1.GRETA considers that the Montenegrin authorities should strengthen the

systematic provision of oral and written information to presumed and formally

identified victims of trafficking, in a

language they can understand, regarding

their rights, the services available and how

to access them, as well as the implications

of being identified as a victim of

trafficking. Law enforcement officers and

members of the identification team should

be trained and instructed on how to properly explain to victims of THB their

rights, taking into account victims'

cognitive skills and psychological state.

Similarly, staff working at asylum

reception centres and detention centres

should be trained and instructed on how to

provide information, in a proactive manner, to persons and groups at risk of being

trafficked.

#### -Ministry of the Interior:

• Police Directorate:

The work and handling of cases with elements of human trafficking have particular specificities when it comes to working with victims of human trafficking or persons who are in the status of potential victims of human trafficking. In any situation where such a person is staying in official premises or in other locations, the police officer informs them of their rights in terms of provision of services and all protection measures, with special emphasis on children as a particularly vulnerable category. An interpreter is also hired if there is a need for it, and an employee of the Center for Social Work, and his/her hiring is mandatory in situations where a child is a victim.

- Directorate for Administrative Affairs, Citizenship and Foreigners:

The Law on International and Temporary Protection of Foreigners, which came into force in January 2018, fully implements international and European standards in this area.

Although victims are often not aware of their rights and opportunities to obtain help and protection, which, along with several other circumstances, significantly complicates the process of their identification, a multilingual material on rights and available services and assistance services for victims of human trafficking has been created, which is available to foreigners who seek international protection in Montenegro, in the Reception Directorate, Reception Centers (responsible for the reception and accommodation of foreigners for international protection) and in the Asylum Directorate (responsible for the procedure for obtaining international protection in Montenegro). It has been translated into English and Arabic and distributed to foreigners seeking international protection raised the level of awareness in order to eliminate the possibility of becoming victims of some form of the criminal offense of human trafficking, and if persons are recognized (identified) as victims, they are provided with information on how and who they can turn to for help, as well as what forms of help are provided to them in those situations in Montenegro.

The existing Information for foreigners seeking international protection in Montenegro has been supplemented with useful information on the fight against human trafficking. It was translated into 9 languages and printed. In addition, adapted material designed to raise awareness about human trafficking was created and distributed to children foreigners seeking international protection. The material has been translated into English, French and Arabic.

With the aim of preventive action and detection of victims of human trafficking, through interviews conducted with foreigners seeking international protection, immediately after reception and during their stay at reception (accommodation), and guided by indicators, professionals (psychologist, social worker, medical worker and the educator), pay special attention to the identification of potential victims of human trafficking, so that appropriate procedures can be implemented in order to help victims of human trafficking. Workshops on the prevention of human trafficking were organized as part of occupational therapy for foreigners at reception, which were organized with the support of NGOs and international organizations.

Employees of the Directorate for Reception of Foreigners Seeking International Protection (the Reception Center) attended training aimed at improving knowledge and skills in recognizing human trafficking, and proactively providing information to persons and groups at risk.

The Ministry of the Interior, with the support of UNHCR, produced leaflets focused on the prevention of the criminal offense of human trafficking, which were translated into Ukrainian in the context of the influx of persons from Ukraine to Montenegro, who apply for temporary protection. In addition to the leaflet with general content, intended for the prevention of human trafficking, a special leaflet was designed and produced, with an emphasis on the prevention of human trafficking, whose victims can be children, which was also translated into Ukrainian. The mentioned leaflets were distributed in a timely manner to the Regional Units and Branches for Administrative Affairs, Citizenship and Foreigners within the Directorate for Administrative Affairs, Citizenship and Foreigners, which receive requests for the approval of temporary protection for persons from Ukraine, to the Border Police Sector , with the aim of distribution at all border crossing points where the entry is registered of persons from Ukraine seeking temporary

Information is available in Ukrainian, English and local languages. Information about this phone number, through which users can also speak with an operator in Ukrainian, in addition to other information about the SOS line for victims of human trafficking, help and support services, is also available on the leaftet that was created in cooperation with the International Organization for Migration-IOM and which was distributed in March 2023 to regional units and branches of the Ministry of the Interior, as well as to the Border Police and the Red Cross of Montenegro, who come into contact with persons from Ukraine.</li> </ul>
2. GRETA also considers that the Montenegrin authorities should take additional steps to ensure the availability of interpreters for different languages spoken by asylum seekers, as well as their independence and sensitisation to the issue of human trafficking	<ul> <li>Ministry of the Interior:         <ul> <li>Directorate for Administrative Affairs, Citizenship and Foreigners</li> <li>An interpreter, in accordance with the law, may be a person who, in addition to knowledge of the Montenegrin language, i.e. English or French, knows the language in which he/she is translating, has not been sentenced to a suspended prison sentence or is not subject to criminal proceedings in Montenegro. 	interpret truthfully, accurately and impartially. The interpreter is obliged to keep as confidential the data he/she learns about during the procedure for granting international protection. If, for objective reasons, it is not possible to provide an interpreter for a specific language, the Ministry may request the assistance of another country. Hiring of interpreters is carried out in accordance with the law governing public procurement. Interpretation in the procedure for granting international protection , may be provided through telecommunication or audiovisual electronic devices. Also, in February 2018, the "Protocol on the use of joint interpretation pool in the field of migration and asylum" was concluded within the framework of the Regional Initiative for Asylum, Migration and Refugees (MARRI). The protocol provides a legal basis for the establishment of a group of extra-regional interpreters, as well as for the provision of the "remote interpreting" service. In accordance with the above, the availability of interpreters for the different languages used by asylum seekers, as well as their independence, as well as sensitivity to issues of human trafficking, is ensured. <b>- Ministry of Justice:</b> In October 2022, the Ministry of Justice issued a public call for the appointment of interpreters (www.gov.me). After the procedures for the aforementioned call are completed, the register of interpreters will be updated.
<ul> <li>3. GRETA urges the Montenegrin authorities to take further steps to facilitate and guarantee access to justice for victims of THB, in particular by ensuring that: <ul> <li>a lawyer is appointed as soon as there are reasonable grounds for believing that a person is a victim of human trafficking, before the persons concerned have to decide whether or not they want to cooperate with the authorities and/or make an official statement;</li> </ul></li></ul>	<ul> <li>- Prosecutor's Office:</li> <li>The State Prosecutor's Office, within the framework of its competence, and in accordance with the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, supplementing the United Nations Convention against Transnational Organized Crime, assigns to persons injured by the criminal offense of human trafficking a lawyer - attorney in order to protect their interests in the proceedings.</li> <li>- Court:</li> <li>The analysis of data from court practice shows that no victim of human trafficking has exercised the right to free legal aid since the Law on Free Legal Aid came into force, which is a worrying practice;</li> </ul>

