EXPECTED DELIVERABLES

Background of the Project

Barnahus is a leading European model for a child-friendly multidisciplinary and interagency response to child sexual exploitation and abuse. In 2019, Finland initiated its own nationwide Barnahus project to be implemented around the core of five university hospital expert units specialising on forensic psychology/psychiatry (Barnahus-units). The EU-CoE Joint Project Barnahus in Finland sets to support the Finnish authorities in addressing the needs and challenges identified since the launch of their project so as to reduce significant existing delays in the pre-trial and judicial processes involving children.

The project is divided into three main components:

1. Improving the legislative and policy framework for the functioning of Barnahus services in Finland;
2. Strengthening inter- and multi-agency coordination mechanisms to reduce the delays in the duration of the judicial processes related to child victims of violence;
3. Increasing awareness on child sexual abuse through child participation.

The Council of Europe is looking for a maximum of 3 Providers in order to support the implementation of the project with a particular expertise on market research in Finland and children's rights. (See Section A of the Act of Engagement).
