

Language Support for Migrants *A Council of Europe Toolkit*

Tool 44 - Migrants' language profile

Aim: To provide a template for notes about migrants' competences in the languages which they know, including the target language.

The form below will help you to gather information about each migrant's 'language profile' while using the tools of this series. A language profile is a description of a person's language competences. It includes their level of competence in the different languages which they know and their ability to use the languages in different communicative situations, etc.

Name and Surname	
------------------	--

First/preferred language	
Other languages:	

WHICH OTHER LANGUAGES?	 Speaking	 Understanding the spoken language	 Understanding the written language	 Writing