	in accordance with them. When the amendments are adopted, the Program will be updated in accordance with the amended criminal legislation. When it comes to the GRETA recommendations, the Program was updated by introducing a topic related to the use of information and communication technologies as investigative techniques in cases of human trafficking. We underline that the Center is responsible for conducting trainings for judges and state prosecutors and that it has established cooperation with the Bar Association. When it comes to training for lawyers, which are proposed by the recommendation, the Center can, at the initiative of the Bar Association, provide support in the sense of helping to create the Training Program for lawyers and providing expert support in the implementation of the program. Namely, the Center has trained lecturers from the ranks of judges and state prosecutors who can also be engaged in training for lawyers.
	In the part of the recommendation that refers to the lawyer training program, it is envisaged in the Action Plan for the Implementation of the Strategy for Combating Trafficking in Human Beings for the period 2019-2024, for the year 2023. A joint meeting of the Ministry of Justice, the Bar Association and the Center for Training in the Judiciary and the State Prosecutor's Office is scheduled for June 5, 2023, where the training of lawyers will be discussed.
4. GRETA considers that the Montenegrin authorities should take further steps to ensure that victims of THB are provided with psychological assistance to help them overcome the trauma they have been through, and to achieve a sustained recovery and social inclusion	-Ministry of Labour and Social Welfare: The Law on Social and Child Protection recognizes counseling-therapeutic and social-educational services that include: counseling, therapy, mediation, SOS telephone line and other services with the aim of overcoming crisis situations and improving family relations. In the Centers for Social Work, multidisciplinary teams were formed, consisting of experts from the fields of social and child protection, health care, justice, police protection, protection of human rights and freedoms, as well as representatives of the NGO sector. The multidisciplinary team determines the plan and coordinates the activities in the process of helping the victim, in accordance with their needs and choice. In this regard, in the Centers for Social Work, professionals provide

psychological, pedagogical, social and legal assistance to the victims.

5. GRETA welcomes that temporary residence permit for humanitarian reasons allows access to the labour market, and considers that the Montenegrin authorities should further strengthen effective access to, and/or reintegration of, the labour market for victims of THB and their economic and social inclusion through the provision of vocational training and job placement, raising awareness amongst employers, and the promotion of micro- businesses, social enterprises and public- private partnerships, including through state supported employment programmes, with a view to creating appropriate work opportunities for victims of trafficking	<ul> <li>Ministry of Labour and Social Welfare:</li> <li>Montenegro, through Article 5 paragraph 5 of the Law on Employment Mediation and Rights During Unemployment, provided access to the labor market for foreigners who are victims of human trafficking.</li> <li>Employment Agency of Montenegro:</li> <li>There is currently one person with a granted permit for temporary residence for humanitarian reasons on the records of the Employment Agency. In accordance with the Law on Employment Mediation and Rights During Unemployment, the aforementioned unemployed person was provided with professional treatment related to information on employment opportunities and conditions, employment mediation, professional orientation, inclusion in measures of active employment policy, all with the aim of their employability. The person was referred several times to work with employers, but they did not enter employment. The person refuses mediation in employment on seasonal jobs. This person is a beneficiary of material security at the Center for Social Work.</li> </ul>
<ul> <li>6. GRETA urges the Montenegrin authorities to make efforts to guarantee effective access to compensation for victims of THB, in particular by:</li> <li>- ensuring that the collection of evidence about the harm the victim has suffered, including the financial gain from the exploitation of the victim or loss sustained by the victim, is part of the criminal investigations with a view to</li> </ul>	<ul> <li>- Prosecutor's Office:</li> <li>The State Prosecutor's Office in the cases formed against the perpetrators of the criminal offense of human trafficking, during the procedure, determines all the circumstances under which the criminal offense was committed and, in that sense, the financial gain from the exploitation of the victim. Also, the State Prosecutor's Office issues orders on the initiation of financial investigations against persons who are suspected of having committed the criminal offense of human trafficking, with the aim of confiscating assets acquired through criminal activity.</li> <li>- Court:</li> </ul>

