[X] World Anti-Doping Code

[X] Other, please specify (e.g. national law) : Règles de L'Agence Andorrane Antidopage ARTICLE 2 définition du dopage – VIOLATION DES RÈGLES ANTIDOPAGE Le dopage est défini comme une ou plusieurs violations des règles antidopage énoncées aux articles 2.1 à 2.10 des présentes règles. Le but de l'article 2 est de préciser quelles circonstances et quelles conduites constituent des violations des règles antidopage. Les audiences relatives aux cas de dopage reposeront sur l'allégation selon laquelle une ou plusieurs de ces règles ont été enfreintes. Il incombe aux sportifs ou aux autres personnes de savoir ce qui constitue une violation des règles antidopage et de connaître les substances et les méthodes incluses dans la Liste des interdictions. Sont considérées comme des violations des règles antidopage: 2.1Présence d'une substance interdite, de ses métabolites ou de ses marqueurs dans un échantillon fourni par un sportif 2.1.1Il incombe à chaque sportif de s'assurer qu'aucune substance interdite ne pénètre dans son organisme. Les sportifs sont responsables de toute substance interdite ou de ses métabolites ou marqueurs dont la présence est décelée dans leurs échantillons. Par conséquent, il n'est pas nécessaire de faire la preuve de l'intention, de la faute, de la négligence ou de l'usage conscient de la part du sportif pour établir une violation des règles antidopage en vertu de l'article 2.1. 2.1.2La violation d'une règle antidopage en vertu de l'article 2.1 est établie dans chacun des cas suivants : présence d'une substance interdite ou de ses métabolites ou marqueurs dans l'échantillon A du sportif lorsque le sportif renonce à l'analyse de l'échantillon B et que l'échantillon B n'est pas analysé; ou, lorsque l'échantillon B est analysé, confirmation, par l'analyse de l'échantillon B, de la présence de la substance interdite ou de ses métabolites ou marqueurs décelés dans l'échantillon A du sportif; ou, lorsque l'échantillon B du sportif est réparti entre deux flacons, confirmation par l'analyse du deuxième flacon de la présence de la substance interdite ou de ses métabolites ou marqueurs détectés dans le premier flacon. 2.1.3À l'exception des substances pour lesquelles un seuil quantitatif est précisé dans la Liste des interdictions, la présence de toute quantité d'une substance interdite ou de ses métabolites ou marqueurs dans l'échantillon fourni par un sportif constitue une violation des règles antidopage. 2.1.4à titre d'exception à la règle générale de l'article 2.1, la Liste des interdictions ou les Standards internationaux pourront prévoir des critères d'appréciation particuliers dans le cas de substances interdites pouvant également être produites de façon endogène. 2.2Usage ou tentative d'usage par un sportif d'une substance interdite ou d'une méthode interdite 2.2.1Il incombe à chaque sportif de faire en sorte qu'aucune substance interdite ne pénètre dans son organisme et qu'aucune méthode interdite ne soit utilisée. Par conséquent, il n'est pas nécessaire de démontrer l'intention, la faute, la négligence ou l'usage conscient de la part du sportif pour établir la violation des règles antidopage pour cause d'usage d'une substance interdite ou d'une méthode interdite. 2.2.2Le succès ou l'échec de l'usage ou de la tentative d'usage d'une substance interdite ou d'une méthode interdite n'est pas déterminant. L'usage ou la tentative d'usage de la substance interdite ou de la méthode interdite suffit pour qu'il y ait violation des règles antidopage. 2.3Se soustraire au prélèvement d'un échantillon, refuser le prélèvement d'un échantillon ou ne pas se soumettre au prélèvement d'un échantillon Se soustraire au prélèvement d'un échantillon ou, sans justification valable après notification conforme aux présentes règles antidopage ou à toute autre règle antidopage en vigueur, refuser le prélèvement d'un échantillon ou ne pas se soumettre au prélèvement d'un échantillon. 2.4Manquements aux obligations en matière de localisation Toute combinaison de trois contrôles manqués et/ou manquements à l'obligation de transmission d'informations sur la localisation, tels que définis dans le Standard international pour les contrôles et les enquêtes, pendant une période de douze mois, de la part

