of several thousand abolitionists from all over the world (civil society, politicians, lawyers, journalists, artists, students, etc.).

ECPM develops programmes to support the strengthening of local partners in many non-abolitionist countries, mainly in the regions of: North Africa, Central Africa, Southeast Asia.

THE GERMAN COALITION TO ABOLISH THE DEATH PENALTY

The Initiative gegen die Todesstrafe e.V. (German Coalition to Abolish the Death Penalty) has been campaigning for the universal abolition of the death penalty since 1997.

The German Coalition is guided by the 1948 Universal Declaration of Human Rights, the International Covenant on Civil and Political Rights and its additional protocols, and other human rights conventions.

The German Coalition believes that the death penalty is a horrific form of punishment that violates human dignity. The members of the German Coalition respect the condemned person as a person without accepting his or her crime.

GCADP's work focuses on detailed educational work, non-partisan political engagement and support for prisoners.

All the organisers place young people at the heart of their action, because they are essential actors of change for themselves and bearers of evolution for society. Through an inclusive and participatory approach, offering spaces for engagement, ECPM aims to enrich their knowledge on human rights and values related to global citizenship, so that they are better able to develop autonomous thinking and to mobilise themselves on these subjects, as active citizens guaranteeing the fundamental rights!

In a Somali prison, it is Farah's last day. The young man is sentenced to death. He is escorted by an experienced policewoman. Although they go through the procedures of the justice system with the utmost calm, we can read the emotions on their faces. He was coerced into confessing to crimes he did not commit, including alleged participation in an armed protest. External event organisers can also request to hold meetings, seminars or training courses in the Centre's facilities, which include onsite accommodation and catering services.

These facilities can be used for the activities of any external organisation, association, institution, structure or youth network which respects and defends the Council of Europe's values.

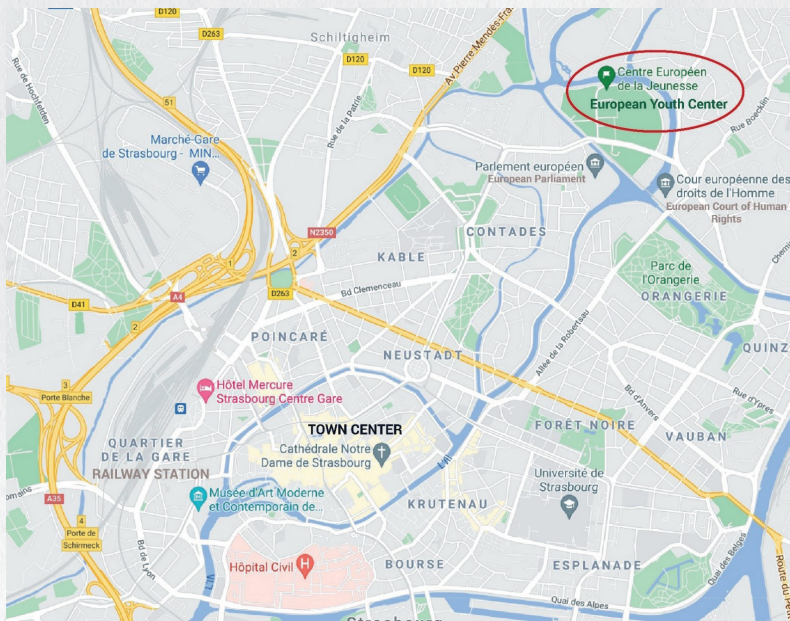

HOW TO GET TO THE EUROPEAN YOUTH CENTRE

CTS is Strasbourg's public transport company. Maps and a trip planner for getting around Strasbourg can be found on its website: <https://www.cts-strasbourg.eu/en/>

For the EYCS, get off at the stop called **Parlement Européen**.

Tickets can be bought from the ticket machines at tram stops, on the internet or via the CTS mobile application. Once validated, the ticket allows you to make as many connections as you like on the Strasbourg public transport network during 1 hour. Each time you change buses or trams, you need to validate your ticket again.

Be warned: it will be more expensive to buy your bus ticket on board a bus rather than before your journey.

From Strasbourg railway station: 16 minutes

A new route has opened: Bus H provides a rapid transit connection between Strasbourg railway station and the European Parliament. It only serves 10 stops and runs every 10 minutes during the day.

From Strasbourg Airport, Entzheim:

55 minutes

Take the TER Alsace rail shuttle (TER means Regional Express Train) from the station right next to the airport.

The Tram+TER ticket allows you to travel to and from the airport and the CUS (Strasbourg Urban Community). This combined Tram-Bus-Train ticket can be used for 1.5 hours after validation.

By taxi: 15 minutes from city centre

In town, you can get a taxi at the Railway Station or near the Homme de Fer tram stop. A taxi from Strasbourg city centre to the EYCS will cost 15-25 euros.

The organisers will only pay for public transport, which is essential for the workshop to run smoothly (i.e. one bus or tram ticket from the station/airport to the EYC and one bus or tram ticket from the EYC to the station/airport).