Victims of Violent Crimes without further delay; in this context, the setting up of a victim compensation fund which uses confiscated assets of perpetrators of human trafficking to fund compensation should be treated as a priority.	- Ministry of Justice: In Montenegro, according to the current legislation, victims of criminal offenses can exercise their right to compensation in two ways: from the defendant by submitting a proposal for the exercise of a property claim in criminal proceedings or by filing a lawsuit in civil proceedings. There were no adopted legal solutions, but the Ministry of Justice has prepared a Law Proposal on Amendments to the Law on Seizure and Confiscation of Criminal Assets, which sends a strong message on the part of the state in order to clearly express the intention of recovering illegally acquired assets, while at the same time representing an improvement of the instruments which authorities will have at their disposal in that direction. In December, the Government of Montenegro determined the Law Proposal on Amendments to the Law on Seizure and Confiscation of Criminal Assets, after discussing it at the competent parliamentary committee, the ad hoc Working Group had the task of analyzing the Draft and proposing improvements.
7. GRETA considers that the Montenegrin authorities should take further steps to enable effective access to compensation for victims of trafficking by making compensation awarded in criminal proceedings payable by the State in advance, and the State taking the responsibility to recover the amount from the offender.	<ul> <li>Prosecutor's Office:</li> <li>The Law on Compensation for Victims of Violent Crimes, which will be applied on the day of Montenegro's accession to the European Union, provides that victims of violent crimes, including victims of human trafficking, will receive compensation from the budget of Montenegro, in a special section of the state administration body responsible for affairs of the judiciary.</li> <li>Court:</li> <li>The Supreme Court of Montenegro, as the highest court in the country, as part of the Analysis of Court Practice for Human Trafficking cases, recommended the courts to decide on property claims in criminal proceedings, when there are sufficient grounds for this.</li> <li>Ministry of Justice:</li> </ul>

	The Law on Compensation for Victims of Violent Crimes regulates the conditions, method and procedure for exercising the right to compensation for victims of violent crimes, that is, the law prescribes the possibility for victims to apply directly to the state for compensation. The Law entered into force on July 15, 2015, and will be applied on the day of Montenegro's accession to the European Union. In order to improve the aforementioned law, for the needs of the Ministry of Justice, an assessment of the impact (including the financial impact) of the implementation of the Law on Compensation for Victims of Violent Crimes was carried out. The mentioned Assessment was completed in June 2022 with the support of the Horizontal Facility II through the project "Improvement of process guarantees in Montenegro". The aforementioned assessment issued 3 key recommendations related to: a) the need to improve the legal solutions contained in the law itself; b) the need to pass secondary legislation and c) recommendation related to the source of funding.
<ul> <li>8. GRETA urges the Montenegrin authorities to take measures to strengthen the criminal justice response to THB, including by: <ul> <li>ensuring that human trafficking offences are proactively and promptly investigated, regardless of whether a complaint about the reported crime has been submitted or not, making use of all possible evidence, such as evidence gathered through special investigation techniques, financial evidence, so</li> </ul></li></ul>	- <b>Ministry of the Interior</b> - Police Directorate: With the formation of the Operational Team for the Fight against Human Trafficking and the cooperation of this Team with the specialized Group for Countering the Criminal Offence of Smuggling and Human Trafficking and Illegal Migration, which is systematized within the Division for Countering Severe Criminal Offenses, the efficiency and proactivity of work on investigations has been raised to a higher level. This statement is supported by the statistics on completed cases. Special investigative techniques are certainly applied in all situations when the collection of evidence is "difficult" or the nature of the investigation requires the application of these methods.

trafficking. Since one part of these cases is in the final phase of the trial, it can be expected that first-instance verdicts will be passed in the following period.

We underline that a national analysis and review of judicial practice for cases of human trafficking in Montenegro was prepared, which was created as a result of research activities carried out under the auspices of the project: "UN.Locking the Impunity for Traffickers and Supporting Justice for Victims of Trafficking in Persons in Southeastern Europe ", which is led by the United Nations Office on Drugs and Crime (UNODC) based in Belgrade.

This Analysis, as the first analytical document of its kind, deals with the criminal legal response of the Montenegrin authorities to the problem of human trafficking and, based on a complete insight into judicial practice in terms of investigation, prosecution and adjudication, provides answers to key research questions. The cases were analyzed from the very beginning, starting from the grounds for suspicion that there is a case of human trafficking to the final verdict of the criminal case, with the aim of reviewing the actions of all authorities involved in the process of combating human trafficking (police, prosecutor's office and court) and draw conclusions based on the facts : whether all necessary measures were taken in a timely manner with the aim of effective detection and prosecution of perpetrators of criminal offences, whether the policy of sanctioning perpetrators of criminal offences were taken to protect the victim.