d'un sportif faisant partie d'un groupe cible de sportifs soumis aux contrôles. 2.5 Falsification ou tentative de falsification de tout élément du contrôle du dopage Comportement préjudiciable au processus de contrôle du dopage, mais qui ne tombe pas sous la définition de méthode interdite. La falsification comprend, sans limitation, le fait de volontairement perturber ou tenter de perturber dans son travail un agent de contrôle du dopage, de fournir des renseignements frauduleux à une organisation antidopage ou d'intimider ou de tenter d'intimider un témoin potentiel. 2.6 Possession d'une substance ou méthode interdite 2.6.1 La possession par un sportif en compétition de toute substance interdite ou méthode interdite, ou la possession hors compétition par un sportif de toute substance interdite ou méthode interdite hors compétition, à moins que le sportif n'établisse que cette possession est conforme à une autorisation d'usage à des fins thérapeutiques (AUT) accordée en application de l'article 4.4 ou ne fournisse une autre justification acceptable. 2.6.2 La possession en compétition par un membre du personnel d'encadrement du sportif de toute substance interdite ou méthode interdite, ou la possession hors compétition par un membre du personnel d'encadrement du sportif de toute substance interdite ou méthode qui est interdite hors compétition en lien avec un sportif, une compétition ou l'entraînement, à moins que la personne en question ne puisse établir que cette possession est conforme à une AUT accordée à un sportif en application de l'article 4.4 ou ne fournisse une autre justification acceptable. 2.7 Trafic ou tentative de trafic d'une substance ou méthode interdite 2.8 Administration ou tentative d'administration à un sportif en compétition d'une substance interdite ou d'une méthode interdite, ou administration ou tentative d'administration à un sportif hors compétition d'une substance interdite ou d'une méthode interdite dans le cadre de contrôles hors compétition 2.9 Complicité Assistance, incitation, contribution, conspiration, dissimulation ou toute autre forme de complicité intentionnelle impliquant une violation des règles antidopage, une tentative de violation des règles antidopage ou une violation de l'article 10.12.1 par une autre personne. 2.10 Association interdite Association, à titre professionnel ou sportif, entre un sportif ou une autre personne soumise à l'autorité d'une organisation antidopage, et un membre du personnel d'encadrement du sportif qui: 2.10.1 s'il relève de l'autorité d'une organisation antidopage, purge une période de suspension; ou 2.10.2 s'il ne relève pas de l'autorité d'une organisation antidopage, lorsqu'une suspension n'a pas été imposée dans un processus de gestion des résultats conformément au Code, a été condamné ou reconnu coupable, dans une procédure pénale, disciplinaire ou professionnelle, d'avoir adopté un comportement qui aurait constitué une violation des règles antidopage si des règles conformes au Code avaient été applicables à cette personne. Le statut disqualifiant de ladite personne sera en vigueur pendant six ans à compter de la décision pénale, professionnelle ou disciplinaire ou pendant la durée de la sanction pénale, professionnelle ou disciplinaire imposée, selon celle de ces deux périodes qui sera la plus longue; ou 2.10.3 sert de couverture ou d'intermédiaire pour un individu décrit aux articles 2.10.1 ou 2.10.2. Pour que cette disposition s'applique, il est nécessaire (a) que le sportif ou l'autre personne ait été préalablement notifié(e) par écrit par une organisation antidopage ayant juridiction sur le sportif ou l'autre personne, ou par l'AMA, du statut disqualifiant du membre du personnel d'encadrement du sportif et de la conséquence potentielle de l'association interdite; et (b) que le sportif ou l'autre personne puisse raisonnablement éviter l'association. L'organisation antidopage fera également des efforts appropriés pour signaler au membre du personnel d'encadrement du sportif faisant l'objet de la notification au sportif ou à l'autre personne qu'il dispose de 15 jours pour contacter l'organisation antidopage en vue d'expliquer que les critères décrits aux articles 2.10.1 et 2.10.2 ne s'appliquent pas à lui. (Nonobstant l'article 17, le présent article s'applique même si la conduite disqualifiante du membre du personnel d'encadrement du sportif s'est produite avant la date d'entrée en vigueur prévue à l'article 20.7.) Il incombera au sportif ou à l'autre personne d'établir que l'association avec le membre du personnel d'encadrement du sportif décrite aux articles 2.10.1 ou 2.10.2 ne revêt pas un caractère professionnel ou sportif. Les organisations antidopage qui ont connaissance d'un membre du personnel d'encadrement du sportif répondant aux critères décrits aux articles 2.10.1, 2.10.2 ou 2.10.3 soumettront ces informations à l'AMA.
