Joint EU-Council of Europe project “Implementing the Barnahus Model in Croatia” 23HR02

The project is co-funded by the European Union via the Technical Support Instrument, and co-funded and implemented by the Council of Europe, in cooperation with the European Commission, the Reform and Investment Task Force (SG REFORM).

Context

The European Union-Council of Europe Joint Project “[Implementing the Barnahus Model in Croatia](#)” aims to improve the access and quality of the justice system for child victims of violence in Croatia, to ensure that undue delays in the treatment of such cases is diminished, and that all children who are victims of sexual violence benefit from a child-friendly access to justice.

Building on the work already carried out by Croatia, the project aims to support the Croatian authorities in its first steps towards the establishment of a Barnahus in the country. The Barnahus Model is a child-friendly response model for the coordination of criminal and child welfare investigations of child abuse cases and providing support services for child victims and their families under one roof. The Barnahus model was recognised as a promising practice by the Committee of the Parties to the Council of Europe Convention on the Protection of Children against Sexual Exploitation and Sexual Abuse (Lanzarote Committee) in 2015. The model has been replicated in Finland, Ireland, Norway, Slovenia, Spain and Sweden.

The project is co-funded by the European Union and the Council of Europe and is implemented by the Council of Europe's Children's Rights Division in close co-operation with the Croatian Ministry of Justice, Public Administration and Digital Transformation and the European Commission, the Reform and Investment Task Force (SG REFORM) from 1 September 2023 and recently extended to 30 June 2026.

The project is divided into three components, leading to the following outcomes:

1. Legal, policy and institutional framework is established for the sustainable operation of Barnahus model in Croatia
2. Enhanced knowledge and capacities of professionals working with and for children to respond to child sexual abuse
3. Awareness of professionals and the wider public on the situation of child sexual abuse in Croatia is enhanced

State of play of the Project

Following the inception phase from September to December 2023 and the [launch conference](#) on 30 January 2024, the project entered into a more analytical phase with the preparation and presentation of two assessment reports at a first [Roundtable](#) on 8 October 2024 :

- An analysis of the legislative, policy and institutional framework regarding protection of children and procedures for cases on violence against children, including sexual violence in Croatia (in [Croatian](#) and in [English](#)) with a Mapping and desk research review of the international standards and principles as well as the existing Croatian legislation relevant for professionals handling cases of children victims of sexual violence and abuse ([Full version in Croatian](#) / [Summary in English](#))
- a training gap analysis for professionals working with and for child victims of sexual abuse and exploitation (in [Croatian](#) and in [English](#)).

In addition, a [study visit](#) was organised on 5 and 6 November 2024 in Helsinki with the support of the Finnish authorities to exchange information with Croatian professionals working with and for children (all of them were members of the Advisory Group. The visit provided an opportunity to learn about the challenges and opportunities encountered in the implementation of the Barnahus model in Finland and to strengthen international relations between Council of Europe member states. A lessons-learned report was prepared by the Croatian participants under the supervision of the Ministry of Justice, Public Administration and Digital Transformation.

Following the above-mentioned activities and deliverables, three strategic documents were developed by national and international experts and presented at a second [Roundtable](#) on 27 May 2025 :

- A Roadmap including a Cost Structure Analysis for the implementation of the Barnahus Model in Croatia by Liisa Järvillehto and Tom Pakkanen (in [English](#) and [Croatian](#))
- A Report on procedures and protocols supporting an inter-agency agreement between ministries and other stakeholders which includes a Memorandum of Understanding on implementing the Barnahus model in Croatia by Ivana Celio Cega (in [English](#) and [Croatian](#))
- A Survey on perceptions of child sexual abuse in Croatia by IPSOS d.o.o.(in [English](#) and [Croatian](#))

The component of the project on capacity building and training of trainers has started in summer 2025 with the translation into Croatian of the new HELP course on the protection of children against sexual exploitation and abuse that was unveiled during the 44th [plenary meeting](#) of the Committee of the Parties to the Council of Europe [Convention on the Protection of Children against Sexual Exploitation and Sexual Abuse](#) (Lanzarote Committee). This new training course aims to enhance the knowledge and skills of legal, justice and other non-legal professionals to enable them to detect, respond to, and prevent child sexual abuse in a way that is child-friendly, gender-sensitive, and rights-based. It also seeks to promote better coordination across sectors involved in child protection — ensuring that legal, medical, and social responses are aligned and mutually reinforcing. Furthermore, it encourages the consistent and effective application of national and international standards, in particular those set out in the Lanzarote Convention, across all relevant institutions in Croatia. Finally, it fosters a professional culture that recognises children not as passive recipients of protection, but as rights-holders whose voices and best interests must be at the heart of every decision and intervention

A first group of 22 professionals already completed the tutored course which was launched on 8 October 2025. They will receive their certification and will be invited to share their experience and feedback with the second group of professionals who will undertake the second tutored course launched at today's event.

The joint EC/CoE project on implementing the Barnahus model in Croatia supported the translation but also the adaptation of the HELP course to the national context for professionals working for and with children.

During the meeting:

- **All microphones should be turned off during the event.** The microphone could be turned on only when you want to address a question/comment. Please remember to mute your microphone when you have finished speaking.
- **Simultaneous interpretation in Croatian and English will be provided** during the event.
- **Technical problems:** In case of any technical issues during the event, participants should inform the organisers through the chat option and the project staff will try to fix them.