The analysis had as subject of the research the final cases for the criminal offense of human trafficking, which were analyzed by the method of direct inspection of the files of final cases of human trafficking, which enabled the consultants to conduct a close, in-depth and detailed examination of the subject of study, as well as the accompanying conditions

	The Ministry of Justice prepared the Proposal of the Law on Amendments to the Criminal Code of Montenegro, as well as the Proposal of the Law on Amendments to the Criminal Procedure Code. The law proposals have been sent to the European Commission for opinions and comments. In relation to the criminal offense referred to in Article 444, apart from the terminological harmonization of the concept of a child, kidnapping is added as one of the manners of committing this criminal offence, another more serious form of this criminal offense has been added, which will exist if the offense from paragraph 3 of this article has resulted in serious bodily injury of a child, and a prison sentence of at least five years is prescribed. Also, alignment with Directive 2011/36/EU was carried out, paragraph 11 introduces a provision on non-punishment of the victim for criminal activities that they were forced to commit. Paragraph 11 reads: "The victim of the criminal offense referred to in paragraph 1 of this Article shall not be punished for the criminal activities which he/she was forced to commit, as a direct consequence of being a direct victim of any of the offenses referred to in paragraph 1 of this Article". The Law Proposal introduces a new criminal offense of Sale of Children. The need to introduce this criminal offense exists because the UN Committee on the Rights of the Child, in its Concluding Observations on the combined second and third periodic report of Montenegro, stated that it urges the signatory states in particular: to provide in domestic legislation an explicit definition of the criminal offense of sale of children and ensure that it is incorporated into the relevant legislation in accordance with Articles 2 and 3 of the Optional Protocol to the Convention on the Rights of the Child on the Sale of Children, Child Prostitution and Child Pornography from 2000. #### - Prosecutor's Office:

In the reporting period, the State Prosecutor's Office did not have any requests or assessments that a certain person injured by the criminal offense of human trafficking should be offered the status of a protected witness, and in the event of such circumstances, it is ready to act in accordance with the law.

#### - Court:

Measures for the protection of victims during court proceedings:

When it comes to the participation of minors - injured parties in criminal proceedings, in some cases, good court practice can be observed, especially in the part of excluding the injured child party from direct testimony in order to avoid secondary victimization, so during the proceedings the court made a decision not to hear the victim directly at the main trial, and their statement given before the state prosecutor's office was used during the proceedings.

In cases in which minors participate in criminal proceedings, the acting of the Expert Service towards the injured party-child and other minor participants in the proceedings is of crucial importance, which is reflected in the overall observance of national and international standards, which require the highest level of attention of the authorities in dealing with children in criminal proceedings.

Based on data from judicial practice, it can be seen that no victim of human trafficking had the status of a protected witness, which is a rarity also for other types of criminal offences.

In the cases in which minors as injured parties gave their testimony at the main trial, the Expert Service of the Supreme State Prosecutor's Office previously issued a finding and opinion, with the aim of assessing and preparing the minor injured parties for possible testimony, and on the basis of which it was established that they understood the purpose of the criminal proceedings against the suspect and their participation in the proceedings and were ready to testify before the state prosecutor for minors. This procedure is a good practice. A good practice can be observed, when in one of the analyzed cases the competent state prosecutor, deciding on the protection of victims of human trafficking, applying the provision from Article 9 of the Constitution of Montenegro and Article 6 paragraph 2 item b of the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children and appointed an attorney-lawyer for the injured party-minor victims, in order to provide assistance that will enable them to present their points of view and interests in the appropriate stages of the criminal proceedings against the perpetrators of the criminal offence, in a way that will not affect the defendant's right to defense in the proceedings.

The Supreme Court of Montenegro, in cooperation with the Program Office of the Council of Europe and the NGO Women's Rights Center, organized a workshop in June 2022, with the aim of training and supporting services for the support of victims and witnesses at courts in Montenegro in order to provide quality support to victims of domestic violence, human trafficking and crimes against sexual freedom. At this seminar, persons in charge of supporting victims and witnesses from Montenegrin courts had the opportunity to expand their knowledge and practice the skills necessary for working with victims and witnesses of domestic violence, human trafficking and crimes against sexual freedom, to exchange experiences with colleagues, as well as to become familiar with organizations that provide long-term support to victims of these forms of crime. At the seminar, they also had the opportunity to familiarize themselves with the skills needed to prevent burnout in the performance of this complex duty.

The Government of Montenegro has prepared the Draft Amendments to the Criminal Procedure Code, which for the first time recognizes the Witness Support Services through the legal text and positions them in the courts.

Furthermore, the Memorandum of Cooperation signed in December 2022 between the Supreme Court of Montenegro and the Institute for Legal Studies (IPLS) agreed on cooperation on the Project "Improving the system of protection of victims in the judicial system of Montenegro". The project is supported through the program "Access to justice and human rights in Montenegro - Trial monitoring project 2021 - 2023", implemented by the Center for Monitoring and Research (CeMI) and Human Rights Action (HRA), financed by the European Union, and co-financed by the Ministry of Public Administration.

	Among other things, as part of this project, monitoring of the work of victim support services in all courts in Montenegro will be carried out and recommendations will be made for improving the efficiency of their functioning.

16. GRETA considers that the Montenegrin authorities should strengthen engagement with the private sector, in line with the UN	- Ministry of the Interior - Department for Fight against Trafficking in Human Beings:
Guiding Principles on Business and Human Rights and Council of Europe Committee of Ministers Recommendation CM/Rec(2016)3 on human rights and business, with a view to raising awareness of the important role and responsibility of businesses in supporting the rehabilitation	The MoI/ Department for Fight against Trafficking in Human Beings with the support of the OSCE Mission to Montenegro and the OSCE Office of the Special Representative and Co-ordinator for Combating Trafficking in Human Beings, on May 10-11, 2022, organized a two-day conference in Budva on the topic "Preventing Human Trafficking in Supply Chains". The Minister of the Interior, together with the Ambassador of the OSCE Mission to Montenegro, opened the conference, which was attended by representatives of law enforcement agencies, the judiciary, the Ministry of the

