

# The Ambulance for Monuments activity: Community involvement

PhD in History, Eng. **Bogdan ILIEȘ**

The Ambulance for Monuments, Sălaj branch

October 2021

# The Ambulance for Monuments

- Project for safeguarding the built heritage, initiated in 2016 by the MONUMENTUM Association.
- In recent years, the "Ambulance for Monuments" project has expanded, being currently managed by a number of organizations, existing or newly created, with independent activity in several regions of Romania.

# The objectives of the Ambulance for Monuments are:

- To get the communities involved in sustainable heritage safeguarding actions
- To safeguard the immovable heritage and keep a record of such heritage
- To increase the level of professional training of the experts through non-formal and informal participatory education based on the “hands on training system”
- To recover the traditional techniques and the local materials
- To increase the philanthropy level and create new audiences for such heritage.

# The Ambulance for Monuments

## The Ambulance for Monuments

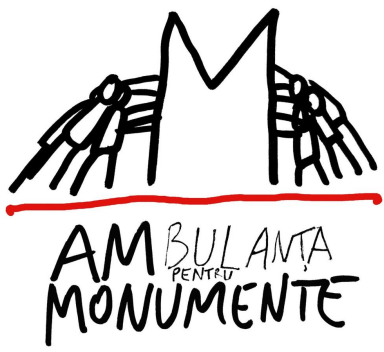

### How does it work?

- Communities provide materials, accommodation and meals for coordinators, craftsmen and volunteers.
- The Ambulance for Monuments provides the tools and labor: craftsmen and volunteers, helps to prepare the necessary documentation.

# The Ambulance for Monuments

Protecting the built heritage is usually expensive and the acute lack of craftsmen and specialists makes this work even more difficult. For these reasons, in order to help communities in difficulty, the Ambulance for Monuments acted mainly in rural areas.

The Ambulance for Monuments supports traditional craftsmen ...

# The Ambulance for Monuments

... And use local materials.

# The Ambulance for Monuments

During the interventions we try to get to know better monuments and local communities in the nearby areas ...

# The Ambulance for Monuments

... And taste the local products.

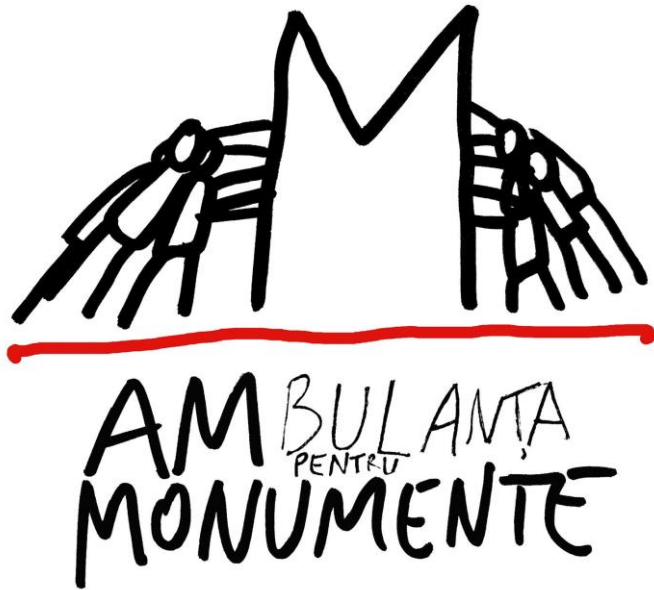

# The Ambulance for Monuments

We consider the interests of all ...
