Description:

EU Roma Week 2018 aims to build on the work done during previous Roma Weeks and build on the landmark own-initiative report that the European Parliament adopted in October 2017 on “Fundamental rights aspects in Roma integration in the EU: fighting anti-Gypsyism” which called upon the European Commission and EU Member States to put the fight against anti-Gypsyism at the forefront of efforts for the social and economic inclusion of Roma. The report was another step towards more efficient policies and programmes that can help to create real change by addressing anti-Gypsyism as a specific form of racism in its various forms and by fighting it at all levels of our societies.

The week will consist of a series of events which will provide recommendations on combatting anti-Gypsyism and continued structural discrimination. Each event will be sponsored by one or more MEPs and co-organised by civil society organisations, and the European Parliament Anti-Racism and Diversity Intergroup.

Aims:

1. **Recognition of anti-Gypsyism:** The week will be an opportunity for experts and activists on the issue to advocate European and national policymakers to strengthen the recognition of anti-Gypsyism as well as develop strategic and coherent responses.
2. **Advocacy for specific thematic areas:** Specific events will be held on different thematic areas including on the Roma Framework and its renewal post 2020.
3. **Networking and knowledge exchange:** To facilitate exchange and capacity building between and amongst experts from civil society and policymakers and officials in the European and

national Institutions, including Roma with the aim of building capacity of activists and inspiring similar activities in Member States.

Suggested outline:

1. One core hearing/briefing on anti-Gypsyism: To introduce the concept of the issue at the outset of the week, summarise the situation in Europe and highlight the need for greater recognition at the European level.
2. Smaller thematic events: Organised by issue, panel discussions or workshops on
 - Assessment of Roma Framework and way forward for 2020
 - Education and employment
 - Intersectionality
 - Policy implications of the results of the returnee study and Roma Survey in the Western Balkans and Turkey
3. Breakfast briefing between activists and MEPs: A space for activists to advocate directly on anti-Gypsyism with policymakers
4. Exhibitions/Award ceremony
5. Oral question
6. Media outreach/communication: Flyers to be designed and distributed around the EP, Voxbox, blogs, oped, # and scheduling media interviews

Attendees and speakers:

1. Policymakers: Officials from the European Institutions, MEPs, national MPs and others working in international institutions (CoE, OSCE, ODIHR and UN)
2. Representatives of local authorities and large cities in Europe
3. Civil Society
4. Roma youth