and recovery of victims, and to provide access to effective remedies.	Interior, the Ministry of Economic Development, the Chamber of Commerce, the Union of Employers, the Labour Inspectorate and representatives non-governmental organizations.
	The conference was held with the aim of:
	• raising awareness and starting a dialogue about the importance of developing and implementing policies and practices aimed at preventing human trafficking in supply chains;
	• mapping the current situation and taking into account the best practices and experiences from other countries in improving the institutional response;
	• strengthening cooperation between state institutions and the private sector in ensuring respect for human rights during the procurement process;
	• presenting guidelines and recommendations made by the OSCE and discussing the most effective ways of translating them into the legal and political framework that best suits the context of Montenegro.
	During the conference, representatives of the executive structures of the OSCE, Montenegro and other OSCE Participating States shared their experiences and vision on how current international events could be reflected and practically implemented in the context of Montenegro. The conference offered a platform for dialogue on the legal framework and policies against THB in supply chains in Montenegro.
	Representatives of the MoI/ Department for Fight against Trafficking in Human Beings took part in the regional meeting entitled "Human Rights Due Diligence: Taking action against human trafficking for labour exploitation in supply chains " in Skopje, on May 11, 2023, organized by the OSCE Office of the Special Representative and Co-ordinator for Combating Trafficking in Human Beings and the OSCE Mission to Skopje in cooperation with the National Commission for the Fight against Human Trafficking of North Macedonia. Among other things, the regional conference aimed to raise awareness and continue the dialogue on the importance of developing and implementing policies and practices aimed at preventing human trafficking in supply chains, as well as mapping the current situation in the Western Balkans region and reviewing the best practices and experiences of other countries such as Germany, Norway and the USA in order to strengthen the institutional response. In addition to the representatives of the MoI/Department, representatives of the Ministry of Finance - Directorate for Public Procurement Policy, Ministry of
	Labor and Social Welfare, as well as the Directorate for Inspection Affairs took part in the meeting.

17. Further, GRETA considers that the Montenegrin authorities should adopt legislation integrating the prevention of THB and labour exploitation in public procurement policies and promoting transparency in supply chains, to enable scrutiny of companies' performance to prevent THB and labour exploitation	- Ministry of Finance - Directorate for Public Procurement Policy:

	Representatives of the MoI/ Department for Fight against Trafficking in Human Beings took part in the regional meeting entitled "Human Rights Due Diligence: Taking action against human trafficking for labour exploitation in supply chains " in Skopje, on May 11, 2023, organized by the OSCE Office of the Special Representative and Co-ordinator for Combating Trafficking in Human Beings and the OSCE Mission to Skopje in cooperation with the National Commission for the Fight against Human Trafficking of North Macedonia. without a concluded contract can be a consequence of human trafficking. Inspection supervisions
are also carried out together with the Police Directorate - Inspectors for Foreigners, especially in
the construction sector, where there is an influx of labor from other countries and where there is a
possibility that there are persons who are victims of human trafficking. Inspection supervisions are
also carried out based on reports from the non-governmental sector and trade unions, therefore
cooperation with these entities is achieved in this way. According to the positive regulations, the
Division for Labor Inspection does not have the competence to deal with immigration policy, so it
is not necessary to undertake activities from the Recommendation in that area. In connection with
the mechanisms of reporting and complaints for cases of labor exploitation, the Directorate for
Inspection Affairs, the Division for Labor Inspection has the obligation to inform the Dalica

the mechanisms of r for and Inspection Affairs - the Division for Labor Inspection has the obligation to inform the Police complaint mechanisms for cases of Directorate in cases where it determines the existence of indicators indicating that a person is a victim of human trafficking.

#### - Ministry of the Interior- Police Directorate:

The Police Directorate recognizes the importance of the Labor Inspectorate when it comes to detecting cases of human trafficking and identifying victims. In this regard, the Action Plan for 2023 envisages, through its measures, the drafting of a Protocol on cooperation between the MoI-Police Directorate and the Labor Inspectorate, which would define common goals and actions in accordance with the competences of action.

authorities should continue investing in social, economic and other measures for groups vulnerable to THB, including outreach work in Roma and Egyptian communities. Further efforts should be made to promote gender equality, combat against violence women and child/early/forced marriages, as well as support specific policies for the empowerment of women and girls as a means of combating the root causes of THB

### - Ministry for Human and Minority Rights:

The Government of Montenegro adopted the National Gender Equality Strategy 2021-2025 with the Action Plan for 2021-2022, with the main goal of raising the level of gender equality in Montenegro, through the improvement of the application of the existing normative framework and the implementation of measures that strengthen the capacities of institutional mechanisms for the implementation of legal provisions for protection against discrimination, establishing more efficient and effective coordination , monitoring of implementation and reporting. The measures from this Strategy also address the need for more intensive involvement of all actors in society in solving problems related to discrimination based on sex and gender and empowering women and persons with different sexual and gender identities. An instrument was created to assess the degree of gender mainstreaming of public policies, which will be used for important public policies and government strategic documents, where additional, gender-segregated statistics are necessary to assess the impact on men and women. The Strategy for Public Administration Reform for the period 2022-2026 defined the issue of horizontal inclusion of the gender perspective in all strategic goals in the public administration system and its functioning.

Two campaigns were carried out with the aim of raising awareness about the problem of nonreporting of violence on the occasion of "16 Days of Activism Against Violence Against Women and Girls" and on the importance of distributing chores in the household - "We Don't Share Stereotypes, We Share Responsibilities". The aim of the campaign was to raise citizens' awareness of the importance of suppressing stereotypes and prejudices about the gender roles of men and women in Montenegrin society. The campaign follows the recommendations of the Committee on the Elimination of Discrimination against Women (CEDAW).

