DESCRIPTION

Career Day is a one-day event organised by Technical School in Vlasotince in May 2024 with the primary goal of **promoting further education and employment opportunities**, as well as **connecting different stakeholders in VET education**.

A special role in the organisation of the event was played by the members of the **Student Career Team** with the help of the teachers.

The events activities were designed for:

- **elementary school students:** to inform them about the **curricula of different vocational profiles** at the Technical School and the **curricular and extra-curricular activities** of the school, the **implementation of CDC in school activities** was also presented;
- **Final-year students at the school:** to provide them with information about **continuing their education at universities and colleges**;
- **unemployed people:** to inform them about **job opportunities at companies in the region** as well as various **non-formal education opportunities at the school**.

The event was a combination of education and employment fair with **exhibitors** such as:

- **Public and private companies partnering with the Technical School through dual education programmes;**
- **National Employment Service, Regional Chamber of Commerce Leskovac, and Tourist Organisation Vlasotince**
- **Faculties, colleges and non-formal educational organisations.**

The event gathered **600 secondary school students, 400 elementary school students**, parents, teachers, and unemployed people.
