Subject: Candidacy for the Presidency of the Monitoring Committee of the Congress of Local and Regional Authorities of the Council of Europe.

Dear colleagues.

President of the French delegation to the Congress and First Vice-President of the EPP Group since 2021, I have the honour to present to you today my candidacy for the Presidency of the Monitoring Committee of the Congress of Local and Regional Authorities of the Council of Europe.

This commission is at the heart of the prerogatives of Congress. These prerogatives were reinforced by the decisions of the Summit of Heads of State and Government held last May in Reykjavik, in which I had the honour of participating.

In addition to monitoring the implementation of the Charter on Local Self-Government, the commission will now have the task of ensuring respect for human rights and the rule of law at local and regional levels.

As mayor and vice-president of an inter-municipal association, I know how important the local level is in these areas and I know the full commitment of local and regional elected officials.

So it's an exciting job ahead of us. To this end, I am committed to being a President who is available and listening. I wish to participate in bringing to life the values that are ours, and that we defend in the Congress, while respecting the convictions of each and every one of us and the singularities of the 46 Member States.

Looking forward to seeing you again in Strasbourg,

Yours faithfully.

Thibaut Guignard