In 2021, the Government of Montenegro adopted the "Strategy of Social Inclusion of Roma and Egyptians in Montenegro 2021 - 2025" and adopted the Action Plan for its implementation for 2021. The strategic document is based on seven basic principles that define public policies related to the social inclusion of Roma and Egyptians, including the fight against human trafficking and child arranged marriages.

The "My Life" campaign was implemented from February 28, 2022 to December 31, 2022 through the project "Campaign on Child/Arranged Marriages, Domestic Violence and Begging" within the Sectoral Operational Program for Employment, Education and Social Protection (SOPESS 2015-

2017). The project was financed by the EU with the contribution of the Government of Montenegro. The value of the project was 265,000.00 euros. The project was implemented by the public relations agency P.R.A., and the beneficiary of the project was the Ministry of Human and Minority Rights. The following activities were carried out within the mentioned project: public campaigns on early/arranged/contractual marriages, domestic violence and street begging; research was conducted on the influence of collaborators for the social inclusion of Roma and Egyptians; promotional material (brochures, posters, etc.) was designed, produced and distributed; media events; workshops for parents and children from 11 Montenegrin municipalities; workshops for representatives of public/local authorities, police, schools, centers for social work; three-day forums for RE community representatives and representatives of public/local authorities, police, schools, Centers for Social Work; a mobile application developed and available for installation in the Google Store and the iPhone App Store; Social media channels created to inform and raise awareness, such as YouTube, Instagram. Also, within the framework of the "My Life" campaign, on the occasion of November 5, the International Day of the Roma Language, the Festival of Roma Culture was held in the KIC "Budo Tomović". At the Festival of Roma Culture, the round table "Romology", the Exhibition of famous Roma in the world, the performance of the Roma folklore society "Naše igre" was performed, as well as the main program with a concert by the KAL group from Belgrade.

The project implemented by the German organization HELP as part of SOPEES 2015-2017, completed on October 15, 2022. Through it, 34 collaborators were engaged for 12 months in the social inclusion of Roma and Egyptians in the field of social protection, health care and employment. The beneficiary of the project is the Ministry of Human and Minority Rights. From October 15, 2022 to December 31, 2022, the organization HELP financed 21 collaborators (out of a total of 34) and those collaborators who proved to be the best during the project.

The Ministry of Human and Minority Rights was granted funds by the Law on the Budget for 2023 to engage the aforementioned collaborators (21 of them) for a maximum of one more year under a fixed-term employment contract, and the Ministry of Human and Minority Rights concluded employment contracts starting on January 1, 2023 with 21 associates and they are financed from the budget of Montenegro. Collaborators work in the same positions they worked at during the HELP project.

	<ul> <li>The Ministry of Human and Minority Rights organized a two-day training for collaborators in the social inclusion of Roma and Egyptians on the topic: "The Fight Against Human Trafficking and Arranged Marriages" in December 2022.</li> <li>Ministry of Labor and Social Welfare:</li> </ul>
	The preparation of the National Plan for the implementation of the Council of Europe Convention on preventing and combating violence against women and domestic violence (Istanbul Convention) is underway, which deals, among other things, with the complete elimination of discrimination faced by Roma and Egyptian women when they seek protection from violence; with the appropriate distribution of human and financial resources for policies, measures and regulations aimed at preventing and combating violence against women. And in this regard, one of the basic measures is the removal of procedural obstacles and restrictions on the criminal prosecution of the crime of forced marriage, as well as the creation of conditions for the establishment of a support service for victims of arranged marriages. In addition to other activities, it is also planned to organize educational workshops for the Roma and Egyptian population on the causes, prevalence and consequences of violence, the rights of victims and institutions that provide protection, with the contacts of the institutions.
23. GRETA invites the Montenegrin authorities to continue their efforts to ensure effective access to civil registration procedures and issuance of personal documents to refugees from former Yugoslavia and persons at risk of statelessness.	- Ministry of the Interior - Directorate for Administrative Affairs, Citizenship and Foreigners: Through the Law on Foreigners (March 2018), Montenegro enabled displaced and internally displaced persons to acquire the status of a foreigner with long-term residence in Montenegro, under preferential conditions, as a measure for a permanent solution to their status. These persons are enabled to integrate into Montenegrin society and exercise the right to work and employment, education, professional training, recognition of diplomas and certificates, social assistance, health and pension insurance, tax benefits, access to the labor market and services, freedom of association, liaising and membership in organizations that represent the interests of workers or employers. Thus, in the period November 2009 - April 2023, displaced persons and internally displaced persons

