Survey on falsification of medical products for veterinary use
States Parties to the MEDICRIME Convention's replies

The MEDICRIME Bureau, sitting on its last meeting, held on the 14 October 2021, considered necessary the distribution of a survey on the falsification of medical products for veterinary use¹ aimed at getting a clear picture of the situation of any counterfeit/falsified veterinary medicines in States Party to the MEDICRIME Convention. Thus, this is a necessary first step to provide information about the state of play on this topic, the risks and possible needs to be identified in line with the Convention².

The survey was sent by the Secretariat to all Parties to the MEDICRIME Committee. The deadline approved by the MEDICRIME Bureau for receiving the contributions from Parties was 12 November 2021). The replies received can be consulted below:
