CALL FOR TENDERS

FOR THE PROVISION OF LOCAL CONSULTANCY SERVICES IN THE FIELD OF EDUCATION FOR DEMOCRATIC CITIZENSHIP AND DEMOCRATIC SCHOOL GOVERNANCE 2022/AO/28

A. BACKGROUND

The Council of Europe is currently implementing the Project "[Democracy Starts in Schools – Engaging School Children in Decision Making Processes in Schools and Communities in Georgia](#)". The Project is implemented by the Council of Europe from March 2022 to December 2023 in cooperation with the Ministry of Education and Science and with the financial support of the Swiss Agency for Development and Cooperation (SDC). The objective of the Project is to strengthen democracy in Georgia through increased participation of young people in the decision-making processes at the local level through democratic citizenship education and practices in schools.

The "[Democracy Starts in Schools – Engaging School Children in Decision Making Processes in Schools and Communities in Georgia](#)" Project is based on the Council of Europe approach to civic education: a holistic view on knowledge, skills, values and attitudes, a focus on democratic school development and an integration of young people's civic experiences in the wider community.

Starting with the premise that active participation in the school life and in the life of their communities provides school children with the opportunity to live in a democratic community and helps them develop competences for becoming active members of a democratic society, the Project will address the need for greater participation of youth in the social and political life in Georgia.

The Project will support the national education authorities of Georgia to implement a series of measures that are needed to create more opportunities for participation for school children and motivate them to take part in the decision-making processes in schools and communities. More specifically, the Project will help develop methodological guidance for schools on the democratic school governance, will support school directors as key actors in this process and enable them to provide strategic leadership, will support school projects implemented in partnership with civil society organisations and other community actors, and will support school children in developing and implementing projects in their schools and communities.

Expected results/outcomes:

- Educational institutions and educational staff develop school children's competences for democratic culture.
- Schoolgirls and schoolboys exercise their democratic rights and responsibilities by participating in the decision-making processes in their schools and communities.

Activities/Outputs:

- *Policy recommendations* on strengthening the legislative and policy framework for the democratic governance of schools will be developed jointly with the Ministry of Education and Science of Georgia and other stakeholders.
- *Methodological guidelines* on strengthening democratic school governance in schools will be developed and piloted in schools.
- *Capacity building*: a professional development programme (training, mentoring and peer exchange) for school directors and teachers on democratic citizenship education and the democratic school governance will be developed and delivered.
- *School projects*: Schools will partner with civil society organisations and other community stakeholders to develop and implement projects linked to learning outcomes and addressing key problems in the community through a small grants scheme for civil society organisations.
- *School study visit and student peer exchanges*: best practices in democratic school governance will be shared within one study visit by Georgian school teams to Moldova, and two summer academies for a total of 60 school children on democracy and human rights and project management will be organized.

- *A national Democratic and Inclusive School Network* for sharing and promoting best practices in democratic school governance will be set up.
- *Awareness raising*: a national conference to launch the project will be organized and school children will peer exchange and showcase their projects within a national conference dedicated to school children participation in schools and communities.

The Council of Europe is looking for a maximum of 22 Provider(s) (provided enough tenders meet the criteria indicated below) in order to support the implementation of the Project with a particular expertise on education for democratic citizenship and democratic school governance.
