See you soon party!

### **Monday, 10 October**

#### DEPARTURES

## Background of Enter! long -term training course for youth workers

The 4<sup>th</sup> edition of the Enter! Long-term training for Youth Workers was launched in August 2021 with 33 participants from 23 countries. The participants are devising projects which put in practice the Enter! Recommendation and Youth Work Recommendation and innovate youth work activities with young people from disadvantaged neighbourhoods.

The [initial seminar of the Enter!](#) European level youth worker training was held from 6 to 13 September in Budapest, with an aim to contribute to the quality, access and diversity of youth work and its social and political role in addressing violence, discrimination and exclusion faced by young people in disadvantaged neighbourhoods.

As a result of the initial training 33 youth work projects were designed by participants from 22 different states. The projects use youth work to improve the access to social rights of young people in disadvantaged neighbourhoods focusing on access to education, employment, promoting social inclusion, engaging young people in the social dialogue and local policy making.

The second training seminar for the participants is planned for 1-9 October 2022 in the European Youth Centre Strasbourg. The closing phase of the projects is planned for the period of October-December 2022. An evaluation meeting will be held in December.

### Aim:

The second residential seminar of LTTC ENTER! aims to consolidate the learning process of the participants as youth workers supporting access to social rights for young people from disadvantaged neighbourhoods.

### Objectives:

- To collect and evaluate participants' projects and any other activities in the practice phase according to quality criteria and to identify the impact of the implemented projects;
- to review learning elements proposed in the practice phase of the ENTER! project, such as e-learning, self-assessment, peer learning and mentoring;
- to close and evaluate the LTTC and define lessons learned for the further work in youth work and local youth policies promoting ENTER! Recommendations and the European Youth work Agenda;
- to ensure space for networking and development of the identity of youth workers aiming to initiate a community of ENTER! youth workers;
- to support participants in making their work on access to social rights for young people in disadvantaged neighbourhoods sustainable;
- to further develop participants' competences in youth work with young people from disadvantaged neighbourhoods, inter alia in youth participation, project management, social rights and youth policy.