for up to three years. Of this number, 15,146 applications have been resolved, while the procedure for 115 applications is ongoing.
The Law on Montenegrin Nationality is in accordance with the principles of the European Convention on Nationality, that is, it deals with the following issues: avoiding statelessness, preventing arbitrary deprivation of nationality, preventing discrimination and the right to nationality.
At the Global Event on Statelessness, Montenegro undertook obligations related to: continuing the implementation of simplified procedures for obtaining identification documents both at the national level and in cooperation with the countries of origin of persons affected by this problem, ensuring the registration of children abandoned by their mothers in the register , that is, whose mothers do not have identification documents, strengthening the procedure for determining the status of stateless persons and exchanging experience in the field of statelessness prevention with other countries from the region.
By introducing a court procedure to determine the time and place of birth of persons who were born in Montenegro, outside the health system, as well as by the practice of registering in the register of persons born abandoned by their mothers or whose mothers do not have identification documents, Montenegro has fully created the conditions for registration in register of births for all persons born in its territory.
Montenegro is one of the countries that established a procedure for determining the status of a stateless person, through the adoption of the new Law on Foreigners, which entered into force in March 2018, and the Rulebook, which determined the closer manner to establish the procedure, the content of the application for determining of the status of a stateless person, the content of the application for issuing a travel document for a stateless person, as well as the design and content of the travel document itself. In accordance with this Law, activities were undertaken to determine and recognize the status of stateless persons, thereby ensuring the enjoyment of fundamental human rights and freedoms while respecting the ratified conventions.
In Montenegro since 2018, more precisely since the moment when the procedure for determining the status of stateless persons was established, concluding with 05/03/2023, for a total of nine

	persons, the status of a stateless person was determined, while the procedure of determining is ongoing for 17 applications, i.e. persons.
	Persons who submitted an application to determine the status of a stateless person were assisted through the free legal aid program, financed by the UNHCR. Local NGOs Pravni centar and Civic Alliance, as UNHCR's excellent partners in providing free legal aid to persons at risk of statelessness, regularly printed leaflets in Montenegrin, Roma and Albanian languages about the importance of registration in civil registers and the free legal aid they can get in those procedures. Leaflets were distributed in settlements where persons at risk of statelessness live. Also, through their presence in the media, mainly in the morning programs of TV stations with national coverage, persons at risk of statelessness were invited to contact these two NGOs for further assistance.
	The Ministry of the Interior, in cooperation with the UNHCR, organized several workshops for the training of Ministry of the Interior officials in the application of the Law on Foreigners in the part related to stateless persons, as evidence of the commitment of Montenegro to regulate this issue, in October 2021, with the support of the UNHCR A two-day international conference on statelessness was organized at which the competent authorities of Montenegro and representatives of relevant institutions and universities in France exchanged experiences in the field of statelessness. Also, the Ministry of the Interior had a representative in the consultations on the subject of good practices in the identification and protection of stateless persons in Europe, which took place in Madrid on 20-21. October 2022.
	The Government of Montenegro adopted the Strategy on Migration and Reintegration of Returnees in Montenegro, for the period 2021-2025, with an Action Plan for 2021 and 2022. This strategic document will shape the national migration policy during the next five years in accordance with the EU acquis and best practices in the field of legal migration, asylum, prevention of irregular migration, readmission, return, integration, internally displaced persons (IDPs) and statelessness.
24. GRETA urges the Montenegrin authorities to further strengthen the identification of victims of THB, including by:	- Ministry of the Interior - Department for Fight against Trafficking in Human Beings:

- making the SOPs for the At identification of victim of THB Ide binding and training all relevant for professionals on their use, including staff working at facilities for asylum seekers and detained migrants;
- involving the specialised police division for combating THB in joint inspections with the Labour Inspectorate;
- ensuring that law enforcement officials, social workers, NGOs and other relevant actors adopt a more proactive approach and increase their outreach work to identify victims of human trafficking for the purpose of sexual exploitation as well as labour exploitation;
- ensuring that whenever there are reasonable grounds to believe that a foreign national is a victim of THB, the person concerned has access to a recovery and reflection period;
- enhancing co-ordination between the asylum procedure and the system for assisting victims of THB, in order to ensure that persons identified during the asylum procedure as vulnerable and at risk of trafficking have access both to refugee status and to

At the session on October 29, 2020, the Government adopted the National Plan for the Formal Identification of Victims of Human Trafficking (in this way, the Standard Operating Procedures for the formal identification of victims of human trafficking were adopted under a modified name). The document consists of a general and a specific part. The general part defines the basis, the international and national legal framework, the basic terms, principles and structure of the document, as well as the composition and competences of the Team for the Formal Identification of Victims. A special part of the document explains in detail the steps that must be taken in order to provide initial assistance, protection and referral of persons who are presumed to be victims of human trafficking and a well-conducted procedure for their formal identification.

At the operational level, the Team for Formal Identification of Victims of Human Trafficking, which was formed by the Minister of the Interior in November 2019, is obliged to act in accordance with the National Plan as of 2020, which is an integral part of the Decision on the formation of the Team.

This Team bases its work on the implementation of certain operational procedures, which provide that victim status can be granted based on the violation of human rights, and not only if the person is the subject of a criminal offense of human trafficking (so regardless of the course of criminal proceedings). In cooperation with the IOM, standard operating procedures were developed for the identification of victims of human trafficking, which are in the form of the National Plan for Formal Identification adopted by the Government (in 2020) and which the Team applies in its work, that is, according to which it conducts its analysis in relation to any person suspected of being a victim of human trafficking. The tasks of the Team are to:

- coordinate the initial referral and protection of persons presumed to be victims of human trafficking;
- carry out the procedure of formal identification of victims of human trafficking,
- establish communication and cooperation with local partners,
- visit locations where vulnerable categories are located;
- quarterly inform the Minister of the Interior about the results of its work.

