2020/AO/58

A. BACKGROUND

The Council of Europe/European Commission ROMACTEDII Programme will be a **natural follow-up to the implementation of Phase I of the ROMACTED Programme in the Western Balkans and Turkey (2017-2020)**, which will serve to consolidate and expand efforts to improve the integration of Roma populations in local communities through enhanced participation in local policymaking and implementation of local actions. ROMACTEDII will continue to assist the local authorities to integrate Roma specific dimensions/measures into the mainstream local policies, action plans related to these policies, budgets and public service delivery, thereby enhancing democratic participation and empowerment of local Roma communities.

The project pursues the following objectives: improving local democracy, accountability, inclusiveness and responsiveness towards Roma citizens and thereby improved delivery of services.

The Programme is designed to build up political will and sustained policy engagement of local authorities, to enhance democratic local governance and to build up capacity and stimulate the empowerment of local Roma communities to contribute to the design, implementation and monitoring of plans and projects concerning them through the following outcomes:

- 1) empowering Roma community - on the individual level (assisting people to practice their basic rights and to expand their capacity and skills), as well as on the community level (assisting people to get organised to voice out their interests around community problem solving, and;
- 2) improving and expanding the institutions' commitment, capacities, knowledge and skills in working for Roma inclusion, putting in practice the concepts of good governance;
- 3) contributing to preparation of the local development actions that aim to improve the quality of life for Roma and to reduce the gap between Roma and non-Roma.

Specific actions include assisting the local authorities to integrate Roma specific dimensions/measures into the mainstream local policies, budgets and public service delivery on their agenda, while enhancing the participation of the Roma citizens in the design, implementation and monitoring of those policies and projects.

The target groups of the project are local public administrations (the elected representatives and relevant officials) and the Roma communities from the selected municipalities. They are also the first short-term Beneficiary groups of the Programme. Overall, the Programme will target up to 70 municipalities in the region. The mid- to long-term beneficiaries are the Roma population and the population of the municipality in general.

Programme activities will take place in seven Beneficiaries: Albania, Bosnia and Herzegovina, Montenegro, North Macedonia, Serbia, Turkey, and Kosovo*¹.

The Council of Europe will be assisted in the implementation of the ROMACTEDII Programme in the Beneficiary by a Support Team. This Support Team will comprise a Support Organisation, Focal Point and the Thematic Consultants and Facilitators selected through this Call for Tenders. In order to achieve the objectives of the programme, the ROMACTED methodology, which is outlined in the ROMACTED Handbook available [here](#), will be followed.

For additional reading, please note that the ROMACTED methodology is a combination of the ROMED2 and ROMACT methodologies which are available online as follows: ROMED2 Guidelines for National and Local Facilitators ([here](#)) and ROMACT handbook ([here](#)).

The Support Team will work in close co-operation with, and under the instructions and monitoring of, the Project Officer based in the CoE field office and the Programme Team based in Strasbourg.

¹ This designation is without prejudice to positions on status, and is in line with UNSCR 1244/1999 and the ICJ Opinion on the Kosovo Declaration of Independence

Stakeholders

ROMACTEDII will target local administration and Roma communities in up to nine municipalities in Turkey, including the following five ROMACTEDI municipalities: Istanbul (Şişli) Edirne, Ereğli, Izmir (Konak) and Samsun (Canik) which are shortlisted to continue with the implementation of ROMACTEDII. The additional municipalities are currently being assessed.
