Concluding Remarks

- ✓ Request for entering data from previous workshop and 3 extra features is not really reached for all countries
- ✓ On the other hand, we do notice an overall progress in getting to know the system, but still many gaps
- ✓ The use of the reporting tool has clearly enhanced the data quality
- ✓ Some delay in data delivery on the CDR
- ✓ Need to identify a responsible person with eionet account and with uploading rights for this folder
- ✓ Please contact EEA (Mette) if a person needs to get an eionet account
- ✓ Do not forget the “General Report” for final delivery
- ✓ ...

Thanks for your attention !