Team members are available 24 hours a day and, in case of need, will go to the field as support in a specific case.

assistance/protection as victims of THB;

- enabling specialised NGOs with experience in identifying and assisting victims of trafficking to have regular access to facilities for asylum seekers and detained migrants in order to support identification of presumed victims of THB;
- systematically informing all asylum seekers, in a language they can understand, about their rights in the framework of the asylum procedure, and the legal rights and the services available to victims of trafficking;
- ensuring that pre-removal risk assessments prior to all forced removals from Montenegro fully assess the risks of trafficking or retrafficking on return, in compliance with the obligation of nonrefoulement

Results of the Team:

**2020** - The Team for Formal Identification of Victims of Human Trafficking conducted the procedure and granted the status of victims of human trafficking to 52 persons, namely: 31 males and 21 females.

Ministry of the Interior - Department for Fight against Trafficking in Human Beings:

The Department for Fight against Trafficking in Human Beings with the support of the International Organization for Migration IOM in the period May 17-18; October 24-25; November 9-10, as well as January 17-18; February 21-22; April 12-13 2023, organized trainings on the topic "Identification and referral of victims of human trafficking - implementation of the National Plan for formal identification of victims of human trafficking", for representatives of the Ministry of the Interior/Police Directorate, Ministry of Labor and Social Welfare/Centers for Social Work, Public Institutions for providing accommodation in a shelter/reception center, NGO, a total of 93 of them. The aim of the mentioned trainings was to contribute to the strengthening of national capacities towards sustainable reintegration, integration and protection of vulnerable groups in Montenegro

- Ministry of the Interior - Directorate for Administrative Affairs, Citizenship and Foreigners:

	In the context of an adequate response to the increased influx of migrants and foreigners seeking international protection, and from the aspect of minors as a particularly vulnerable category, standard operating procedures for dealing with children separated from their parents and unaccompanied children have been defined, with a special emphasis on proactive identification of potential and victims of human trafficking, in accordance with international standards and with the support of UNICEF.
	- Ministry of Labour and Social Welfare:
	In accordance with the Rulebook on closer conditions for provision and use, norms, and minimum standards of counseling-therapeutic services and social-educational services, the provider of counseling-therapy and social-educational services is obliged to provide: appropriate space; user support and empowerment and a safe environment. In addition to the above, the provider of counseling and therapy services is also obliged to provide the user with: empowerment to accept change; support in psychosocial development and preservation of potential; support in improving the quality of relations with the family, group and other persons important to the user; development of skills for recognizing and solving problems; development of communication skills and development of self-protection and decision-making skills and taking personal responsibility.
25. GRETA considers that the Montenegrin authorities should take additional steps to ensure that all assistance measures	- Ministry of Labour and Social Welfare:
<ul> <li>provided for in the Convention are guaranteed in practice, in particular by:</li> <li>establishing a more sustainable funding for shelters, in order to ensure the range and quality of the services delivered and a sufficient number of places for all victims</li> </ul>	At the end of last year, the Ministry of Labor and Social Welfare started activities to establish a state shelter for children and youth - victims of human trafficking. In this regard, at the session held in December 2022, the Government adopted the Decision on the organization of a public institution which, among other things, will provide special accommodation for children and youth who are victims of human trafficking, and in this year, activities on the adaptation of the facility for the aforementioned purposes began. The intention of the Ministry of Labor and Social Welfare is that after the establishment of this protection service, additional efforts will be made to provide adequate accommodation in shelter also for adult victims of human trafficking.

<ul> <li>who need safe accommodation, including men;</li> <li>providing long-term assistance to victims of THB and facilitating their reintegration into society</li> </ul>	Until the state shelter for children and youth - victims of human trafficking is established, the Ministry of Labor and Social Welfare and centers for social work undertake measures and activities within their jurisdiction to provide adequate care and protection to victims of human trafficking. Currently, available resources are used to place victims of human trafficking, and children victims of human trafficking are referred to an appropriate public institution. Also, in accordance with the assessment of centers for social work, child victims of human trafficking are referred to alternative forms of protection, in situations where there are justified reasons for this and an adequate assessment of safety. Adult victims of human trafficking are referred to the services of licensed service providers.
<ul> <li>26. GRETA considers that the Montenegrin authorities should strengthen their efforts to identify child victims of THB and provide them with adequate assistance, and in particular: <ul> <li>ensure that child victims of THB benefit from specialised accommodation and services across the country;</li> <li>ensure that proper risk assessment is conducted before returning children to their parents, taking into account the best interests of the child;</li> <li>provide long-term monitoring of the social inclusion of child victims of trafficking;</li> </ul> </li> </ul>	- Ministry of Labour and Social Welfare: At the end of last year, the Ministry of Labor and Social Welfare started activities to establish a state shelter for children and youth - victims of human trafficking. In this regard, at the session held in December 2022, the Government adopted the Decision on the organization of a Public Institution, which will, among other things, provide special housing for children and youth victims of human trafficking. Therefore, in the course of 2023, a specialized shelter for child victims of human trafficking will start operating. Acting in accordance with the Family Law, as well as the Law on Social and Child Protection, Centers for Social Work are obliged to periodically (every 6 months) review the cases of protection of the best interests of children and consider further child care activities. In accordance with the conclusions, the case manager makes a decision on a possible change in the form of protection for the child, e.g. transfer from the shelter to a foster family or the return of the child to the biological family. In order to strengthen capacities, it is necessary, in cooperation with the Institute for Social and Child Protection, to carry out continuous training to strengthen the skills of professional workers. MLSW plans to, in cooperation with the Institute for Social and Child Protection, establish a training package that will be mandatory for all case managers in the Centers for Social Work.
